

A detailed oil painting of Benjamin Franklin, showing him from the chest up. He has long, dark, wavy hair and is wearing a red coat over a white cravat. He is looking slightly to the right with a gentle smile. The background is a soft, warm tone.

Franklin Americas Essential Founding Father:

The Compleated Autobiography by Benjamin Franklin Benjamin Franklin,2007-07-01 A book to challenge the status quo spark a debate and get people talking about the issues and questions we face as a country **The Myths That Made**

America Heike Paul,2014-08-15 This essential introduction to American studies examines the core foundational myths upon which the nation is based and which still determine discussions of US American identities today These myths include the myth of discovery the Pocahontas myth the myth of the Promised Land the myth of the Founding Fathers the melting pot myth the myth of the West and the myth of the self made man The chapters provide extended analyses of each of these myths using examples from popular culture literature memorial culture school books and every day life Including visual material as well as study questions this book will be of interest to any student of American studies and will foster an understanding of the United States of America as an imagined community by analyzing the foundational role of myths in the process of nation building **The Secret Founding of America** Nicholas Hagger,2016-11-15 The widely accepted story of the founding of

America is that The Mayflower delivered the first settlers from Plymouth to the New World in 1620 Yet in reality the Jamestown settlers had already become the first English speaking outpost thirteen years earlier in 1607 The Secret Founding of America introduces these two groups of founders the Planting Fathers who established the earliest settlements along essentially Christian lines and the Founding Fathers who unified the colonies with the Declaration of Independence and the Constitution and it argues that the new nation conceived in liberty was the Freemasons first step towards a new world order Drawing on original findings and an in depth understanding of the political and philosophical realities of the time historian Nicholas Hagger charts the connections between Gosnold and Smith Templars and Jacobites and secret societies and libertarian ideals He also explains how the influence of German Illuminati worked on the constructors of the new republic and shows the hand of Freemasonry at work at every turning point in America s history from Civil War to today s global struggles for democracy **Founding Fathers** The Encyclopaedia Britannica,2007-08-01 An authoritative accessible guide

to the figures who shaped a nation How did upstart colonists solidify the ideas celebrated in the Declaration of Independence and defeat the powerful British army How did thinkers from disparate backgrounds shape a government that transformed modern politics The Founding Fathers explains how putting valuable information on this historic period at your fingertips straight from one of the most trusted sources of information around the globe This comprehensive guide takes a compelling look at prominent statesmen such as Benjamin Franklin Thomas Jefferson Thomas Paine and George Washington and lesser known but influential leaders such as Samuel Chase Charles Pinckney and others Alphabetized for easy reference it also offers discussions of key issues including slavery the separation of powers the presidency and Deism and Christianity events such as the American Revolution the Whiskey Rebellion and the Louisiana Purchase and documents including the Constitution and the Bill of Rights Every special essay and concise entry from Abigail Adams to George Wythe promotes the

deeper understanding of the personalities issues and events that only Encyclop dia Britannica can provide The book s balanced fact based coverage of the Founding Fathers is especially relevant today when differing interpretations of their intent are used in debates over current policies The Founding Fathers is the ideal resource for anyone looking to hone his or her knowledge of the fascinating figures who wrote the first chapter of U S history *Franklin* James Srodes,2003-07-01 Paints a portrait of founding father Benjamin Franklin arguing that the American republic would not have been possible without the Renaissance author journalist scientist politician diplomat and bon vivant *Silas Deane, Revolutionary War Diplomat and Politician* Milton C. Van Vlack,2013-04-26 Silas Deane was the victim of one of the most vicious character assassination conspiracies ever carried out in the Revolutionary War era Even after almost two and a half centuries he remains in the eyes of many modern historians worse than Arnold his boyhood friend This is very wrong Because Deane was such a capable individual in his endeavors very early in the war he became the political target of envious others with quite different abilities and philosophies Even so his political strength kept growing and in 1776 Congress appointed him America s first secret agent to secure military supplies from France for Washington s army This biography is written on the man himself and on the malicious and largely successful lies and intrigues by his rivals The work does not downplay the contributions of his contemporaries especially those of his close friend throughout Benjamin Franklin but shows exactly where specific credit should be placed A lot of credit for the new nation s success belongs to him **The Bloomsbury Encyclopedia of the American Enlightenment** Mark G. Spencer,2015-01-01 **An Historical Introduction to American Education** Gerald L. Gutek,2012-09-18 Guteks classic volume on the history of American education has been thoroughly revised and updated to provide a twenty first century perspective on the development of American educational institutions Like earlier editions the well researched Third Edition employs a topical approach to examine the evolution of key institutions like the common school and the high school as well as significant movements like progressive education racial desegregation and multiculturalism Primary source readings enhance and reinforce chapter content and feature new writings from Benjamin Rush Horace Mann Maria Montessori W E B Du Bois John Dewey and Jane Addams Two new chapters add depth to this comprehensive richly illustrated work Immigration Multiculturalism and Education examines the response of public schools to the education of immigrant children in the context of Americas industrialization and urbanization This compelling addition also looks at the changing demographics of immigration and discusses the experiences and contributions of Hispanic Americans and Asian Americans Progressive Education and John Dewey explores the origins of progressive education the philosophies of John Dewey and other leading progressive educators and this movements ongoing influence in American classrooms The Third Editions topical organization lends itself to multiple uses in the classroom Each chapter provides the historical foundation for the study of a contemporary topic in education including the organization and structure of schools the philosophy of education early childhood education curriculum and instruction multicultural and

