hunting lodge of King Philip IV of Spain Created in the late 1630s by a group of artists led by Peter Paul Rubens this cycle of mythological imagery and hunting scenes was completed by Diego Vel uez Despite the lack of a written program surviving works provide eloquent testimony of several basic themes that embody Neostoic ideals of self restraint and prudent governance While Rubens set the moral tone through his serio comic Ovidian narratives Vel uez added an important grace note with his portraits of ancient philosophers and royals and fools of the court This study is the first to consider in depth their joint artistic contributions and shared ambition Through analysis of individual works the authors situate these pictorial inventions within broader intellectual currents in both Spanish Flanders and Spain especially in the advice literature and drama presented to the Spanish king Moreover they point to the lasting resonance of Torre de la Parada for Vel uez especially within his late masterworks Las Meninas and Las Hilanderas Ultimately this study illuminates the dialogical nature of this ensemble in which Rubens and Vel uez offer a set of complementary views on subjects ranging from the nature of classical gods to the role of art as a mirror of the prince

Back to Nature Robert Watson,2013-05-29 Selected by Choice magazine as an Outstanding Academic Title Sweeping across scholarly disciplines Back to Nature shows that from the moment of their conception modern ecological and epistemological anxieties were conjoined twins Urbanization capitalism Protestantism colonialism revived Skepticism empirical science and optical technologies conspired to alienate people from both the earth and reality itself in the seventeenth century Literary and visual arts explored the resulting cultural wounds expressing the pain and proposing some ingenious cures The stakes Robert N Watson demonstrates were huge Shakespeare s comedies Marvell s pastoral lyrics Traherne s visionary Centuries and Dutch painting all illuminate a fierce submerged debate about what love of nature has to do with perception of reality

study in English on the art of Jan Brueghel the Elder Leopoldine Prosperetti illuminates how the work of this painter relates to a philosophical culture prevailing in the Antwerp of his time She shows that no matter what scenery figures or objects stock the pictorial field Brueghel's diverse pictures have something in common they all embed visual trajectories that allow for the viewer to craft out of the raw material of the picture a moment of spiritual repose Rooted in the art of Hieronymus Bosch and Pieter Bruegel the Elder these vistas are shown to meet the expectation of viewers to discover in their mazes a rhetorically conceived path to wisdom The key issue is the ambition of pictorial images to bring into practice the humanist belief that philosophy and rhetoric are inseparable This original study analyzes the patterns of thought and recurrent optical tropes that constitute a visual poetics for shifting genres no longer devotional yet sharing in the meditative goal of redirecting the soul toward an intuitive knowledge of what is good in life This book reveals how everyday life is the preferred vehicle for delivering the results of philosophical pursuits One chapter is dedicated to Brueghel's innovative attention to the experience of traveling in a variety of wheeled vehicles along the roads of his native Brabant He is unique and surprisingly modern in giving contemporary viewers an accurate account of all the different types of conveyances that clutter the roads It makes for lively versions of one of his favorite themes The Traveled Road By taking the pursuit of wisdom as its theme the book succeeds in presenting a new model for the interpretation of a range of visual genres in the Antwerp picture trade

The Ashgate Research Companion to Dutch Art of the Seventeenth Century Wayne Franits, 2017-07-05 Despite the tremendous number of studies produced annually in the field of Dutch art over the last 30 years or so and the strong contemporary market for works by Dutch masters of the period as well as the public's ongoing fascination with some of its most beloved painters until now there has been no comprehensive study assessing the state of research in the field As the first study of its kind this book is a useful resource for scholars and advanced students of seventeenth century Dutch art and also serves as a springboard for further research Its 19 chapters divided into three sections and written by a team of internationally renowned art historians address a wide variety of topics ranging from those that might be considered

traditional to others that have only drawn scholarly attention comparatively recently **Frans Hals** Jaap van der Veen, Friso Lammertse, Bart Cornelis, Erik Eising, Dagmar Hirschfelder, Katja Kleinert, Justus Lange, 2024-07-10 Frans Hals is one of the most important portrait painters of all time Like Rembrandt the famous Dutch Baroque master's striking portraits of the bourgeoisie and social outsiders are distinguished by their extraordinary vividness and accurate depiction His sketch like paintings executed with bold brushstrokes had a decisive influence on modernist painting This comprehensive publication coincides with the first major survey exhibition of Hals oeuvre in more than thirty years FRANS HALS 1582-84-1666 was born in Antwerp the son of a cloth merchant In 1610 he was accepted into the Haarlem Guild of St Luke Hals created hundreds of genre paintings individual and group portraits and enjoyed great public prestige Despite his fame during his lifetime it was not until the nineteenth century that he was enthusiastically rediscovered by the Impressionists and Realists

Animals and Early Modern Identity Pia F. Cuneo, 2017-07-05 Animals were everywhere in the early modern period and they impacted at least in some way the lives of every kind of early modern person from the humblest peasant to the greatest prince Artists made careers based on depicting them English gentry impoverished themselves spending money on them Humanists exercised their scholarship writing about them Pastors saved souls delivering sermons on them Nobles forged alliances competing with them Foreigners and indigenes negotiated with one another through trading them The nexus between animal human relationships and early modern identity is illuminated in this volume by the latest research of international scholars working on the history of art literature and of sixteenth and seventeenth century Germany France England Spain and South Africa Collectively these essays investigate how animals horses dogs pigs hogs fish cattle sheep birds rhinoceroses even sea monsters and other creatures served people in Europe England the Americas and Africa to defend contest or transcend the boundaries of early modern identities Developments in the methodologies employed by scholars to interrogate the past have opened up an intellectual and discursive space for and a concomitant recognition of the study of animals as a topic that significantly elucidates past and present histories Relevant to a considerable array of disciplines the study of animals also provides a means to surmount traditional disciplinary boundaries through processes of dynamic interchange and cross fertilization **On the Edge of Truth and Honesty: Principles and Strategies of Fraud and Deceit in the Early Modern Period**, 2021-10-25

