British Empire G. A. Bremner, 2016-10-13 Throughout today's postcolonial world buildings monuments parks streets avenues entire cities even remain as witness to Britain's once impressive if troubled imperial past These structures are a conspicuous and near inescapable reminder of that past and therefore the built heritage of Britain's former colonial empire is a fundamental part of how we negotiate our postcolonial identities often lying at the heart of social tension and debate over how that identity is best represented This volume provides an overview of the architectural and urban transformations that took place across the British Empire between the seventeenth and mid twentieth centuries Although much research has been carried out on architecture and urban planning in Britain's empire in recent decades no single comprehensive reference source exists The essays compiled here remedy this deficiency With its extensive chronological and regional coverage by leading scholars in the field this volume will quickly become a seminal text for those who study teach and research the relationship between empire and the built environment in the British context It provides an up to date account of past and current historiographical approaches toward the study of British imperial and colonial architecture and urbanism and will prove equally useful to those who study architecture and urbanism in other European imperial and transnational contexts The volume is divided in two main sections The first section deals with overarching thematic issues including building typologies major genres and periods of activity networks of expertise and the transmission of ideas the intersection between planning and politics as well as the architectural impact of empire on Britain itself The second section builds on the first by discussing these themes in relation to specific geographical regions teasing out the variations and continuities observable in context both practical and theoretical

The Architecture of East Australia Bill MacMahon, 2001-11-29 The story of Australian architecture might be said to parallel the endeavours of Australians to adapt reconcile themselves with their home neighbours It is the story of 200 years of coming to terms with the land of adaptation insight making do Early settlers were poorly provisioned profoundly ignorant of the land richly prejudiced towards its peoples They pursued many paths over many terrains From the moist temperate region of Tasmania with heavy Palladian villas to the monsoonal north with open lightweight stilt houses the continent has induced most different regional building styles

Sydney Architecture Paul McGilick, Patrick Bingham-Hall, 2005-02 Sydney Architecture documents the rich architectural tradition of Australia's oldest and largest city

Convicts and the Arts Professor Max Howell, Dr Lingyu Xie, 2013-11-01 There are a considerable number of books on the art of the convicts so Convicts Art has been covered reasonably well but art is only once facet of the arts that has been examined to any extent This book concerns itself with Convicts the Arts This book then endeavors to look at the convicts contribution to the arts and demonstrates without doubt that the convicts made a significantly broader contribution to the culture of Australia than previously thought There is a common misconception that all convicts were immediately institutionalised in a cell and convict culture was solely a prison culture It needs reinforcing that when the First Fleet arrived there were no prisons in Australia no cells where they could put the convicts The early governors and principal

authorities quite logically endeavoured to use whatever skills the convicts had So artists generally forgers were placed with those who were interested in recording a visual history of this new land Among the convicts were bricklayers house painters jewelers silversmiths goldsmiths and so on and some of them made significant contributions to the emerging society Some of these contributions will be developed herein This work endeavors to examine the convicts contribution to the arts in Australia in areas like the writing of novels poetry autobiographies sculpture theatre music architecture jewelry the press decorative arts and pottery
