Florida Rules Of Court Federal 199:

United States Supreme Court Reports United States. Supreme Court, 1920 First series books 1 43 includes Notes on U S reports by Walter Malins Rose Florida Legal Research Suzanne E. Rowe, Barbara J. Busharis, Lisa Kuhlman Tietig, 1998 This book bridges the gap between typical legal research texts and the needs of beginning legal researchers for concise explanations of the sources they will use early in their careers A unique feature of this book is its emphasis on the sources a Florida attorney would use to do state and federal research Many research texts in contrast emphasize federal materials and include illustrations taken from a variety of federal and state jurisdictions The book is not however a bibliography of Florida sources Instead it combines an overview of essential primary and secondary sources with an introduction to research methods that will enable a novice researcher to move beyond the sources described in the text Moreover its emphasis on developing a research process and analyzing the results of legal research makes it appropriate even to those who might not be practicing or working in Florida Abbott's Digest of All the New York Reports ... , 1926 *Executing the Mentally Ill* Kent S. Miller, Michael L. Radelet, 1993-06-25 This book is an excellent primer on a subject that Americans are likely to debate for the foreseeable future Bimonthly Review of Law Books Unlike every other western democracy in the world capital punishment is an active part of the criminal justice system in the United States By the end of 1992 2 700 men and 41 women were living under the sentence of death in America Executing the Mentally Ill examines the compelling case of Florida death row inmate Alvin Ford which led the U S Supreme Court to rule that executions of severely psychotic death row inmates are in violation of the Eighth Amendment's ban on cruel and unusual punishment But how should mental illness be defined for purposes of exemption from execution How should mental health professionals evaluate competence for execution What happens when the professionals disagree among themselves about the defendant's mental health How strong should doubts about mental status be before the execution is stopped And what should be done with the prisoner who is found incompetent In telling the powerful story of Ford's history crime mental state and how he was handled by the criminal justice system the authors confront questions about modern capital sentencing and the administration of the death penalty in America today Executing the Mentally Ill provides a thought provoking read for students and professionals in mental health criminal justice and legal fields as well as policymakers and others concerned with capital punishment Those seeking a clearer context for the ambiguities and dilemmas that characterize the ongoing debate over exemption of the mentally ill from execution will find valuable historical and cross cultural references here The case of Alvin Ford provides a new perspective for measuring the gaps between the vagueness of the criteria used by mental health professionals in determining competence and its various legal definitions An underlying message for the reader is that questioning whether mentally ill or mentally retarded death row inmates should be executed implies questioning the use of the death penalty for anyone Readings A Journal of Reviews and Commentary in Mental Health The case of Alvin Ford a Florida man convicted of killing a police officer during a

bungled armed robbery provides a specific focus for Miller and Radelet's wide ranging discussion of mental illness and the death penalty Miller is a psychologist and longstanding student of mental disability issues Radelet is a leading contemporary authority on the death penalty Their combined expertise provides readers with a thorough exploration of the competence to die issue and they also touch on other death penalty issues such as proportionality and racial bias This book cannot of course decisively resolve all the issues involved in the death penalty debate but it is a worthwhile contribution to the literature

Advanced undergraduates and above Choice The life of Alvin Ford and his 17 year odyssey through Florida's complex capital punishment process is the subject of *Executing the Mentally Ill* In telling this fascinating and often macabre story professors Miller and Radelet expose an inherent and often ignored moral dilemma with capital punishment The book provides compelling empirical support for the dictum that though the justice of God may indeed ordain that some should die the justice of man is altogether and always insufficient for saying who these may be Black 1974 p 96 The authors also use the Ford case to examine other important issues about the death penalty in the United States including racism and ineffective assistance of counsel This well documented volume should appeal both to an academic audience and to the general public Robert M Bohm Ph D University of North Carolina Over the last five years I have reviewed about a dozen books mostly for university presses and found this particular piece to be the most well written and well researched document to date The scholarship is sound and workmanlike I was impressed with the authors scholarship and ability to apply a wide range of data e g psychiatric testimony appellate decisions interviews and personal letters to a critical social issue that will continue to haunt our society the execution of the mentally ill offender This book makes a very important contribution to the literature in psychology and the law The book could be used as a supplementary text in criminal justice programs sociology psychology law and public policy This book should be read by every appellate level judge felony district court judge prosecutor and defense attorney in America It leads the way in clarifying the practical moral and ethical issues Legislators should also read this account James W Marquart Ph D Sam Houston State University It is an important book addressing an area that has only recently become the focus of much attention for mental health professionals Miller and Radelet have undertaken a comprehensive and carefully articulated look at the issue of competency for execution and the way in which it affects mental health professionals interwoven as it is with the politics of capital punishment Kirk Heilbrun Ph D Department of Mental Health Mental Retardation and Substance Abuse Services Central State Hospital Virginia

Removal of Causes from State to Federal Courts James Lewis, 1923 *Legal Reference for Librarians* Paul D. Healey, 2014 In recent years the number of Americans who have decided to handle their own legal affairs without the help of a lawyer has skyrocketed Ranging from people writing their own wills or drafting a contract to those trying to represent themselves in court they're going to public and academic libraries for answers As both an attorney and a librarian Healey's background makes him uniquely qualified to advise library staff on providing users with the legal information they seek and in this handbook he Provides a concise
