Perceiving War and the Military in Early Christian Gaul (ca. 400-700 A.D.) Laury Sarti, 2013-09-12 The passage from Antiquity to the Middle Ages has been largely studied in the light of the thesis of a gradual transformation which is in contradiction of the previous assumption of an abrupt break due to war and general calamity *Perceiving War and the Military* reassesses this historical period of transition by an investigation of the contemporary world of thought that examines the impact and significance of a permanently increasing contact with warfare and armed violence Her studies confirm the assumption of a gradual shift but they most of all show that the irrevocable end of the Roman Peace was a crucial factor in the late Roman world becoming gradually medieval
