Northrop Frye and Others Robert D. Denham, 2018-09-05 Robert D Denham pursues his quest to uncover the links between Northrop Frye and writers and others who directly influenced his thinking but about whom he did not write an extensive commentary The first chapter is about Frye s reading of Patanjali the founder of the philosophy of Hindu yoga while the second discusses cultural mythographer Giambattista Vico literary history and poetic language The focus of Frye s criticism was the verbal arts but he also had an abiding interest in both the visual arts and music hence Frye s admiration of J S Bach The essay on Tolkien examines the tendency in literary history to return from irony to myth as well as the role that Tolkien played in Frye s fiction writing fantasies In subsequent chapters Denham explores Frye s preference for romance and his critique of realism which run parallel to the views of Oscar Wilde and their strong shared convictions about the centripetal thrust of art and about criticism being as creative as literature Frye s appreciation for Whitehead s concept of interpenetration in *Science in the Modern World* became a key feature of Frye s speculations about the highest reaches of literature and religion Frye is clearly indebted to Martin Buber particularly his influential meditation *I and Thou* Aristotle an important influence upon Frye was partially filtered through R S Crane and his *The Languages of Criticism and the Structure of Poetry* Finally the relationship between Frye and his Oxford tutor Edmund Blunden are explored while the last is an essay on Frye and M H Abrams on how Frye s critical project might be viewed developed in Abrams s *The Mirror and the Lamp* This book is published in English Robert D Denham poursuit son examen dcrivains et autres influences qui ont marqu l

minent critique Northrop Frye mais sur lesquels celui-ci n'avait pas consacré de réflexions très développées. Le premier chapitre porte sur la lecture que fait Frye de Patanjali le fondateur de la philosophie du yoga hindou et le deuxième sur le mythographe culturel Giambattista Vico l'histoire littéraire et le langage poétique Frye s'intéressait aux arts visuels et la musique et Denham approfondit l'influence de J.S. Bach sur Frye. Le chapitre sur Tolkien porte sur la tendance en histoire littéraire de passer de l'ironie au mythe mais aussi sur l'ascendant de Tolkien sur la fiction fantaisiste de Frye. Dans les chapitres suivants Denham explore la préférence de Frye pour le romantique et sa critique du réalisme qui trouvent chez Oscar Wilde de même que leur conviction partagée de l'importance de l'art et de la critique comme tant aussi créative que la littérature. L'admiration de Frye pour le concept d'interprétation présent dans le *Science in the Modern World* de Whitehead est devenue un élément clé des réflexions de Frye sur la portée de la littérature et de la religion. Denham explore aussi le lien entre Frye et Martin Buber dont la méditation *I and Thou* l'a beaucoup inspiré et celui entre Frye et R.S. Crane qui parle beaucoup d'Aristote dans son ouvrage *The Languages of Criticism and the Structure of Poetry*. Le chapitre 9 explore la relation entre Frye et son tuteur d'Oxford Edmund Blunden alors que le dernier chapitre porte sur Frye et M.H. Abrams et notamment sur le projet critique de Frye compris la lumière du cadre sur la théorie critique développée par Abrams dans *The Mirror and the Lamp*. Ce livre est publié en anglais.

Virtuous Bodies Susanne Mrozik, 2007-07-20 *Virtuous Bodies* breaks new ground in the field of Buddhist ethics by investigating the diverse roles bodies play in ethical development. Traditionally Buddhists assumed a close connection between body and morality. Thus Buddhist literature contains descriptions of living beings that stink with sin, are disfigured by vices, or are perfumed and adorned with virtues. Taking an influential early medieval Indian Mahāyāna Buddhist text *Sāntideva's Compendium of Training* (Sikṣaśamuccaya) as a case study, Susanne Mrozik demonstrates that Buddhists regarded ethical development as a process of physical and moral transformation. Mrozik chooses *The Compendium of Training* because it quotes from over one hundred Buddhist scriptures, allowing her to reveal a broader Buddhist interest in the ethical significance of bodies. The text is a training manual for bodhisattvas, especially monastic bodhisattvas. In it, bodies function as markers of and conditions for one's own ethical development. Most strikingly, bodies also function as instruments for the ethical development of others. When living beings come into contact with the virtuous bodies of bodhisattvas, they are transformed physically and morally for the better. *Virtuous Bodies* explores both the centrality of bodies to the bodhisattva ideal and the corporeal specificity of that ideal. Arguing that the bodhisattva ideal is an embodied ethical ideal, Mrozik poses an array of fascinating questions: What does virtue look like? What kinds of physical features constitute virtuous bodies? What kinds of bodies have virtuous effects on others? Drawing on a range of contemporary theorists, this book engages in a feminist hermeneutics of recovery and suspicion in order to explore the ethical resources Buddhism offers to scholars and religious practitioners interested in the embodied nature of ethical ideals. *Jōkei and Buddhist Devotion in Early Medieval Japan* James L. Ford, 2006-08-24 This is the first book-length study in any language of Jōkei (1155