bilingual education and educational policy

Encyclopedia of the American Enlightenment Mark G.

Spencer, 2015-01-01 The first reference work on one of the key subjects in American history filling an important gap in the literature with over 500 original essays *The Secret American Destiny* Nicholas Hagger, 2016-11-15 In this final work of his American trilogy Nicholas Hagger focuses on the unified World State it is America's secret destiny to create and on the world's divided culture that impedes its creation Throughout world culture there are conflicting and entrenched metaphysical and secular approaches that permeate all its main disciplines including history philosophy and science literature and comparative religion In each discipline there is a tussle between the traditional religious view which is supported by the 4.6 billion of the world's 7.3 billion population that follow a religion and the secular and social approach associated with humanism and the scientific reductionism of Hawking and Dawkins which sees the universe as a random accident Hagger argues that it is America's secret destiny to bring in a democratic UN based partly federal World State that can unify humankind The conflict between metaphysical and secular approaches can be healed within a new reconciling philosophy that unites both outlooks Universalism which is already making an impact in the US The key to this reconciliation is focusing on the scientific view of the order in the universe and on the experience of the common essence which resides in all religions the belief in the ordering Light and on the traditional view of order in the seven disciplines of world culture This reconciliation can reunify each discipline and therefore world culture and create world unity Restoring the metaphysical vision of order in world culture can strengthen America's harmonizing of humankind within a World State based on political Universalism **Prestatehood Legal Materials** Michael Chiorazzi, Marguerite Most, 2013-05-13 Explore the controversial legal history of the formation of the United States Prestatehood Legal Materials is your one stop guide to the history and development of law in the U S and the change from territory to statehood Unprecedented in its coverage of territorial government this book identifies a wide range of available resources from each state to reveal the underlying legal principles that helped form the United States In this unique publication a state expert compiles each chapter using his or her own style culminating in a diverse sourcebook that is interesting as well as informative In Prestatehood Legal Materials you will find bibliographies references and discussion on a varied list of source materials including state codes drafted by Congress county state and national archives journals and digests state and federal reports citations surveys and studies books manuscripts papers speeches and theses town and city records and documents Web sites to help your search for more information and more Prestatehood Legal Materials provides you with brief overviews of state histories from colonization to acceptance into the United States In this book you will see how foreign countries controlled the laws of these territories and how these states eventually broke away to govern themselves The text also covers the legal issues with Native Americans interstate and the Mexico and Canadian borders and the development of the executive legislative and judicial branches of state government This guide focuses on materials that are readily available to historians political scientists legal scholars and

researchers Resources that assist in locating not so easily accessible materials are also covered Special sections focus on the legal resources of colonial New York City and Washington DC which is still technically in its prestatehood stage Due to the enormity of this project the editor of Prestatehood Legal Materials created a Web page where updates corrections additions and more will be posted **The ^AFounding Fathers and the Debate over Religion in Revolutionary America**

