Images and Ideas in Seventeenth-Century Spanish Painting Jonathan Brown, 2022-02-08 Art historians have often minimized the variety and complexity of seventeenth century Spanish painting by concentrating on individual artists and their works and by stressing discovery of new information rather than interpretation As a consequence the painter emerges in isolation from the forces that shaped his work Jonathan Brown offers another approach to the subject by relating important Spanish Baroque paintings and painters to their cultural milieu A critical survey of the historiography of seventeenth century Spanish painting introduces this two part collection of essays Part One provides the most detailed study to date of the artistic literary academy of Francisco Pacheco and Part Two contains original studies of four major painters and their works Las Meninas of Velazquez Zurbarán's decoration of the sacristy at Guadalupe and the work by Murillo and Valdés Leal for the Brotherhood of Charity Seville The essays are unified by the author's intention to show how the artists interacted with and responded to the prevailing social theological and historical currents of the time While this contextual approach is not uncommon in the study of European art it is newly applied here to restore some of the diversity and substance that Spanish Baroque painting originally possessed

Visualizing the Text Lauren Beck, Christina Ionescu, 2017-05-01 This volume presents in depth and contextualized analyses of a wealth of visual materials These documents provide viewers with a mesmerizing and informative glimpse into how the early modern world was interpreted by

image makers and presented to viewers during a period that spans from manuscript culture to the age of caricature The premise of this collection responds to a fundamental question how are early modern texts objects and systems of knowledge imaged and consumed through bimodal hybrid or intermedial products that rely on both words and pictures to convey meaning The twelve contributors to this collection go beyond traditional lines of inquiry into word and image interaction to deconstruct visual dynamics and politics to show how images were shaped manipulated displayed and distributed to represent the material world to propagate official and commercial messages to support religious practice and ideology or to embody relations of power These chapters are anchored in various theoretical and disciplinary points of departure such as the history of collections and collecting literary theory and criticism the histories of science art history and visual culture word and image studies as well as print culture and book illustration Authors draw upon a wide range of visual material hitherto insufficiently explored and placed in context in some cases hidden in museums and archives or previously assessed only from a disciplinary standpoint that favored either the image or the text but not both in relation to each other They include manuscript illuminations representing compilers and collections frontispieces and other accompanying plates published in catalogues and museographies astronomical diagrams mixed pictographic alphabetic accounting documents Spanish baroque paintings illustrative frontispieces or series inspired by or designed for single novels or anthologies anatomical drawings featured in encyclopedic publications visual patterns of volcanic formations engravings representing the New World that accompany non fictional travelogues commonplace books that interlace text and images and graphic satire Geographically the collection covers imperial centers Great Britain France the Netherlands and Spain as well as their colonial periphery New France Mexico Central America South America in particular Brazil parts of Africa and the island of Ceylon Emblematic and thought provoking these images are only fragments of the multifaceted and comprehensive visual mosaic created during the early modern period but their consideration has far reaching implications

Western Codification of Criminal Law Aniceto Masferrer, 2018-03-09 This volume addresses an important historiographical gap by assessing the respective contributions of tradition and foreign influences to the 19th century codification of criminal law More specifically it focuses on the extent of French influence among others in European and American civil law jurisdictions In this regard the book seeks to dispel a number of myths concerning the French model s actual influence on European and Latin American criminal codes The impact of the Napoleonic criminal code on other jurisdictions was real but the scope and extent of its influence were significantly less than has sometimes been claimed The overemphasis on French influence on other civil law jurisdictions is partly due to a fundamental assumption that modern criminal codes constituted a break with the past The question as to whether they truly broke with the past or were merely a degree of reform touches on a difficult issue namely the dichotomy between tradition and foreign influences in the codification of criminal law Scholarship has unfairly ignored this important subject an oversight that this book remedies The Cambridge Modern History ,1911

