American Rhetoric Thomas W. Benson,1989 Nine fresh views of the interconnections of historical critical and theoretical scholarship in the field of American rhetoric Stephen T Olsen addresses the question of how to determine the disputed authorship of Patrick Henry s Liberty or Death speech of March 23 1775 Stephen E Lucas analyzes the Declaration of Independence as a rhetorical action designed for its own time and drawing on a long tradition of English rhetoric Carroll C Arnold examines the communicative qualities of constitutional discourse as revealed in a series of constitutional debates in Pennsylvania between 1776 and 1790 James R Andrews traces the early days of political pamphleteering in the new American nation Martin J Medhurst discusses the generic and political exigencies that shaped the official prayer at Lyndon B Johnson s inauguration In *Rhetoric as a Way of Being* Benson acknowledges the importance of everyday and transient rhetoric as an enactment of being and becoming Gerard A Hauser traces the Carter Administration s attempt to manage public opinion during the Iranian hostage crisis Richard B Gregg ends the book by looking for conceptual metaphorical patterns that may be emerging in political rhetoric in the 1980s

Humanism and Empire Alexander Lee,2018-02-02 For more than a century scholars have believed that Italian humanism was predominantly civic in outlook Often serving in communal government fourteenth century humanists like Albertino Mussato and Coluccio Salutati are said to have derived from their reading of the Latin

classics a rhetoric of republican liberty that was opposed to the tyranny of neighbouring signori and of the German emperors In this ground breaking study Alexander Lee challenges this long held belief From the death of Frederick II in 1250 to the failure of Rupert of the Palatinate s ill fated expedition in 1402 Lee argues the humanists nurtured a consistent and powerful affection for the Holy Roman Empire Though this was articulated in a variety of different ways it was nevertheless driven more by political conviction than by cultural concerns Surrounded by endless conflict both within and between city states the humanists eagerly embraced the Empire as the surest guarantee of peace and liberty and lost no opportunity to invoke its protection Indeed as Lee shows the most ardent appeals to imperial authority were made not by signorial humanists but by humanists in the service of communal regimes The first comprehensive synoptic study of humanistic ideas of Empire in the period c 1250 1402 this volume offers a radically new interpretation of fourteenth century political thought and raises wide ranging questions about the foundations of modern constitutional ideas As such it is essential reading not just for students of Renaissance Italy and the history of political thought but for all those interested in understanding the origins of liberty

The Cult of Remembrance and the Black Death Samuel Kline Cohn,1997-06-15 In his award winning study Death and Property in Siena historian Samuel K Cohn Jr used close analysis of last wills to chart transformations in mentalities over a six hundred year history Now in The Cult of Remembrance and the Black Death Cohn applies the same methodology to fashion a comparative history of six Italian city states Arezzo Florence Perugia Assisi Pisa and Siena showing the rise of a new Renaissance cult of remembrance In 1363 the Black Death devastated central Italy for the second time causing a detectable shift in notions of afterlife and patterns of charitable giving Throughout Tuscany and Umbria patricians and peasants alike abandoned the practice of dividing their bequests into small sums combining them instead into last gifts to enhance their fame and glory But this new cult of remembrance Cohn argues does not support Burckhardt s thesis of Renaissance individualism Instead the new piety grew in tandem with reverence for ancestors and a strong sense of family identity founded on the importance of male blood lines But rather than retreat into the religious pessimism of earlier times survivors of the plague would develop into a new generation of art patrons albeit one with a taste for distinctively cruder and more regimented forms of religious art From the supposed center of Renaissance culture Florence to the citadel of Franciscan devotion Assisi the widespread change of sentiment created a new demand for monumental burials testamentary commissions for art and other efforts to exert control over the living from beyond the grave

Urban Legends Carrie E. Benes,2011 Explores the role of the classical past in the construction of urban identity in late medieval Italy Focuses on the appropriation of classical symbols ancient materials and Roman myths to legitimate the regimes of various Italian city states Provided by publisher

Florentine Tuscany William J. Connell,Andrea Zorzi,2000 Florence has often been studied in the past for its distinctive urban culture and society while insufficient attention has been paid to the important Tuscan territorial state that was created by Florence in the fourteenth and fifteenth centuries Comprising a handful of formerly independent

city states and numerous smaller communities in the plains and mountains the Florentine empire in Tuscany supplied the markets and fiscal coffers of the Renaissance republic while providing lessons in statecraft that nourished the political thought of Machiavelli and Guicciardini This volume comprises seventeen original essays representing the new directions being taken by historians of the Florentine Renaissance It offers new and exemplary approaches towards state building political vocabulary political economy civic humanism local history and social patronage in what is one of the most interesting and well documented of the states of late medieval and Renaissance Europe

The Hundred Years War (Part III), 2013-07-25 In this work the third volume of essays dealing with many understudied aspects of the Hundred Years War American British and European scholars deal with the varied sources that reveal the lives of soldiers in the conflict as well as the development of strategy and generalship in the many theaters of the war The authors also focus on real heroes and villains of the conflict as well as the war's impact on regions as scattered as Wales the Low Countries Italy Scotland and Spain Contributors are Adrian Bell Anne Curry Adam Chapman Andy King David Simpkin Christopher Candy Donald Kagay William Caferro David Hoornstra Elena Odio Daniel Franke David Green Philip Morgan Sean McGlynn Wendy Turner Andrew Villalon Aleksandra Pfau Kelly DeVries and Sergio Boffa Winner of the 2014 Verbruggen Prize of De Re Militari the Society for the Study of Medieval Military History given annually for the best book on medieval military history

