The Fullness of Time Kara N. Slade, 2021-09-17 While human existence in time is determined by the time of Jesus Christ by the logic of the incarnation passion resurrection and ascension the predominant accounts of time in the modern West have proceeded from a very different basis The implications of these approaches are not just a matter of epistemology or of abstract doctrinal and philosophical claims Instead they have had and

continue to have concrete ramifications for human life together They have overwhelmingly been death dealing rather than life giving marked by a series of temporal moral errors that this book hopes to address As a counterexample this book reads Soren Kierkegaard alongside Karl Barth to highlight the ways that both figures rejected a Hegelian approach to time that was and is not coincidentally intertwined with a racialized account of history and the co-opting of Christianity by the modern Western state