Re-Reading Leonardo Claire Farago, 2017-07-05 For nearly three centuries Leonardo da Vinci s work was known primarily through the abridged version of his Treatise on Painting first published in Paris in 1651 and soon translated into all the major European languages Here for the first time is a study that examines the historical reception of this vastly influential text This collection charts the varied interpretations of Leonardo s ideas in French Italian Spanish English German Dutch Flemish Greek and Polish speaking environments where the Trattato was an important resource for the academic instruction of artists one of the key sources drawn upon by art theorists and widely read by a diverse network of artists architects biographers natural philosophers translators astronomers publishers engineers theologians aristocrats lawyers politicians entrepreneurs and collectors The cross cultural approach employed here demonstrates that Leonardo s Treatise on Painting is an ideal case study through which to chart the institutionalization of art in Europe and beyond for 400 years The volume includes original essays by scholars studying a wide variety of national and institutional settings The coherence of the volume is established by the shared subject matter and interpretative aim to understand how Leonardo s ideas were used With its focus on the active reception of an important text overlooked in studies of the artist s solitary genius the collection takes Leonardo studies to a new level of historical inquiry Leonardo da Vinci s most significant contribution to Western art was his interpretation of painting as a science grounded in geometry and direct observation of nature One of the most important questions to emerge from this study is what enabled the same text to produce so many different styles of painting **The National Union Catalog, Pre-1956 Imprints** ,1976 **Immaculate Conceptions** Rosilie Hernández, 2019-09-13 Immaculate Conceptions investigates the religious imagination sacred truth communicated through contingent and contextually determined theological propositions as deployed in early modern Spanish textual and visual

representations of the Virgin of the Immaculate Conception **Early Modern Spain** Jon Cowans, 2003-05-12 It is difficult to think of a better way of introducing students to the rich diversity of Hispanic civilization in the Golden Age and Enlightenment than through the pages of this book History **The Cristos yacentes of Gregorio Fern?ez** Ilenia Col?n Mendoza, 2017-07-05 Analyzing seventeenth century images of the dead Christ produced by Gregorio Fern ez author Ilenia Col endoza investigates how and why the artist and his patrons manipulated these images in connection with the religious literature of the time to produce striking images that moved the faithful to devotion In so doing she contributes new findings to the topic of Spanish sacred sculpture The author re examines these sculptures not only in the context of a larger sculptural group but also as independent sculptures that were intended as powerful aids to contemplation and devotion as was prescribed by the writings of San Juan de la Cruz and Luis de Granada Combining study of the sculptural works with that of liturgical sources she reveals the connection between the written word and the sculpted work of art Through this interdisciplinary approach the author links Fern ez s sculptural program with the strategic objectives of major patrons of the period such as the Duke of Lerma and King Philip III of Spain both fervent defenders of the Catholic faith Renaissance Papers 2017 Jim Pearce, Ward J. Risvold, 2018 This year s volume offers many contributions on early modern drama alongside essays probing identity iconography and devotional imagery in religious spaces and artworks Renaissance Papers collects the best scholarly essays submitted each year to the Southeastern Renaissance Conference The 2017 volume opens with a trio of essays probing identity iconography and devotional imagery in connection with the sacred spaces of St Paul s Cathedral and of the Bichi Chapel frescoes in the Church of St Agostino in Siena as well as with Francisco de Zurbur n s Crucifixion with a Painter The majority of the volume sessays concern early modern drama botany and the body in Titus Andronicus Ovidian sleep in Romeo and Juliet The Winter s Tale and Othello chivalry in Richard II and 1 Henry IV transhumanist discourse in Othello obedience and devils in Dr Faustus and domesticity and commerce in A Chaste Maid in Cheapside The focus then shifts to the non dramatic with reconsiderations of the intertextualities in Shakespeare s The Rape of Lucrece and the paratextualities in Salve Deus Rex Judaeorum The final essay on the Faerie Queene explores the intended and unintended literary consequences of pairing humor with death Contributors Jasmin W Cyril Lisandra Estevez Tony Perrello Emily Johnson Roberts Rachel M De Smith Roberts Deneen M Sensai Margaret Simon Elisha Sircy Susan C Staub Frances Teague John N Wall Lewis Walker The journal is edited by Jim Pearce of North Carolina Central University and Ward J Risvold of the University of California San Diego **Painting in Spain** Jonathan Brown, 1998-01-01 El Greco Ribera Vel zquez Murillo these are but a few of the great sixteenth and seventeenth century artists of Spain s golden age of painting In this authoritative and handsome book an enlarged extended and revised version of his Golden Age of Painting in Spain eminent Spanish art scholar Jonathan Brown surveys the development of painting in Spain during this fascinating period Focusing on the interaction between art and the socioeconomic and political conditions that prevailed in Spain s golden age this book
