*A.C.I.: Painting, sculpture, works on paper, prints, contemporary media* Noelle Corboz, Cécile de Pebeyre, Marc Blondeau, Thierry Meaudre, 2009 Art Catalogue Index A C I aims

to provide a comprehensive list of all the catalogues raisonnés and reviews on artists born between 1780 and the postwar period. This first edition is focused on the so-called modern period. It starts with the birth of Jean Auguste Dominique Ingres in 1780 in Montauban who competed for the Prix de Rome in 1800 with his contemporaries; he therefore both witnessed and took part in this turning point in time which opened the gates of the modern period and which led up to today and contemporary art. Published with BFA/Geneva and Thierry Meaudre/Paris. English text. **Dictionary of Artists: Maele - Müller** Emmanuel Bénézit, 2006. First English language edition of Emmanuel Bénézit's Dictionnaire critique et documentaire des peintres, sculpteurs, dessinateurs et graveurs based on the 14-volume French edition published in 1999. It has been revised, adapted and updated. Preface. The Visual Arts in Germany, 1890-1937 Shearer West, 2000. This work provides an introduction to the visual arts in Germany from the early years of German unification to World War II. The study is an analysis of painting, sculpture, graphic art, design, film and photography in relation to a wider set of cultural and social issues that were specific to German modernism. It concentrates on the ways in which the production and reception of art interacted with and was affected by responses to unification, conflict between left and right political factions, gender concerns, contemporary philosophical and religious ideas, the growth of cities and the increasing importance of mass culture. **The Fate of the Animals** Morgan Meis, 2022-09-15. In 1913 Franz Marc, one of the key figures of German Expressionism, created a masterpiece, *The Fate of the Animals*. With its violent slashes of color and line, the painting seemed to prefigure both the outbreak of World War I and more eerily, Marc's own death in an artillery barrage at the Battle of Verdun three years later. With his signature blend of wide-ranging erudition and lively accessible prose, Morgan Meis explores Marc's painting in depth, guided in part by a series of letters Marc wrote to his wife Maria while he was a soldier in the war. In those letters, Marc explores the nature of art, the fate of European civilization and the inner spiritual nature of all life. Along the way, Meis brings in other artists such as D. H. Lawrence, Edgar Degas and Paul Klee to flesh out his argument. *The Fate of the Animals* also explores the darker undercurrents of German apocalyptic thinking in Marc's time, especially Norse mythology and the ancient Vedic texts as they influenced Schopenhauer, Nietzsche and Heidegger. *The Fate of the Animals* is the second volume of Meis's *Three Paintings Trilogy*, the first volume of which, *The Drunken Silenus*, examined a painting by Rubens. The third volume, forthcoming, will consider a painting by Joan Mitchell. Expressionism Ashley Bassie, 2023-12-28. Max Beckmann, Otto Dix, George Grosz, Emil Nolde, E. L. Kirchner, Paul Klee, Franz Marc, as well as the Austrians Oskar Kokoschka and Egon Schiele, were among the generation of highly individual artists who contributed to the vivid and often controversial new movement in early twentieth-century Germany and Austria: Expressionism. This publication introduces these artists and their work. The author, art historian Ashley Bassie, explains how Expressionist art led the way to a new, intense, evocative treatment of psychological, emotional and social themes in the early twentieth century. The book examines the developments of Expressionism and its key works, highlighting the often intensely subjective imagery and the aspirations and conflicts from

which it emerged while focusing precisely on the artists of the movement      Acrobatic Modernism from the Avant-Garde to Prehistory Jed Rasula, 2020-02-27 This is a book about artistic modernism contending with the historical transfigurations of modernity As a conscientious engagement with modernity's restructuring of the lifeworld the modernist avant garde raised the stakes of this engagement to programmatic explicitness But even beyond the vanguard the global phenomenon of jazz combined somatic assault with sensory tutelage Jazz like the new technologies of modernity re calibrated sensory ratios The criterion of the new as self making also extended to names pseudonyms and heteronyms The protocols of modernism solicited a pragmatic arousal of bodily sensation as artistic resource validating an acrobatic sensibility ranging from slapstick and laughter to the pathos of bereavement Expressivity trumped representation The artwork was a diagram of perception not a mimetic rendering For artists the historical pressures of altered perception provoked new models and Ezra Pound's slogan Make It New became the generic rallying cry of renovation The paradigmatic stance of the avant garde was established by Futurism but the discovery of prehistoric art added another provocation to artists Paleolithic caves validated the spirit of all over composition unframed and dynamic Geometric abstraction Constructivism and Purism and Surrealism were all in quest of a new mythology Making it new yielded a new pathos in the sensation of radical discrepancy between futurist striving and remotest antiquity The Paleolithic cave and the USSR emitted comparable siren calls on behalf of the remote past and the desired future As such the present was suffused with the pathos of being neither but subject to both
