Details the trance journeying techniques and shapeshifting practices of ancient Mesoamerican shamanic traditions and modern day curanderismo. Explores how to strengthen our connections with our spirit animal guides. In this guide, Erika Buena explores the animal mythologies, spirit journeying techniques, and shapeshifting practices of ancient shamanic traditions and modern day curanderismo. She examines how indigenous Mesoamerican peoples used animals in their ceremonial healing and divination rites and explains the innate gifts and powers that different animals embody. She explores why certain animals are associated with and provide access to the nonordinary realms: the Underworld, Middleworld, and Upperworld, wherein deities, ancestors, supernatural beings, and medicine can be connected with or obtained. The author explores shapeshifting practices in detail and the physical, emotional, mental, and spiritual benefits we can gain by engaging in shapeshifting practices. She also explores how to strengthen our connections with our spirit animal guides. Offering an alphabetical guide to 76 animals most prevalent in ancient Mesoamerican legends, ceremonies, and medicinal rites, the author details each animal's spiritual gifts, shapeshifting, medicine, the realm they are associated with, and their symbolic meaning when they appear in a dream or vision. Providing multiple methods to connect with animals for spiritual guidance, self-empowerment, and healing, Buena reveals how each of us can enrich our lives with ancient Mesoamerican wisdom for working with animal guides.

*Expressions of the Body* Charlotte Baker, 2009 This book contributes to a growing corpus of writing on the body, bringing new perspectives to this fascinating and topical subject. Feminist, psychoanalytic, and queer readings, among others, have demonstrated the extent of the functions and roles fulfilled by the body, as well as the number of critical perspectives it can serve. However, by and large, African representations of the body have been overlooked. This coherent volume brings together essays on the portrayal of the body in African art, film, literature, photography, and theatre. The book includes thematically linked contributions which explore issues of power and representation and reflects current trends in the study of the body and more broadly within the field of African Studies.
