**The Perfect House** Witold Rybczynski, 2013-02-26 Palladio is the Bible Thomas Jefferson once said You should get it and stick to it With his simple gracious perfectly proportioned villas Andrea Palladio elevated the architecture of the private house into an art form during the late sixteenth century and his influence is still evident in the ample porches columned porticoes grand ceilings and front door pediments of America today In *The Perfect House* bestselling author Witold Rybczynski whose previous books *Home* *A Clearing in the Distance* *Now I Sit Me Down* have transformed our understanding of domestic architecture reveals how a handful of Palladio's houses in an obscure corner of the Venetian Republic should have made their presence felt hundreds of years later and halfway across the globe More than just a study of one of history's seminal architectural figures *The Perfect House* reflects Rybczynski's enormous admiration for his subject and provides a new way of looking at the special landscapes we call home in the modern world

**Reading Goethe** Martin Swales, Erika

Swales,2002 Goethe is often revered rather than read known of rather than known It is the aim of this study to provide a corrective to this state of affairs The authors concentrate on literary work and offer analyses that represent an impassioned advocacy

**Architecture, Travellers and Writers** Anne Hultzs,2017-07-05 Does the way in which buildings are looked at and made sense of change over the course of time How can we find out about this By looking at a selection of travel writings spanning four centuries Anne Hultzs suggests that it is language the description of architecture which offers answers to such questions The words authors use to transcribe what they see for the reader to re imagine offer glimpses at modes of perception specific to one moment place and person Hultzs constructs an intriguing patchwork of local and often fragmentary narratives discussing texts as diverse as the 17th century diary of John Evelyn Daniel Defoe s Robinson Crusoe 1719 and an 1855 art guide by Swiss art historian Jacob Burckhardt Further authors considered include 17th century collector John Bargrave 18th century novelist Tobias Smollett poet Johann Wolfgang von Goethe critic John Ruskin as well as the 20th century architectural historian Nikolaus Pevsner Anne Hultzs teaches at the Bartlett School of Architecture University College London

**The Passing of Protestant England** S. J. D. Green,2011 An important account of the causes courses and consequences of the secularisation of modern English society

**Goethe** Matthew Bell,2025-09-09 A new intellectual biography of Goethe examining the paradox of his thought Johann Wolfgang von Goethe 1749 1832 was a poet a novelist a scientist and an essayist on a dizzying range of topics In the nineteenth century he was widely regarded as one of the most important thinkers of modern Europe In this important and ambitious work Matthew Bell offers a wide ranging intellectual biography of Goethe tracing the evolution of his thought and reassessing its value Bell examines the full spectrum of Goethe s writing from his most well known works including the dramatic poem Faust and the novels Wilhelm Meister and The Sorrows of Young Werther to lesser known essays and reviews Throughout Bell draws on Goethe s letters and diaries most of which are still only available in German embedding Goethe s thought in his lived experience and in the cultural and intellectual life of Europe from the 1750s to the 1830s Bell presents new interpretations of Goethe s work as one of the first evolutionary biologists describing discoveries that anticipated Darwin s and of his political ideas which pervade his literary work in ways that have not been fully recognized Bell offers an original and illuminating explanation for the paradox of Goethe s thought exploring how a radical individualist who espoused liberal and innovative ideas in some areas in particular religion sexuality and science could remain consistently conservative and authoritarian in his political outlook Rereading Goethe through this new lens Bell shows reveals new dimensions of work we thought we knew well

**Goethe and Palladio** David Lowe,Simon Sharp,2005-11 The poet dramatist novelist and scientist Johann Wolfgang von Goethe had to wait many years before he was able to travel south to Italy the land where the lemon trees bloom He had gained success in several fields but he had a sense of being trapped and confined and felt a need for light Italy would give this to him in a number of ways Taking as their basis Goethe s Italian Journey the authors of this fascinating and unusual study explore how

Goethe's experience of Palladio's architecture influenced his view of the relationship between art and nature in general and in particular helped him form his understanding of metamorphosis leading to his discovery of the archetypal plant. In his carefully written account of his travels Goethe seems to oscillate between experiences of architecture and experiences of nature. In nature he searched for the archetypal plant, the essential form whose metamorphosis through time would produce the plant we see in its cycle from seed to fruit. In the art and architecture of antiquity and in Palladio's classical reformulation of it he tried to understand the purpose and function of artistic creation. Until now no one has put these two together. David Lowe and Simon Sharp show for the first time how these seemingly unrelated subjects are related: how the living geometries and volumes of harmoniously proportioned buildings, the great idea of architecture, can lead to the intuition of similar principles in nature. David Lowe and Simon Sharp have worked together for twenty-one years. One of their first projects was the recreation of Goethe's Italian Journey. They have given numerous workshops and presentations on the subject in the U.S. and U.K. including The British Museum, the German Embassy, and the Edinburgh Festival. This is must reading for anyone interested in Goethe's ideas on plants and metamorphosis.

