Flip Side Of Liberation A Call To Traditional Values:

The Flip Side of Liberation Hope MacDonald,1990 Biblical Counsel ,1993 The Writers Directory ,2013 **War Over the Family** David Popenoe,2017-09-29 One of the most surprising and controversial social debates of the past two decades has been about the meaning and importance of marriage and the family in contemporary American life Referred to by some as a culture war over the family the debate has pitted those concerned about the weakening of the traditional married parent nuclear family especially in its impact on children against those arguing that nothing has gone wrong with families that they are merely diversifying David Popenoe has been one of the most influential figures in laying out for a wide audience the importance of family decline and what it means for our children our society and our future **Traditional Values for Today's New Woman** Hope MacDonald,1992 This aims to be an antidote for the negative effects of today s so called liberation Designed for the modern woman who refuses to discard her traditional values this a reference work and a study of the rise in the rate of pornography abortion homosexuality drugs and immorality which occurs every year in the name of liberation Forthcoming Books Rose Arny,1990 **Shaky Ground** Alice Echols,2002 Upending many of our assumptions about American culture since the 1950s this text particularly focuses on the notion that the 60s represented a total rupture and that the 70s marked the end of meaningful change **World Order and Religion** Wade Clark Roof,1991-01-01 This book looks at religion from a global perspective and examines how religion is shaped by the larger set of political and economic relationships that make up today s world Focusing mainly on Western religion and on the changing role of the United States in world affairs the authors show how shifts in the hegemony of the United States is affecting religious and ideological trends Attention is given particularly to the United States in relation to Latin America South Africa and the post colonial world of China Japan and the Islamic states This volume highlights the impact of greater global connectedness on the rise of new religious movements and changing patterns of establishment religion in the United States

Paperbound Books in Print ,1991 The Writers Directory 2008 Michelle Kazensky,2007-06 Features bibliographical biographical and contact information for living authors worldwide who have at least one English publication Entries include name pseudonyms addresses citizenship birth date specialization career information and a bibliography Area Studies, Business and Culture Horst Kopp,2003 As the level of globalization in business relationships rises the importance of questions and problems pertaining to intercultural communication increases more and more This gives rise to new tasks for the social sciences which can only be successfully performed through interdisciplinary cooperation in the sense of area studies Between 1995 and 2002 for area the Bavarian research network for area studies drew together numerous members of the scientific community who are specialized in the social sciences to pursue previously unresearched topics in areas of overlap of business and culture as exemplified in non European regions The most important results are collated here **Zen Ritual** Steven Heine,Dale S. Wright,2008 When books about Zen Buddhism began appearing in Western languages just over

a half century ago there was no interest whatsoever in the role of ritual in Zen. Indeed what attracted Western readers interest was the Zen rejection of ritual. The famous Beat Zen writers were delighted by the Zen emphasis on spontaneity as opposed to planned repetitious action and wrote inspirationally about the demythologized anti ritualized spirit of Zen. Quotes from the great Zen masters supported this understanding of Zen and led to the fervor that fueled the opening of Zen centers throughout the West. Once Western practitioners in these centers began to practice Zen seriously however they discovered that zazen Zen meditation is a ritualized practice supported by centuries old ritual practices of East Asia. Although initially in tension with the popular anti ritual image of ancient Zen masters interest in Zen ritual has increased along with awareness of its fundamental role in the spirit of Zen. Eventually Zen practitioners would form the idea of no mind or the open and awakened state of mind in which ingrained habits of thinking give way to more receptive direct forms of experience. This notion provides a perspective from which ritual could gain enormous respect as a vehicle to spiritual awakening and thus this volume seeks to emphasize the significance of ritual in Zen practice. Containing 9 articles by prominent scholars about a variety of topics including Zen rituals, *kinhin* and *zazen*, this volume covers rituals from the early Chan period to modern Japan. Each chapter covers key developments that occurred in the Linji, Rinzai and Caodong Soto schools of China and Japan describing how Zen rituals mold the lives and characters of its practitioners shaping them in accordance with the ideal of Zen awakening. This volume is a significant step towards placing these practices in a larger historical and analytical perspective.

