Reviews--1967-2007 Roger Ebert, 2008-02 Presents a collection of the critic's most positive film reviews of the last four decades arranged alphabetically from About Last Night to Zodiac **Gung-ho**, 1985 *The New Partridge Dictionary of Slang and Unconventional English* Tom Dalzell, Terry Victor, 2015-06-26 Booklist Top of the List Reference Source The heir and successor to Eric Partridge's brilliant magnum opus The Dictionary of Slang and Unconventional English this two volume New Partridge Dictionary of Slang and Unconventional English is the definitive record of post WWII slang Containing over 60 000 entries this new edition of the authoritative work on slang details the slang and unconventional English of the English speaking world since 1945 and through the first decade of the new millennium with the same thorough intense and lively

scholarship that characterized Partridge's own work. Unique, exciting, and at times hilariously shocking, key features include unprecedented coverage of World English with equal prominence given to American and British English slang and entries included from Australia, New Zealand, Canada, India, South Africa, Ireland, and the Caribbean; emphasis on post-World War II slang and unconventional English; published sources given for each entry, often including an early or significant example of the term's use in print; hundreds of thousands of citations from popular literature, newspapers, magazines, movies, and songs illustrating usage of the headwords; dating information for each headword in the tradition of Partridge commentary on the term's origins and meaning. New to this edition: A new preface noting slang trends of the last five years; Over 1,000 new entries from the US, UK, and Australia; New terms from the language of social networking; Many entries now revised to include new dating, new citations from written sources, and new glosses. The New Partridge Dictionary of Slang and Unconventional English is a spectacular resource infused with humour and learning; it's rude, it's delightful, and it's a prize for anyone with a love of language.

Screen Hustles, Gifts and Stings A. Sargeant, 2016-06-15. Screen Hustles, Gifts and Stings identifies recurrent themes and techniques of the con film, suggests precedents in literature, and discusses the perennial appeal of the con man for readers and viewers alike. Core studies span from film *Catch Me If You Can*, *Paper Moon*, *House of Games* to television *Hustle*, from *Noir*, *The Grifters* to *Romantic Comedy*, *Gambit*. Frequently, the execution of the con is only finely distinguishable from the conduct of a legitimate profession, and challengingly, a mark is often shown to be culpable in his or her undoing. The best con films, it is suggested, invite re-watching and reward the viewer accordingly: who is complicit, and when? How and where is the con achieved? When is the viewer party to the con? And what if any moral is to be drawn?

Agents, Games, and Evolution Steven Orla Kimbrough, 2011-12-19. Games or contexts of strategic interaction pervade and suffuse our lives and the lives of all organisms. How are we to make sense of and cope with such situations? How should an agent play? When will and when won't cooperation arise and be maintained? Using examples and a careful digestion of the literature, *Agents, Games, and Evolution: Strategies at Work and Play* addresses these encompassing themes throughout and is organized into four parts. Part I introduces classical game theory and strategy selection. It compares ideally rational and the naturalist approach used by this book, which focuses on how actual agents choose their strategies and the effects of these strategies on model systems. Part II explores a number of basic games using models in which agents have fixed strategies. This section draws heavily on the substantial literature associated with the relevant application areas in the social sciences. Part III reviews core results and applications of agent-based models in which strategic interaction is present and for which design issues have genuine practical import. This section draws heavily on the substantial literature associated with the application area to hand. Part IV addresses miscellaneous topics in strategic interaction, including lying in negotiations, reasoning by backward induction, and evolutionary models. Modelled after the author's *Agents, Games, and Evolution* course at