1213 a prominent Buddhist cleric of the Hoss Yogacara school whose life bridged the momentous transition from Heian 794-1185 to Kamakura 1185-1333 Japan. Kamakura Buddhism has drawn notable scholarly attention largely because it marks the emergence of new schools Pure Land Nichiren and Zen that came to dominate the Buddhist landscape of Japan. Although Jikaku is invariably cited as one of the leading representatives of established Buddhism during the Kamakura period, he has been seriously neglected by Western scholars. In this book, James L. Ford aims to shed light on this pivotal and long overlooked figure. Ford argues convincingly that Jikaku is an ideal personage through which to peer anew into the socio-religious dynamics of early medieval Japan. Indeed, Jikaku is uniquely linked to a number of decisive trends and issues of dispute, including the conflict between the established schools and Hnen's exclusive nenbutsu movement, the precept revival movement, doctrinal reform efforts, the proliferation of prominent reclusive monks (tonseis), the escalation of fundraising (kanjin) campaigns and popular propagation, and the conspicuous revival of devotion toward Shakyamuni and Maitreya. Jikaku represents a paradigm within established Buddhism that recognized the necessity of accessing other powers through esoteric practices, ritual performances, and objects of devotion. While Jikaku is best known as a leading critic of Hnen's exclusive nenbutsu movement and a conservative defender of normative Buddhist principles, he was also a progressive reformer in his own right. Far from defending the status quo, Jikaku envisioned a more accessible, harmonious, and monastically upright form of Buddhism. Through a detailed examination of Jikaku's extensive writings and activities, Ford challenges many received interpretations of Jikaku's legacy and the transformation of Buddhism in early medieval Japan. This book fills a significant lacuna in Buddhist scholarship.

A Taste of Buddhist Practice Thaye Dorje, 2020-07-10. Nowadays, very popular meditation is often presented as the key Buddhist method. However, it is actually only one means of this path of liberation. Karmapa Thaye Dorje sketches out the essential points to enter on this path in a way that is both modern and accessible for the Western audience, taking refuge, giving rise to loving kindness and compassion, and measuring the opportunity of this present existence and conditions. He taps into the Buddha's heritage and gives it a contemporary taste.

Exiting Violence Debora Tonelli, Gerard Michael J. Mannion, 2024-06-04. In the 20th and 21st centuries, where violence has scarred countless lives, the interplay between religion, politics, and conflict remains a complex web. *Exiting Violence* looks to untangle some of these knots, showing not only how faith can ignite bloodshed but also how it can inspire peace and build bridges. Resulting from an international collaboration between the Fondazione Bruno Kessler, RESET Dialogues Among Civilizations, and the Berkley Center for Religion, Peace, and World Affairs, this collection assesses the state of scholarship and explores the differing ways in which religion can contribute to societies and communities exiting situations of violence and hatred. From Biblical hermeneutics to Buddhism, from secularism to legal systems, *Exiting Violence* offers a nuanced and thought-provoking exploration of the multifaceted role religion plays in the human struggle for peace and justice.

Park,2010-10-28 Buddhism and Postmodernity is a response to some of the questions that have emerged in the process of Buddhism's encounters with modernity and the West Jin Y Park broadly outlines these questions as follows first why are the interpretations and evaluations of Buddhism so different in Europe in the nineteenth century in the United States in the twentieth century and in traditional Asia second why does Zen Buddhism which offers a radically egalitarian vision maintain a strongly authoritarian leadership and third what ethical paradigm can be drawn from the Buddhist postmodern form of philosophy Park argues that as unrelated as these questions may seem the issues that have generated them are related to perennial philosophical themes of identity institutional power and ethics respectively Each of these themes constitutes one section of Buddhism and Postmodernity Park discusses the three issues in the book through the exploration of the Buddhist concepts of self and others language and thinking and universality and particularities Most of this discussion is drawn from the East Asian Buddhist traditions of Zen and Huayan Buddhism in connection with the Continental philosophies of postmodernism hermeneutics and deconstruction Self critical from both the Buddhist and Western philosophical perspectives Buddhism and Postmodernity points the reader toward a new understanding of Buddhist philosophy and offers a Buddhist postmodern ethical paradigm that challenges normative ethics of metaphysical traditions **Northrop Frye's Notebooks on Renaissance Literature**

Michael Dolzani, 2006-12-15 Although Northrop Frye's first book *Fearful Symmetry* 1947 elevated the reputation of William Blake from the status of a minor eccentric to that of a major Romantic poet Frye in fact saw Blake as a poet and consequently himself as a critic not of the Romantic period but of the Renaissance As such Frye's meditations on the Renaissance are particularly valuable This volume collects six of Frye's notebooks and five sets of his typed notes on subjects related to Renaissance literature Michael Dolzani divides these notes into three categories those on Spenser and the epic tradition those on Shakespearean drama and more widely the dramatic tradition from Old Comedy to the masque and those on lyric poetry and non fiction prose The organization of this volume reflects a comprehensive study of Renaissance Symbolism in three volumes which Frye proposed to the Guggenheim Foundation in 1949 Frye received a Guggenheim fellowship but never wrote the book nevertheless his application part of which is also included here is an important document The Guggenheim application not only reveals the outlines of Frye's thinking about literature it also uncovers his plans for his future creative life during the crucial period between his completion of *Fearful Symmetry* and his absorption in the writing of *Anatomy of Criticism* In addition to providing insight into Frye's thinking process the material collected into this key volume in the *Collected Works* is of particular importance because much of it has no direct counterpart in any of Frye's other published works
