*Over to Candleford* is a 1941 semi autobiographical novel by the English author Flora Thompson In 1945 the book was republished as part of the trilogy *Lark Rise to Candleford* comprising the novels *Lark Rise* 1939 *Over to Candleford* 1941 and *Candleford Green* 1943 The novel follows the childhood of Laura Timmins in the small rural northern Oxfordshire hamlet of Lark Rise and the surrounding countryside It is a study of her family and relatives in the nearby market town of Candleford based chiefly on Buckingham      **British Working Class women authors (born before 1962) a list** Stefan Szczelkun ,2025-06-07 A collection of Wikipedia articles edited reformatted and with additions In chronological order References and sections on non literary activity are sometimes omitted hopefully not to the point of misrepresenting the author which might include feminist or political activism To my surprise the biographical material on Wikipedia was sometimes mesmerising although it was uneven Where there were gaps I have tried to fill them from other sources Refer back to the wikipedia articles for more context and references in some cases and if you have a verified source of information please update the Wikipedia article Wikipedia is published under a creative commons licence So this compilation also carries a creative commons licence Introduction Looking through Sarah Richardson s *Writing on the Line* 1996 I was struck by how many of the working class women writers were from North America and how many more were poets Howard Slater had made a list of British working class male novelists and I selected British woman writers from *Writing on the Line* and found that most of them now have Wikipedia pages I first made a list of links Wanting to take this further I first looked to focus on novels and short story writers but this category started to break up as many writers wrote in many idioms producing fact fiction poetry plays screenwriting and journalism I decided on an arbitrary cut off point of writers born before 1962 When I first made the list I was thinking how few working class women novelists had been published in this period But then the lists of books by each author started to stack up and there s plenty to read and much that I missed even really hearing about Of course it focuses on the most successful others who produced a community published autobiography or self published novel did not get a Wikipedia page and they should really be included every life counts Others only published an autobiography perhaps in the last years of life but were extraordinary writers and people We could also discuss the genre snobbery in literary circles that puts crime young peoples literature romantic and fantasy fiction and perhaps historical based narratives in a lower category than the novel      1,000 Books to Read Before You Die James Mustich,2018-10-02 The ultimate literary

*Integrated Tasks* Peta Cato, 2005 Covering English Mathematics and Science Integrated Tasks is a brand new series designed to help you embed ICT into your core curriculum planning [To Exercise Our Talents](#) Christopher Hilliard, 2009-06-30 In twentieth century Britain the literary landscape underwent a fundamental change Aspiring authors traditionally drawn from privileged social backgrounds now included factory workers writing amid chaotic home lives and married women joining writers clubs in search of creative outlets In this brilliantly conceived book

Christopher Hilliard reveals the extraordinary history of ordinary voices Writing as an organized pursuit emerged in the 1920s complete with clubs magazines guidebooks and correspondence schools The magazine The Writer helped coordinate a network of writers circles throughout Britain that offered prospective authors especially women outside the educated London elite a forum in which to discuss writing The legacy of Wordsworth and other English Romantics encouraged the belief that would be authors should write about what they knew personally that art flowed from genuine experience and technique was of secondary importance The 1930s saw a boom in the publication of so called proletarian writing working class men writing in my own language about my own people as Birmingham writer Leslie Halward put it During World War II soldiers turned to poetry to cope with the trauma of war and the popular magazine Seven promoted the idea that anyone regardless of social background could be a creative writer Self expression became a democratic right In capturing the creative lives of ordinary people would be fiction writers and poets who until now have left scarcely a mark on written history Hilliard sensitively reconstructs the literary culture of a democratic age
