**Emptiness Appraised** David F. Burton, 2001-01-01 Emptiness means that all entities are empty of or lack inherent existence entities have a merely conceptual constructed existence Though Nagarjuna advocates the Middle Way his philosophy of emptiness nevertheless entails nihilism and his critiques of the Nyaya theory of knowledge are shown to be unconvincing *Emptiness Appraised* David F. Burton, 1999 *Emptiness Appraised* David Burton, 2002 **Emptiness Appraised** David F. Burton, 2015-10-23 Emptiness means that all entities are empty of or lack inherent existence entities have a merely conceptual constructed existence Though Nagarjuna advocates the Middle Way his philosophy of emptiness nevertheless entails nihilism and his critiques of the Nyaya theory of knowledge are shown to be unconvincing **A Guide to Asian Philosophy Classics** Puqun Li, 2012-07-19 This book guides readers through ten classic works of Asian philosophy Several major schools of Eastern thought are discussed including Hinduism Buddhism Confucianism Daoism Taoism and Chan Zen The author connects the ideas of these schools to those of Western philosophy thereby making the material accessible to people who are unfamiliar with the cultures and intellectual traditions of Asia A wide range of important topics are addressed reality time self knowledge ethics human nature enlightenment and death *Philosophy in Classical India* Jonardon Ganeri, 2003-09-01 This original work focuses on the rational principles of Indian philosophical theory rather than the mysticism more usually associated with it Ganeri explores the philosophical projects of a number of major Indian philosophers and looks into the methods of rational inquiry deployed within these projects In so doing he illuminates a network of mutual reference criticism influence and response in which reason is used to call itself into question This fresh perspective on classical Indian thought unravels new philosophical paradigms and points towards new applications for the concept of reason **The Land that I Will Show You** J. Andrew Dearman, M. Patrick Graham, 2002-04-01 A collection of seventeen articles by colleagues and former students of Professor J Maxwell Miller who taught at the Candler School of Theology Emory University The papers deal with the history chronology geography archaeology and epigraphy of ancient Israel and its setting in the Levant and range from broad methodological discussions of historiography to focused analyses of individual texts or historical issues A review of Miller's career and a select bibliography of his publications are also included **Power, Wealth and Women in Indian Mahayana Buddhism** Douglas Osto, 2008-11-19 This book presents the most detailed and theoretically sophisticated study of the important Mahayana Buddhist scripture Gandavyuha sutra The author puts forward a new approach to the study of Mahayana Buddhist sources the systems approach by which literature is viewed as embedded in a social system and he analyses the key themes of power wealth and women to its social context in ancient India *Religions of the World* J. Gordon Melton, Martin Baumann, 2010-09-21 This masterful six volume encyclopedia provides comprehensive global coverage of religion emphasizing larger religious communities without neglecting the world's smaller religious outposts *Religions of the World Second Edition A Comprehensive Encyclopedia of Beliefs and Practices* is an

extraordinary work bringing together the scholarship of some 225 experts from around the globe The encyclopedia's six volumes offer entries on every country of the world with particular emphasis on the larger nations as well as Indonesia and the Latin American countries that are traditionally given little attention in English language reference works Entries include profiles on religion in the world's smallest countries the Vatican and San Marino profiles on religion in recently established or disputed countries Kosovo and Nagorno Karabakh as well as profiles on religion in some of the world's most remote places Antarctica and Easter Island Religions of the World is unique in that it is based in religion on the ground tracing the development of each of the 16 major world religious traditions through its institutional expressions in the modern world its major geographical sites and its major celebrations Unlike other works the encyclopedia also covers the world of religious unbelief as expressed in atheism humanism and other traditions

