Franchising in America Thomas S. Dicke, 2017-12-15 Using a series of case studies from five industries Dicke analyzes franchising a marketing system that combines large and small firms into a single administrative unit strengthening both in the process He studies the franchise industry from the 1840s to the 1980s closely examining the rights and obligations of both the parent company and the franchise owner Originally published in 1992 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value **Global Trends in Museum Diplomacy** Natalia

Grincheva, 2019-06-25 *Global Trends in Museum Diplomacy* traces the transformation of museums from publicly or privately funded heritage institutions into active players in the economic sector of culture Exploring how this transformation reconfigured cultural diplomacy the book argues that museums have become autonomous diplomatic players on the world stage The book offers a comparative analysis across a range of case studies in order to demonstrate that museums have gone global in the era of neoliberal globalisation Grincheva focuses first on the Solomon R Guggenheim Foundation which is well known for its bold revolutionising strategies of global expansion museum franchising and global corporatisation The book then goes on to explore how these strategies were adopted across museums around the world and analyses two cases of post Guggenheim developments in China and Russia the K11 Art Mall in Hong Kong and the International Network of Foundations of the State Hermitage Museum in Russia These cases from more authoritarian political regimes evidence the emergence of alternative avenues of museum diplomacy that no longer depend on government commissions to serve immediate geo political interests *Global Trends in Museum Diplomacy* will be a valuable resource for students scholars and practitioners of contemporary museology and cultural diplomacy Documenting new developments in museum diplomacy the book will be particularly interesting to museum and heritage practitioners and policymakers involved in international exchanges or official programs of cultural diplomacy Illinois Historical Journal ,1998 *America, History and Life* ,1994 Article

abstracts and citations of reviews and dissertations covering the United States and Canada *Mass Society, Pluralism, and Bureaucracy* Richard F. Hamilton, 2001-01-30 Three major social theories mass society pluralism and bureaucracy are often employed to interpret and explain modern societies Although frequently invoked the theories themselves are poorly understood This book seeks to clarify the background context and major arguments of the theories assess the claims and validity of each provide expert commentary and suggest avenues for further work in each area Drawing on work in the humanities history sociology economic history and political science Hamilton is able to provide readers with a clear concise and accurate overview of the adequacy of these theories as well as their empirical validity Beginning with the mass society theory Hamilton offers a systematic empirical assessment of its major tenets and its abundant shortcomings While the

validity of the mass society theory does not hold up there is more support for pluralism and Hamilton adeptly assesses its arguments while suggesting a more realistic and partitive reading of the theory And while the image of an all pervasive and growing bureaucracy seems to overwhelm society Hamilton argues that the theory seriously misrepresents the character of modern life Working through each of these theories using an integrated approach the author concludes each assessment with suggestions for which elements of the theory should be retained which should be reworked and which should be discarded altogether
