Ross Sr.,2012-07 Leadership plays a major role in everything that we do in life Though effective leadership is a personal role that requires individual thinking and attainment one must make sure that it is focused on the overall success of the organization However there are other roles that are directly tied up in what we call leadership and some of the roles include self leading managing change empowering people leading by example delegating authority facilitating cooperation and building and leading a team Leadership is not just power but for the most part it is about relationships Leadership is also about one's power to reward and punish in a nondiscriminatory manner To have a certain style or persona that ensures people will support your implementation of goals for the success of the organization However at the end of the day you will never get there without first leading oneself to do the right thing in all of your endeavors One learns leadership by being a leader This cannot happen unless you have the proper skills visionary trustworthy inspirational etc because leaders must balance many roles to be successful However sometimes you need help to guide and remind you how to take a course of action This book serves as a sounding board to help guide you with its recording of best practices Climb the ladder of leadership hired trainee mentor team lead supervisor manager and executive and let people know that you can successfully lead with every step you take Undiscovered Ms. Cinderella,2012-10-30 N A no book description *Scripting Addiction* E.
