## **Emperor Maurice And His Historian:**

**The Emperor Maurice and His Historian** Michael Whitby, 1988 Theophylact Simocatta the last historian of classical antiquity has in the past deterred investigators by the idiosyncrasies of his style Through examination of Theophylact's narrative and collation with other available evidence Dr Whitby has unpicked the obscurities biases and errors to clear the way for a more accurate appreciation of the events of the reign of Emperor Maurice 582-602 Maurice's reign witnessed great struggles as the Romans attempted to defend their traditional frontiers on the Danube and in Mesopotamia and Armenia In both areas Maurice achieved great successes in the Balkans migrations of Slavs and invasions by Avars were held in check if not completely halted and in the east the emperor reinstated Khusro II the legitimate Persian king and attempted to forge a long term peace These events are important both in the historical geography of the Balkans and eastern frontier and for understanding the fate of the post Justinian Roman Empire Whitby reveals the History as a work worthy of serious study in its own right as a product of the last flowering of classical Greek literature in antiquity **The Avars** Walter Pohl, 2018-12-15 Though the book was first published in German in 1988 this English version includes many revisions and updates and will be the definitive English language study of the Avar empire for years to come It will be invaluable for those interested in medieval history or in the impact of nomadic steppe empires on sedentary civilizations Choice The Avars arrived in Europe from the Central Asian steppes in the mid sixth century CE and dominated much of Central and Eastern Europe for almost 250 years Fierce warriors and canny power brokers the Avars were more influential and durable than Attila's Huns yet have remained hidden in history Walter Pohl's epic narrative translated into English for the first time restores them to their rightful place in the story of early medieval Europe The Avars offers a comprehensive overview of their history tracing the Avars from the construction of their steppe empire in the center of Europe their wars and alliances with the Byzantines Slavs Lombards and others their apex as the first so called barbarian power to besiege Constantinople in 626 to their fall under the Frankish armies of Charlemagne and subsequent disappearance as a distinct cultural group Pohl uncovers the secrets of their society synthesizing the rich archaeological record recovered from more than 60 000 graves of the period as well as accounts of the Avars by Byzantine and other chroniclers In recovering the story of the fascinating encounter between Eurasian nomads who established an empire in the heart of Europe and the post Roman Christian cultures of Europe this book provides a new perspective on the origins of medieval Europe itself *The Church Historians of England*, 1853 This series consists of The life and defence of John Foxe with his Prefaces Kalender of martyrs and Acts and monuments **The Making of Orthodox Byzantium, 600-1025** Mark Whittow, 1996-07-12 The book is a clear up to date reassessment of the Byzantine empire during a crucial phase in the history of the Near East Against a geopolitical background well illustrated with 14 maps it covers the last decade of the Roman empire as a superpower of the ancient world the catastrophic crisis of the seventh century and the means whereby its embattled Byzantine successor hung on in Constantinople and Asia Minor

until the Abbasid Caliphate's decline opened up new perspectives for Christian power in the Near East. Not confined to any narrow definition of Byzantine history, the empire's neighbours, allies and enemies in Europe and Asia also receive extensive treatment.

*Empires and Exchanges in Eurasian Late Antiquity* Nicola Di Cosmo, Michael Maas, 2018-04-26

*Empires and Exchanges in Eurasian Late Antiquity* offers an integrated picture of Rome, China, Iran and the Steppes during a formative period of world history. In the half millennium between 250 and 750 CE, settled empires underwent deep structural changes while various nomadic peoples of the steppes, Huns, Avars, Turks and others experienced significant interactions and movements that changed their societies, cultures and economies. This was a transformational era, a time when Roman, Persian and Chinese monarchs were mutually aware of court practices and when Christians and Buddhists crisscrossed the Eurasian lands together with merchants and armies. It was a time of greater circulation of ideas as well as material goods. This volume provides a conceptual frame for locating these developments in the same space and time. Without arguing for uniformity, it illuminates the interconnections and networks that tied countless local cultural expressions to far-reaching inter-regional ones.

**Military Literature in the Medieval Roman World and Beyond**, 2024-05-21

What do the mysterious Roman author Vegetius, the Byzantine emperor Leo VI and the Chinese general Li Jing all have in common? They are three of the dozens of authors across the medieval Mediterranean world and beyond who wrote works of military literature, sometimes called military handbooks, manuals or treatises. This book brings together a multidisciplinary international team of scholars who present cutting-edge essays on diverse aspects of medieval military literature. While some chapters offer novel approaches to familiar authors like Vegetius, some present research on under-valued topics like Byzantine military illustrations, and others provide holistic studies on subjects like early modern treatises. They all move the discussion of medieval military literature forward. Contributors are Michael B. Charles, Georgios Chatzelis, Pierre Cosme, Maxime Emion, Immacolata Eramo, Michael Fulton, David Graff, John Haldon, Catharine Hof, John Hosler, Savvas Kyriakidis, ukasz Rycki, Katharina Schoneveld, Georgios Theotokis, Conor Whately, Michael Whitby and Nadya Williams.

*Byzantium and the Arabs in the Sixth Century* Irfan Shahîd, 1995

*The Eurasian Way of War* David A.

Graff,2016-03-10 This book is a comparative study of military practice in Sui Tang China and the Byzantine Empire between approximately 600 and 700 CE It covers all aspects of the military art from weapons and battlefield tactics to logistics campaign organization military institutions and the grand strategy of empire Whilst not neglecting the many differences between the Chinese and Byzantines this book highlights the striking similarities in their organizational structures tactical deployments and above all their extremely cautious approach to warfare It shows that contrary to the conventional wisdom positing a straightforward Western way of war and an Oriental approach characterized by evasion and trickery the specifics of Byzantine military practice in the seventh century differed very little from what was known in Tang China It argues that these similarities cannot be explained by diffusion or shared cultural influences which were limited but instead by the need to deal with common problems and confront common enemies in particular the nomadic peoples of the Eurasian steppes Overall this book provides compelling evidence that pragmatic needs may have more influence than deep cultural imperatives in determining a society's way of war
