Afterlives of the Saints Julia Reinhard Lupton,1996 This book examines the ways in which the literary genre of hagiography and the hermeneutical paradigm of Biblical typology together entered into the construction of the Renaissance as a canon and period It is not about saints lives in themselves as either literary or historical phenomena but instead addresses the structural effects of hagiography in the secular literature of the Renaissance The central texts analyzed Boccaccio s Decameron Vasari s Lives of the Artists and Shakespeare s Measure for Measure and The Winter s Tale all manifest key moments and aspects in the creation of a Renaissance canon for the post Renaissance world The epochal significance of these works saturated in religious allusions as well as scenes of profane life and classical art is shown to rest in neither the normative piety nor the subversive heresy of any of these writers but rather in their crafting of myths of modernity precisely out of the religious material that formed such an important part of their daily vocabularies
