theory He explores the ways in which anxiety can be valuable arguing that anxiety can be a fitting response and that it undergirds an important form of moral concern He considers anxiety's role in deliberation and decision making using the examples of Martin Luther King Jr and the abolitionist John Woolman to show that anxiety can be a mechanism of moral progress Drawing on insights from psychiatry and clinical psychology Kurth argues that we can cultivate anxiety so that we are better able to experience it at the right time and in the right way
