Adorno,2009-01-19 En esta primera parte del segundo volumen de Escritos sociol gicos Adorno analiza la difusi n y aceptaci n de la ideolog a fascista en la sociedad estadounidense Para ello hace primero un repaso a los discursos radiof nicos de Martin Luther Thomas un pastor protestante cuyos programas plenos de discursos demag gicos en defensa del cristianismo tuvieron gran aceptaci n en los a os treinta Seguidamente nos presenta un exhaustivo an lisis de las entrevistas realizadas a un gran n mero de personas a las que se las preguntaba sobre sus relaciones sociales principalmente con personas de otro color y religi n Adorno nos presenta de este modo un importante estudio sobre el antisemitismo y el fascismo al tiempo que nos proporciona un m todo para el estudio de la cultura popular y el pensamiento pol tico El Concepto de Ideología Vol. 4. Jorge Larraín,2007 Este volumen cierra la serie de cuatro libros en torno al concepto de ideolog a y entra de lleno en el pensamiento contempor neo hasta los primeros a os del siglo XXI En l queda de manifiesto el protagonismo que ha adquirido el tema del lenguaje en las diversas corrientes de las Humanidades y las Ciencias Sociales y el modo en que el giro ling stico como se le ha conocido ha gravitado en los estudios La preocupaci n por el discurso su naturaleza y sus condiciones no han hecho sino aumentar instalando igualmente una profunda reflexi n acerca del sujeto la raz n el problema de las identidades y de la determinaci n econ mica De este modo la noci n de verdad es puesta r pidamente en entredicho hasta ser disuelta como valor inmutable El propio concepto de

ideología es abandonado y reemplazado por una lógica de la diferencia construida discursivamente por figuras de la talla de Foucault Lyotard y Laclau en su crítica al estructuralismo No obstante ello reaparece un concepto crítico de ideología tanto en el postmodernismo como en el postmarxismo ya no se trata de cualquier discurso sino de aquel que pretende fijar significados y tener la verdad Así este concepto recupera su sentido negativo que alguna vez tuvo pero reencuentra paradójicamente en una época que sospecha de la epistemología una cierta utilidad crítica asíndose en una perspectiva relativista

[Gender Inequalities and Development in Latin America During the Twentieth Century](#) Mar3a Magdalena Camou, Silvana Maubrigades, Rosemary Thorp, 2017-05-15 This book presents evidence of the evolution of the gender inequalities in Latin America during the twentieth century using basic indicators of human development namely education health and the labour market There are very few historical studies that centre on gender as the main analytical

category in Latin America so this book breaks new ground Using case studies from Argentina Chile Colombia Mexico and Uruguay the authors show that there is evidence of a correlation between economic growth and the decrease in gender inequality but this process is also not linear Although the activity rate of women was high at the beginning of the twentieth century female participation in the labour market diminished until the 1970s when it began to increase dramatically Since the 1970s fertility reduction and education improvements and worsening labour market conditions are associated to the steadily increase of women participation in the labour market By gauging the extent to which gender gaps in the formation of human capital access to resources quality of life and opportunities may have operated as a restriction on women s capabilities and on economic growth in the region this book demonstrates that Latin America has lagged behind in terms of gender equality
