How the Doctrine of Incarnation Shaped Western Culture Patricia Ranft, 2013 In recent years numerous scholars in disciplines not traditionally associated with theology have promoted an interesting thesis They maintain that one particular Christian doctrine the Incarnation had an inordinate influence on the shape of Western culture The doctrine they say was so radical that it mandated an epistemological break with pagan society's perception of the universe and forced Christians to form a new culture As medieval society worked out the consequences of the doctrine it gave birth to those attitudes institutions and actions that define modern Western culture The claims are well argued but it is a historically untested thesis How the Doctrine of Incarnation Shaped Western Culture is a response to the situation It investigates whether the presence of the doctrine had the definitive effect on Western culture that so many scholars claim it did It searches early Christian and medieval sources for evidence and concludes that the doctrine had a dominant effect on the developing culture No other idea was as omnipresent or pervasive in Western society during its formative stage as the Incarnation doctrine The doctrine was influential in the establishment of every major facet of Western culture Its paradox irrationality and juxtaposition of opposites created a tension that cried out for resolution and society responded accordingly The ideas within the doctrine acted as catalysts for cultural change As a result the West developed its most characteristic traits and forged a path that was uniquely its own

Galician Cultural Identity in the Works of Ramón Otero Pedrayo Craig Patterson, 2006 In the 1920s a group of Galician intellectuals known as the Xeracion Nos began through their literary output and political activities to articulate and reinterpret Galician cultural identity after several centuries of cultural repression and centralization This book examines both the nexus of inherited positions of this cultural recovery and its original formulation through the works of one of the

most prominent intellectual of the Xeracion Nos Ramon Otero Pedrayo