*Buddhist and Christian?* Rose Drew, 2013-07-03 This is a detailed exploration of Buddhist Christian dual belonging engaging from both Buddhist and Christian perspectives the questions that arise and drawing on extensive interviews with well known individuals in the vanguard of this important and growing phenomenon The issue is pressing insofar the last century has witnessed a gradual but profound transformation of the West's religious landscape In today's context of diversity people are often influenced by more than one religion Multireligious identities are consequently on the rise At one end of the spectrum are those who identify themselves as fully belonging to more than one tradition One of the most prevalent combinations is Christianity and Buddhism This book addresses central and fundamental questions How is it possible to be authentically Buddhist and authentically Christian when for example God is central to Christianity yet absent from Buddhism when Christians have faith in Jesus Christ while Buddhists take refuge in the Buddha when Christians hope for heaven and Buddhists hope for nirvana and when Buddhists and Christians engage in different practices Are those who identify themselves as belonging to both traditions profoundly irrational religiously schizophrenic or perhaps just spiritually superficial Or is it possible somehow to reconcile the thought and practice of Buddhism and Christianity in such a way that one can be deeply committed to both And if it is possible will the influence of Buddhist Christians on each of these traditions be something to be regretted or celebrated

**Crossing Horizons** Shlomo Biderman, 2008-02-08 In this book Shlomo Biderman examines the views outlooks and attitudes of two distinct cultures the West and classical India He turns to a rich and varied collection of primary sources the Rg Veda the Upanishads and texts by the Buddhist philosophers N g rjuna and Vasubandhu among others In studying the West Biderman considers the Bible and its commentaries the writings of such philosophers as Plato Descartes Berkeley Kant and Derrida and the literature of Kafka Melville and Orwell Additional sources are Mozart's Don Giovanni and seminal films like Ingmar Bergman's Persona Biderman uses concrete examples from religion and literature to illustrate the formal aspects of the philosophical problems of transcendence language selfhood and the external world and then demonstrates their plausibility in actual situations Though his method of analysis is comparative Biderman does not adopt the disinterested stance of an

ideal spectator Rather Biderman approaches ancient Indian thought and culture from a Western philosophical standpoint to uncover cultural presuppositions that can be difficult to expose from within the culture in question The result is a fascinating landmark in the study of Indian and Western thought Through his comparative prism Biderman explores the most basic ideas underlying human culture and his investigation not only sheds light on India s philosophical traditions but also facilitates a deeper understanding of our own

**A Post-Western Account of Critical Cosmopolitan Social Theory** Michael Murphy, 2021-01-28 In this book Michael Murphy argues that if cosmopolitanism is to remain critical and relevant rather than set out another grand project what is required is a process of critique and cooperation At the level of inter cultural exchange this requires understanding the encounter with the Other as a mutual phase of development and holds out the potential to rejuvenate world philosophies Through this process the cosmopolitan imagination emerges from a dialogue between global traditions of relational sociologies on matters of common concern The second stage of the book applies this methodology to provide a radical account of being and acting in the world

This will be achieved through engaging in conversation with the works of the critical theorist Gerard Delanty the decolonial theorist Walter Dignolo and the Buddhist Confucian and phenomenological inspired work of Watsuji Tetsuro In providing a move away from abstractions and ideals to instead focus on injustices and the everyday life Murphy uncovers an independent source for political legitimacy not defined by the rationality of the state or dependent on the ideals of Western philosophy Part of this investigation also reveals a post individual account of agency as an enactive being Emphasising agency as becoming has the potential to allow us to reimagine the relationship between the self and the institutions of democracy The main themes of this book are eurocentrism critical cosmopolitanism post individual subjectivity and democracy *The Origin and Significance of Zero*, 2024-03-11 Winner of the 2024 Outstanding Academic Titles award in Choice a publishing unit of the Association of College religion philosophy arts and mathematics and conversely inhibited by the absence of or aversion to such a concept of Nothingness in the West But not all scholars agree Join the debate **A Companion to Buddhist Philosophy** Steven M. of research in the field since the publication of the essays Siderits's work is based on an investigation of Indian sources in their original language nevertheless the focus of the essays is primarily systematic not historical or philological The idea of fusion philosophy a term coined by Siderits embodies precisely the assumption that by bringing a Western and an Eastern tradition together both can benefit by learning from each other about new ways of tackling old philosophical problems