Matthew Harris,Thomas Kidd,2011-11-14 Whether America was founded as a Christian nation or as a secular republic is one of the most fiercely debated questions in American history Historians Matthew Harris and Thomas Kidd offer an authoritative examination of the essential documents needed to understand this debate The texts included in this volume writings and speeches from both well known and obscure early American thinkers show that religion played a prominent yet fractious role in the era of the American Revolution **Bolt Of Fate** Tom Tucker,2005-03-16 Was Benjamin Franklin s famous electric kite experiment a fraud And did it determine the course of the American Revolution

Historical Dictionary of Revolutionary America Terry M. Mays,2005-06-09 Not just about the grievances that led to war nor the actual war itself but more particularly the subsequent period of trial and error in which the thirteen states and those that followed were welded into the United States of America In addition to the over 1100 dictionary entries on significant people and political economic and social events of the era appendixes documenting the signers of the Declaration of Independence the Articles of Confederation and the Constitution as well as listing all the Presidents of Congress under the Articles of Confederation are included **The**

Secret History of the United States Peter Kross,2013-06-06 Everyone likes a good mystery be it based in fact or fiction The history of the United States is full of mysterious facts that are not taught in school and most people don t know the untold stories surrounding many historical events In The Secret History of the United States author Kross brings these little known stories to life The book details conspiracy theories throughout our history from the discovery of the continent to the founding of the nation to our modern day The book also tells the stories of unexplained events in our history as well as mysteries that have never been solved The events covered in the book range from the American Revolution the Civil War World War II the Cold War the assassinations of the 1960s the Iraq war and the events leading up to 9 11 Among the subjects covered are the following Was Christopher Columbus Jewish The plots to kidnap George Washington Who was Agent 355 John Wilkes Booth and the Confederate Secret Service the Lindberg baby kidnapping the plot to oust FDR Flight 19 Who killed JFK Nixon and the mob Watergate and the CIA Iran Contra and the intelligence failures that led up to 9 11 These stories are fascinating accounts of the underside of our hidden history that will amaze and inform the reader The

Inaugural Addresses of Twentieth-Century American Presidents Halford Ryan,1993-06-30 The essays in Halford Ryan s The Inaugural Addresses of Twentieth Century American Presidents explore how presidents have used their addresses to empower themselves in office The volume s construct holds that the president delivers persuasive speeches to move the Congress and the people and to move the people to move the Congress if it is intransigent Even on Inauguration Day a

largely ceremonial occasion the president seeks acquiescence and action from Congress and the people in his first rhetorical deed as the nation's chief executive officer Since scholars agree that the rhetorical presidency arose in the twentieth century with Theodore Roosevelt the book commences with Roosevelt's address followed by all subsequent presidents' inaugurals including that of Bill Clinton The authors' methodology applies classical rhetoric to the nexus of political discourse the interrelationships between the speaker the speech and the audience discussing *vox populi* *elocutio* *inventio* and *actio* Each of the chapters analyzes the political situation with regard to political purpose giving special attention to genre criticism and to the themes of campaign rhetoric that were or were not carried forth into the inaugural address The essayists explicate the evolution of each inaugural's preparation criticize its delivery and evaluate its persuasive strengths and weaknesses by accounting for its reception by the media and by the American people Recommended for scholars of political communication and rhetoric political science history and presidential studies *American History for Fun* Pasquale De Marco, 2025-07-27

American history is a vast and complex subject but it is also one that is fascinating and inspiring From the founding of the nation to the present day Americans have faced challenges and overcome adversity with courage determination and ingenuity This book is a journey through some of the most important events in American history We will explore the founding of the nation the American Revolution the Civil War and the Civil Rights Movement We will also examine the role of the United States in world affairs from the Spanish American War to the Cold War Along the way we will meet some of the most important figures in American history from George Washington to Abraham Lincoln to Martin Luther King Jr We will learn about their lives their accomplishments and their impact on the nation This book is not meant to be a comprehensive history of the United States Rather it is a collection of stories that shed light on the American experience We hope that you will find these stories as inspiring and informative as we do We believe that the study of history is essential for understanding the present and shaping the future By learning about the past we can better understand the challenges and opportunities that we face today We can also learn from the mistakes of the past and avoid repeating them We hope that this book will help you to appreciate the rich history of the United States and to understand the role that it has played in the world We also hope that it will inspire you to make a positive contribution to the future of our nation If you like this book write a review [Destination Collaboration 1](#) Lori M. Mazursky (Carter), Danielle N. Du Puis, 2010-12-20