**Andrea Mantegna and the Italian Renaissance** Joseph Manca, 2023-12-28. Mantegna, humanist, geometrist, archaeologist of great scholastic and imaginative intelligence, dominated the whole of northern Italy by virtue of his imperious personality. Aiming at optical illusion, he mastered perspective. He trained in painting at the Padua School, where Donatello and Paolo Uccello had previously attended. Even at a young age, commissions for Andrea's work flooded in: for example, the frescoes of the Ovetari Chapel of Padua. In a short space of time, Mantegna found his niche as a modernist due to his highly original ideas and the use of perspective in his works. His marriage with Nicolosia Bellini, the sister of Giovanni, paved the way for his entree into Venice. Mantegna reached an artistic maturity with his *Pala San Zeno*. He remained in Mantova and became the artist for one of the most prestigious courts in Italy, the Court of Gonzaga. Classical art was born. Despite his links with Bellini and Leonardo da Vinci, Mantegna refused to adopt their innovative use of colour or leave behind his own technique of engraving.

WRITING IN LIGHT NOTES BIBLIOGRAPHY INDEX      *Goethe in English* Derek Glass, Martin H. Jones, 2005 This bibliography was commissioned by the English Goethe Society as a contribution to the celebration in 1999 of the 250th anniversary of Goethe's birth. It sets out to record translations of his works into English that have been published in the twentieth century up to and including material published in that anniversary year. It aims to serve as wide a constituency as possible be it as a simple reference tool for tracing a translation of a given work or as a documentary source for specialized studies of Goethe reception in the English speaking world. The work records publications during the century not merely translations that originated during this period. It includes numerous reprintings of older material as well as some belated first publications of translations from the nineteenth century. It shows how frequent and how long enduring was the recourse of publishers and anthologists to a Goethe Victorian in diction a signal factor in perceptions and misperceptions. Derek Glass was putting the finishing touches to the bibliography at the time of his sudden death in March 2004. Colleagues at Kings College London have edited the final manuscript which is now published jointly by the English Goethe Society and the Modern Humanities Research Association both as a worthy commemoration of Goethe's anniversary and as a tribute to Derek himself.

**Writers' Houses and the Making of Memory** Harald Hendrix, 2012-08-06 This innovative new book examines the ways in which writers' houses contribute to the making of memory. It shows that houses built or inhabited by poets and novelists both reflect and construct the author's private and artistic persona; it also demonstrates how this materialized process of self-fashioning is subsequently appropriated within various strategies and policies of cultural memory.

**Italy: I Love You!** GERALYN PETERKIN, 2009-03-24 This is not a guide book nor is it a directory for works of art, hotels, restaurants, places of interest or things to see for Italy. It is not an historical tract or a political lecture. So what am I writing about? In simplest terms I suppose one could call it a love letter, a statement of my love for this country. In real terms Italy is more much more than a country. Browning described this condition perfectly: Italy becomes a part of your heart, a state of mind, an emotional experience.

Encyclopedia of the Romantic Era 1760-1850 Christopher John Murray, 2013-05-13 In 850 analytical articles this two volume set explores the developments that influenced the profound changes in thought and sensibility during the second half of the eighteenth century and the first half of the nineteenth century. The Encyclopedia provides readers with a clear, detailed and accurate reference source on the literature, thought, music and art of the period, demonstrating the rich interplay of international influences and cross currents at work and to explore the many issues raised by the very concepts of Romantic and Romanticism.

*Analytical Psychology and German Classical Aesthetics: Goethe, Schiller, and Jung, Volume 1* Paul Bishop, 2007-08-07 This book argues that analytical psychology takes many of its central notions from German classical aesthetics and when seen in its intellectual historical context its true originality lies in its reformulation of key tenets of German classicism.

**The Spell of Italy** Richard A. Block, 2006 Annotation A study of the lure of Italy in German culture from the eighteenth to the twentieth century.