On the Other Side of Sorrow James Hunter, 2014-07-03 Caring for the environment, developing rural communities and ensuring the survival of minority cultures are all laudable objectives but they can conflict and nowhere more so than the Scottish Highlands. As environmentalists strive to preserve the scenery and wildlife of the Highlands the people who belong there and who have their own claims on the landscape question this threat to their culture which dates back thousands of years. In this acclaimed and thought provoking book James Hunter examines the dispute between Highlanders who developed a strong environmental awareness countless generations before other Europeans and conservationists whose thinking owes much to the romantic ideals of the nineteenth century. More than that he also suggests a new way of dealing with the problem advocating drastic land use changes and the repopulation of empty glens, an approach which has worldwide implications.

Resurgent Voices in Latin America Edward L. Cleary, Timothy J. Steigenga, 2004 Annotation After more than 500 years of marginalisation Latin America's forty million Indians have gained political recognition and civil rights. Here social scientists explore the important role of religion in indigenous activism showing the ways that religion has strengthened indigenous identity and contributed to the struggle for indigenous rights.

Extreme Right Activists in Europe Bert Klandermans, Nonna Mayer, 2006 Since the 1980s one of the main political changes in Western Europe has been the electoral upsurge of extreme right wing parties. However while the electoral support of these movements has been studied extensively their membership has largely been ignored. This book examines who joins the extreme right and why. Drawing upon extensive

research and featuring contributions from distinguished social psychologists and political scientists this book provides the most detailed comparative study yet published of the psychology of right wing extremist activists Countries discussed include Germany The Netherlands Italy Belgium and France **Patronage, Politics, and Literary Traditions in England, 1558-1658** Cedric Clive Brown,1993 Social Science and Social Concern S. B. Chakrabarti,1988 Contributed articles chiefly on India and north east India includes articles on the life and works of B K Roy Burman **The Rise of Africa's Middle Class** Henning Melber,2016-12-15 Across Africa a burgeoning middle class has become the poster child for the Africa rising narrative Ambitious aspirational and increasingly affluent this group is said to embody the values and hopes of the new Africa with international bodies ranging from the United Nations Development Programme to the World Bank regarding them as important agents of both economic development and democratic change This narrative however obscures the complex and often ambiguous role that this group actually plays in African societies Bringing together economists political scientists anthropologists and development experts and spanning a variety of case studies from across the continent this collection provides a much needed corrective to the received wisdom within development circles and provides a fresh perspective on social transformations in contemporary Africa The Hindu Religious Tradition Pratima Bowes,2021-06-23 Originally published in 1977 The Hindu Religious Tradition provides a detailed exploration into the different doctrines regarding the nature of Religious Reality and the many paths of search for this Reality within the Hindu religion The book discusses these differing doctrines from the point of view of their philosophical significance and their use in man s search for the divine in consideration of the traditional teaching that the divine is already in man and can be realised in direct experience It provides a comprehensive account of this tradition through considering all aspects that are integral to it and highlights that the profundity of this tradition lies in that it cannot be limited to the requirements of any one form of conceiving the divine The Hindu Religious Tradition will appeal to those with an interest in Hinduism religious philosophy and theology The Arab World Halim Barakat,1993-10-14 This wide ranging examination of Arab society and culture offers a unique opportunity to know the Arab world from an Arab point of view Halim Barakat an expatriate Syrian who is both scholar and novelist emphasizes the dynamic changes and diverse patterns that have characterized the Middle East since the mid nineteenth century The Arab world is not one shaped by Islam nor one simply explained by reference to the sectarian conflicts of a mosaic society Instead Barakat reveals a society that is highly complex with many and various contending polarities It is a society in a state of becoming and change one whose social contradictions are at the root of the struggle to transcend dehumanizing conditions Arguing from a perspective that is both radical and critical Barakat is committed to the improvement of human conditions in the Arab world
