gender sexuality and violence in Kenya      *The Industrial Vagina* Sheila Jeffreys, 2008-11-19 The industrialization of prostitution and the sex trade has created a multibillion dollar global market involving millions of women that makes a substantial contribution to national and global economies The Industrial Vagina examines how prostitution and other aspects of the sex industry have moved from being small scale clandestine and socially despised practices to become very profitable legitimate market sectors that are being legalised and decriminalised by governments Sheila Jeffreys demonstrates how prostitution has been globalized through an examination of the growth of pornography and its new global reach the boom in adult shops strip clubs and escort agencies military prostitution and sexual violence in war marriage and the mail order bride industry the rise in sex tourism and trafficking in women She argues that through these practices women's subordination has been outsourced and that states that legalise this industry are acting as pimps enabling male buyers in countries in which women's equality threatens male dominance to buy access to the bodies of women from poor countries who are paid for their sexual subservience This major and provocative contribution is essential reading for all with an interest in feminist gender and critical globalisation issues as well as students and scholars of international political economy      Sovereign Masculinity Bonnie Mann, 2013-12-09 After 9 11 2001 gendered narratives of humiliation and revenge proliferated in the U S national imaginary How is it that gender which we commonly take to be a structure at the heart of individual identity is also at stake in the life of the nation What do we learn about gender when we pay attention to how it moves and circulates between the lived experience of the subject and the aspirations of the nation in war What is the relation between national sovereignty and sovereign masculinity Through examining practices of torture extra judicial assassination and first person accounts of soldiers on the ground Bonnie Mann develops a new theory of gender It is neither a natural essence nor merely a social construct Gender is first and foremost an operation of justification which binds the lived existence of the individual subject to the aspirations of the regime Inspired by a reexamination of the work of Simone de Beauvoir the author exposes how sovereign masculinity hinges on the nation's ability to tap into and mobilize the structure of self justification at the heart of masculine identity At the national level shame is repeatedly converted to power in the War on Terror through hyperbolic displays of agency including massive aerial bombardment and practices of torture This is why as Mann demonstrates the phenomenon of gender itself demands a four dimensional analysis that moves from the phenomenological level of lived experience through the collective life of a people expressed in the social imaginary and the operations of language to the material relations that prevail in our times      *The Macho Paradox* Jackson Katz, 2019-06-04 A fully revised and updated edition to a classic bestseller The Macho Paradox is the first book to show how violence against women is a men's issue and how all genders can come together to stop it From the MeToo movement to current discussions about gender norms in schools sports politics and media culture The Macho Paradox incorporates the voices and experiences of the women men and others who have confronted the problem of gender violence from all angles Bestselling author Jackson Katz is a pioneering
