**Franco** Antonio Cazorla-Sanchez, 2013-07-18 General Francisco Franco also called the Caudillo was the dictator of Spain from 1939 until his death in 1975 His life has been examined in many previous biographies However most of these have been traditional linear biographies that focus on Franco's military and political careers neglecting the significance of who exactly Franco was for the millions of Spaniards over whom he ruled for almost forty years In this new biography Antonio Cazorla Sanchez looks at Franco from a fresh perspective emphasizing the cultural and social over the political Cazorla Sanchez's Franco uses previously unknown archival sources to analyse how the dictator was portrayed by the propaganda machine how the opposition tried to undermine his prestige and what kind of opinions rumours and myths people formed of him and how all these changed over time The author argues that the collective construction of Franco's image emerged from a context of material needs the political traumas caused by the Spanish Civil War 1936-1939 the complex cultural workings of a society in distress political manipulation and the lack of any meaningful public debate Cazorla Sanchez's Franco is a study of Franco's life as experienced and understood by ordinary people by those who loved or admired him by those who hated or disliked him and more generally by those who had no option but to accommodate their existence to his rule The book has a significance that goes well beyond Spain as Cazorla Sanchez explores the all too common experience of what it is like to live under the deep shadow cast by an always officially praised ever present and long lasting dictator