Society and Politics in Mediaeval Italy J.K. Hyde, 1973-07-01 *Routledge Revivals: Medieval Italy (2004)* Christopher Kleinhenz, 2017-07-05 First published in 2004 *Medieval Italy* An Encyclopedia provides an introduction to the many and diverse facets of Italian civilization from the late Roman empire to the end of the fourteenth century It presents in two volumes articles on a wide range of topics including history literature art music urban development commerce and economics social and political institutions religion and hagiography philosophy and science This illustrated A Z reference is a cross disciplinary resource and will be of key interest not only to students and scholars of history but also to those studying a range of subjects as well as the general reader

Spain, Portugal and the Atlantic Frontier of Medieval Europe Jose-Juan Lopez-Portillo, 2016-12-05 As seen from the perspective of 1492 the medieval expansion of Latin Europe was nowhere as dramatic or enduring as in the Iberian Peninsula and the Atlantic Its Christian kingdoms continued their advance against Al Andalus up to 1492 whereas territorial expansion elsewhere against the Muslim world had either ceased or subsided by the late 13th century Castile and Portugal also transformed the Atlantic Ocean from the inaccessible dead end of Eurasia into the most promising avenue for European expansion for the first time in history The articles collected in this volume explore the causes and the nature of this expansion from a variety of historical traditions They investigate the extent to which the transference of Mediterranean traditions aided this process the characteristics of Iberian conflict that eventually led to the success of its Christian kingdoms and the motives for launching and techniques for running the first European overseas empires in the unfolding Atlantic frontier In the process they illuminate the new identities and cultural interactions that this

expansion produced in its wake while the new introduction sets them in the broader context The Merchant of Prato's Wife Ann Crabb,2015-02-09 The first full study of the life of Margherita Datini illuminates the role and social standing of wives in early modern Italian society Chaucer's Italian Tradition Warren Ginsberg,2002 Explores provocative questions about the dynamics of cross cultural translation and the formation of tradition **The Construction of Minorities** André Burguière,Raymond Grew,2001 A cross cultural volume that investigates the question of how social minorities are formed

John Hawkwood William Caferro,2006-04-24 Winner 2008 Otto Gr ndler Book Prize The Medieval Institute Winner 2008 Otto Gr ndler Book Prize The Medieval Institute Notorious for his cleverness and daring John Hawkwood was the most feared mercenary in early Renaissance Italy Born in England Hawkwood began his career in France during the Hundred Years War and crossed into Italy with the famed White Company in 1361 From that time until his death in 1394 Hawkwood fought throughout the peninsula as a captain of armies in times of war and as a commander of marauding bands during times of peace He achieved international fame and city states constantly tried to outbid each other for his services for which he received money land and in the case of Florence citizenship a most unusual honor for an Englishman When Hawkwood died the Florentines buried him with great ceremony in their cathedral an honor denied their greatest poet Dante William Caferro s ambitious account of Hawkwood is both a biography and a study of warfare and statecraft Caferro has mined more than twenty archives in Britain and Italy creating an authoritative portrait of Hawkwood as an extraordinary military leader if not always an admirable human being **The Atlantic Frontier of the Thirteen American Colonies and States** Jacob M. Price,2024-10-28 The external economy of British North America has attracted considerable scholarly attention in the last two generations and the papers reprinted here in this second collection from Jacob Price make important contributions to quantification conceptualisation and debate Studies presenting and analysing new statistical material from the English and Scottish customs accounts are supplemented by a general survey of the transatlantic economy in the 18th century which is required reading for all students of the subject Price s treatment is diversified into financial arrangements and the role of credit in the slave trade and plantation economies In a provocative chapter Who cared about the colonies concern in Britain for the 13 colonies between 1714 and 1775 is explored in terms of the ability of the colonies to involve the interests and command the attention and concern of people in Britain from the politically eminent to those in trade and to the nation at large *Sorrow and Consolation in Italian Humanism* George W. McClure,2014-07-14 George McClure offers here a far reaching analysis of the role of consolation in Italian Renaissance culture showing how the humanists interest in despair and their effort to open up this realm in both social and personal terms signaled a shift toward a heightened secularization in European thought Analyzing works by fourteenth and fifteenth century writers from Petrarch to Marsilio Ficino McClure examines the treatment of such problems as bereavement fear of death illness despair and misfortune These writers who evinced a belief in the legitimacy of secular sadness tried to forge a wisdom that in their view dealt more realistically with

the art of living and dying than did the disputations of scholastic philosophy and theology Arguing that consolatory concerns helped spur the revival of classical schools of psychological thought McClure reveals that the humanists sought comfort from once neglected troves of Stoic Peripatetic Epicurean Platonic and Christian thought He contends that the humanists pursuit of solace and their duty as consolers provided not only a forum but perhaps also an incentive for the articulation of prominent Renaissance themes concerning immortality the dignity of man and the sanctity of worldly endeavor Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Looking at the Renaissance* Charles R. Mack, 2005 Charles Mack examines the evolving context of Renaissance art while offering fresh insight into the meaning of the Renaissance