In the early modern period deceit and fraud were common issues Acutely aware of the ubiquity and multiplicity of simulation and dissimulation people from this period made serious efforts to gain a better understanding of the phenomenon trying to distinguish between acceptable and unacceptable pleasant and unpleasant wicked and virtuous forms of deceit and seeking to unravel its principles strategies and functions The twelve case studies in this volume focus on the use of deceit by several groups of people in different spheres of life as well as on its representation in literary and artistic genres and its conceptualization in philosophical and rhetorical discourses The studies testify to the rich variety of deceitful strategies applied by people from the early modern period as well as to the subtlety and

diversity of the conceptual frameworks they construed in order to grasp the many aspects of the elusive yet all pervasive phenomenon of deceit Contributors include Daniel Acke Jacques Bos Wiep van Bunge Evelien Chayes Paul J C M Franssen Paul van Heck Toon van Houdt Alfons K L Thijs Bert Timmermans Johannes Trapman Mark van Vaeck Natascha Veldhorst and Johan Verberckmoes Rubens and the Dominican Church in Antwerp Adam Sammut,2023-05-15 This book is about the Dominican church in Antwerp today St Paul s It is structured around three works of art made or procured by Peter Paul Rubens the Fifteen Mysteries of the Rosary cycle in situ Caravaggio s Rosary Madonna Vienna and the Wrath of Christ high altarpiece Lyon Within the artist s lifetime the church and monastery were completely rebuilt creating one of the most spectacular sacred spaces in Northern Europe In this richly illustrated book Adam Sammut reconceptualises early modern churches as theatres of political economy advancing an original approach to cultural production in a time of war Using methodologies at the cutting edge of the humanities the place of St Paul s is restored to the crux of Antwerp s commercial civic and religious life **1668** Peter Sahlins,2017-10-13 When animals and their symbolic representations in the Royal Menagerie in art in medicine in philosophy helped transform the French state and culture Peter Sahlins s brilliant new book reveals the remarkable and understudied animal moment in and around 1668 in which authors including La Fontaine whose Fables appeared in that year anatomists painters sculptors and especially the young Louis XIV turned their attention to nonhuman beings At the center of the Year of the Animal was the Royal Menagerie in the gardens of Versailles dominated by exotic and graceful birds In the unfolding of his original and sophisticated argument Sahlins shows how the animal bodies of the menagerie and others were critical to a dramatic rethinking of governance nature and the human The animals of 1668 helped to shift an entire worldview in France what Sahlins calls Renaissance humanimalism toward more modern expressions of classical naturalism and mechanism In the wake of 1668 came the debasement of animals and the strengthening of human animality including in Descartes s animal machine highly contested during the Year of the Animal At the same time Louis XIV and his intellectual servants used the animals of Versailles to develop and then to transform the symbolic language of French absolutism Louis XIV came to adopt a model of sovereignty after 1668 in which his absolute authority is represented in manifold ways with the bodies of animals and justified by the bestial nature of his human subjects 1668 explores and reproduces the king s animal collections in printed text weaving poetry and engraving all seen from a unique interdisciplinary perspective Sahlins brings the animals of 1668 together and to life as he observes them critically in their native habitats within the animal palace itself by Louis Le Vau the paintings and tapestries of Charles Le Brun the garden installations of Andr Le N tre the literary work of Charles Perrault and the natural history of his brother Claude the poetry of Madeleine de Scud ry the philosophy of Ren Descartes the engravings of S bastien Leclerc the transfusion experiments of Jean Denis and others The author joins the nonhuman and human agents of 1668 panthers and painters swans and scientists weasels and weavers in a learned and sophisticated treatment that will engage scholars and students of early modern France

and Europe and readers broadly interested in the subject of animals in human history **Literatures of Exile in the English Revolution and its Aftermath, 1640-1690** a foreword by Lisa Jardine, 2016-12-05 Original and thought provoking this collection sheds new light on an important yet understudied feature of seventeenth century England's political and cultural landscape exile Through an essentially literary lens exile is examined both as physical departure from England to France Germany the Low Countries and America and as inner mental withdrawal In the process a strikingly wide variety of contemporary sources comes under scrutiny including letters diaries plays treatises translations and poetry The extent to which the richness and disparateness of these modes of writing militates against or constructs a recognisable rhetoric of exile is one of the book's overriding themes Also under consideration is the degree to which exilic writing in this period is intended for public consumption a product of private reflection or characterised by a coalescence of the two Importantly this volume extends the chronological range of the English Revolution beyond 1660 by demonstrating that exile during the Restoration formed a meaningful continuum with displacement during the civil wars of the mid century This in depth and overdue study of prominent and hitherto obscure exiles conspicuously diverse in political and religious allegiance yet inextricably bound by the shared experience of displacement will be of interest to scholars in a range of disciplines
