Laufenberg, 2014-05-19 The Manly Art is another collection of writer Keith G Laufenberg s short stories only this time with the defining factor being that they all involve the sport of boxing Having been in the sport himself beginning at age 17 when he entered Marine Corps boot camp and ending after seven years fought as a professional he is afforded a closer more intimate look into the boxers lives In Sonny Liston s Eyes the reader is taken into the Underworld of the sport when a writer interviews an ex mobster who is dying of lung cancer and claims to have killed Sonny Liston as well as JFK and Martin Luther King Jr He tells an incredible story but backs it up by saying he has absolutely verifiable evidence that he will produce for the writer In Frankenstein we see why a young amateur boxer should have picked boxing over football He has little say in the matter though as his father and uncle have trained him his entire life for football and it along with the other stories will keep you glued to the page **South of South Beach** Keith G. Laufenberg, 2014-07-05 South of South Beach takes the reader back in time to the 60 s and 70 s during a time when South Beach was nothing like the glitzy Art Deco district it is today but more of a dilapidated run down section of real estate where

Chris Dundee runs the 5th Street Gym and many transplanted prizefighters Muhammad Ali among them roam the streets looking for something to while away the hours while they prepare their bodies for the task of fighting another highly trained boxer who wants to beat their brains out even as they wish to do much the same to them The girls stroll parts of South Beach in bikinis and the Beatles have even visited the 5th Street Gym recently the beat generation is giving way to the hippie free love generation so come back in time and visit what today is one of the world s great vacation centers but at this time during the 1960 s was more of a slum or a ghetto to avoid at your own peril especially a small stretch of beach just south of South Beach
