The Empire Strikes Back Arthur D. Austin, 1998-09-01 Once dismissed as plodding and superfluous legal scholarship is increasingly challenging the liberal white male establishment that currently dominates legal education and practice The most significant development since the emergence of the casebook at the turn of the century this trend has unleashed a fierce political struggle At stake is nothing less than the entire enterprise of law and education and thus a powerful platform from which to shape society The result here vividly recounted by Arthur Austin has been an uncompromising take no prisoners fight for dominance The challenge comes from Outsiders a collection of feminists critical race theorists and critical legal studies scholars who rely on unconventional methods such as storytelling to give voice to the underrepresented In the other demographically larger camp resides the monolithic Empire consisting of traditionalists who having developed an effective form of scholarship now circle the wagons against the outsider heathens Neither partisan nor objective Austin is both respectful and critical of each faction The Empire he believes is imperious closed minded and self perpetuating the Outsiders are too often paranoid anti pragmatic and overly tolerant of fringe work Is the new scholarship a vacuous overpoliticized soon to be vanquished trend or the harbinger of an important new paradigm Is reconciliation possible Anyone with a vested interest in the answer to these questions and in the future of law cannot afford to miss Arthur Austin s invaluable volume

Johnson, 2003-02 This ground breaking anthology examines the mixed race experience and the impact of law on mixed race citizens in America **Empirical Gap in Jurisprudence** David Muttart, 2007-02-17 In jurisprudential writing single decisions are often held up as representative without any evidence to support their representative claims In order to address this problem David Muttart has made a systematic study encompassing every judgment of the Supreme Court of Canada between 1950 and 2003 Examining almost 5000 cases Muttart analyses these Supreme Court decisions employing several important criteria including whether the decisions overruled prior precedent the extent to which they were decided on fact law or policy and the legal and extra legal modes of reasoning utilized by the Court Muttart uses the results of this systematic examination to test the validity of extant jurisprudential theories Ultimately he concludes that the Court's method of operation is evolving as it moves into a new century While the court's reasoning is becoming less foundational it remains a predominantly legal as opposed to political institution Filling an important niche in the study of jurisprudence The Empirical Gap in Jurisprudence demonstrates that systematic studies based on large samples of cases will yield many insights that were obfuscated by prior efforts that relied on small and self selected samples Cultures and Change in Higher Education Paul Trowler, 2008-08-20 Describes approaches to understanding cultures in higher education paying particular attention to cultures and cultural construction at departmental level Implications of cultural characteristics for issues around change initiatives including the enhancement of teaching learning and assessment are a key focus of this book **America's Colony** Pedro A Malavet, 2007-11 An examination of the legal relationship between U S and Puerto Rico

Getting Over Equality Steven D Smith, 2001-09-01 Questions of religious freedom continue to excite passionate public debate Proposals involving school prayer and the posting of the Ten Commandments in schools and courtrooms perennially spur controversy But there is also a sense that the prevailing discourse is exhausted that no one seems to know how to think about religious freedom in a way that moves beyond our stale counterproductive thinking on this issue In Getting over Equality Steven D Smith one of the most important voices now writing about religious liberty provocatively contends that we must get over our presumption mistakenly believed to be rooted in the Constitution that all religions are equally true and virtuous and authentically American Smith puts forth an alternative view that the courts should promote an ideal of tolerance rather than equality and neutrality Examining such controversial examples as the animal sacrifice case the peyote case and the problem of aid to parochial schools Smith delineates a way for us to tolerate and respect contrary creeds without sacrificing or diluting our own beliefs and without pretending to believe in a spurious equality among the variety of diverse faiths Law and Religion Stephen M. Feldman, 2000-09 Few issues arouse as much passionate debate as the relationship between church and state Political parties and coalitions have long jockeyed for position in the battle to either keep the two separate or to unify them in one nation indivisible from God While the battle has been raging in the political arena figures
