German Incertitudes, 1914-1945 Klemens von Klemperer, 2001-03-30 The history of modern Germany has all too readily been seen in terms of an historical process that inevitably led to the horrors of National Socialism As there are no certitudes in life however so there are none in German history In this book historian Klemens von Klemperer focuses on what he terms the German Incertitudes namely the tensions between a realistic acceptance of disenchantment with the modern world and an insistence upon reenchancement Exploring this tension through a critical assessment of the ideas and writings of major German thinkers von Klemperer seeks to account for both the achievements and the failings of German thought society and politics as responses to the challenge of modernity in the first half of the 20th century In addition to individuals such as Nietzsche Weber Spengler J nger Bonhoeffer and Heidegger the author considers broader movements and ideas such as the concept of Gemeinschaft and the German expressionists all in the wider context of Western intellectual currents Rather than belaboring presumed German deviance from the European norms von Klemperer explores the reasons why the sense of crisis in the face of modernity was singularly acute among Germans he traces a spectrum of reactions extending from an acceptance of modern disenchantment to the quest for reenchancement which found an extreme manifestation in National Socialism A Pilgrimage of Justice and Peace Fernando Enns, Nina Schroeder-van 't Schip, Andr s

The Fate of the Animals Morgan Meis,2022-09-15 In 1913 Franz Marc one of the key figures of German Expressionism created a masterpiece The Fate of the Animals With its violent slashes of color and line the painting seemed to pre figure both the outbreak of World War I and more eerily Marc s own death in an

artillery barrage at the Battle of Verdun three years later With his signature blend of wide ranging erudition and lively accessible prose Morgan Meis explores Marc's painting in depth guided in part by a series of letters Marc wrote to his wife Maria while he was a soldier in the war In those letters Marc explores the nature of art the fate of European civilization and the inner spiritual nature of all life Along the way Meis brings in other artists such as D H Lawrence Edgar Degas and Paul Klee to flesh out his argument The Fate of the Animals also explores the darker undercurrents of German apocalyptic thinking in Marc's time especially Norse mythology and the ancient Vedic texts as they influenced Schopenhauer Nietzsche and Heidegger The Fate of the Animals is the second volume of Meis's Three Paintings Trilogy the first volume of which The Drunken Silenus examined a painting by Rubens The third volume forthcoming will consider a painting by Joan Mitchell
