Fraser Gold 1858 The Founding Of British Columbia:

Fraser Gold 1858! Netta Sterne,1998 The year 1858 proved to be the most eventful in western Canada as waves of American miners made their way to the Fraser River country joining hundreds of Indians Vancouver Island colonists and former fur trade employees in the gold fields The newcomers were some of the earliest pioneers of British Columbia

Inlands Robert S. G. Fletcher,Alec Zuercher Reichardt,2024-12-31 Conventional narratives of empires and globalization focus on oceans and coasts supposing that global connections are seaborne and that historical change proceeds inward from port cities into continental expanses This book offers a new perspective examining key inland areas around the world to show how interior regions have shaped global history *Inlands* brings together an interdisciplinary group of experts to explore the modern histories of inland regions across North and South America Africa Eurasia and Australasia from the American heartland to the Yangzi valley the Great Dismal Swamp to the Arabian Desert Together they argue that interior

regions provide a fresh vantage point from which to rethink the history of global connection and disconnection Each chapter reconsiders national regional or imperial histories from an inland perspective demonstrating how such places have spurred global change Contributors reveal the critical role inlands and their Indigenous inhabitants have played in the development projection and contestation of state power showing how some interiors became essential to empire even as others developed in resistance to it By examining the struggle to integrate inland regions into wider networks of exchange this book also sheds light on the unevenness and the limits of contemporary globalization A new global history of interior spaces Inlands presents a bold challenge to dominant understandings of the making of today s connected world *History of British Columbia*

Archive of Place weaves together a series of narratives about environmental history in a particular location British Columbia s Chilcotin Plateau In the mid 1990s the Chilcotin was at the centre of three territorial conflicts Opposing groups in their struggle to control the fate of the region and its resources invoked different understandings of its past and different types of evidence to justify their actions These controversies serve as case studies as William Turkel examines how people interpret material traces to reconstruct past events the conditions under which such interpretation takes place and the role that this interpretation plays in historical consciousness and social memory It is a wide ranging and original study that extends the span of conventional historical research **British Columbia and Yukon Gold Hunters** Donald E. Waite, 2015 A look at

the 19th century gold rushes in British Columbia and the Yukon Includes archival photographs and hand drawn maps

Parallel Destinies John M. Findlay,Kenneth S. Coates,2011-10-01 The Canadian West and the American Northwest offer a valuable setting for considering issues of borders and borderlands The regions contain certain similarities and during the first half of the nineteenth century they were even grouped together as a distinct political and economic unit called the Oregon Country by Americans and the Columbia Department of the Hudson s Bay Company by the British The essays in this volume which grew out of a conference commemorating the Oregon Treaty of 1846 view the boundary between Canada and the United States as a dividing line and also as a regional backbone with people on each side of the border having key experiences and attitudes in common In their eloquence and scope they illustrate how historical study of Canadian American relations in the West calls into question the parameters of the nation state The border has not had a single constant meaning rather its significance has changed over time and varied from group to group The essays in Part One concern the movement

of peoples and capital across a relatively permeable boundary during the nineteenth century Many people in this era especially Natives miners immigrants and capitalists did not regard the international boundary as particularly important Part Two considers how the United States and Canada took pains to strengthen and enforce the international boundary during the twentieth century In this era the nation state became more assertive about defining and defending the borderline Part Three offers considerations of the distinctions both real and imagined that emerged during the nineteenth and twentieth centuries between Canada and the United States Its essays examine different schools of history divergent ideas toward wilderness and the influence of anti Americanism on Canadians view of national development in North America *Select Documents in Canadian Economic History 1783-1885* Harold A. Innis, Arthur Lower, 1933-12-15 This second volume of economic documents resumes the story of the development of Canada as told by contemporary sources Newspaper accounts of economic forces and factors contemporary writings by statesmen and business men poems depicting current situations official documents all have been included The volume divides the period into two eras 1783 1850 and 1850 85 The basis of classification of entries is by topics and geographic sections It is hoped that the material which follows will amplify and illustrate the blend of materialistic and non materialistic factors which has determined the nature of Canadian history and will allow students in Canadian universities to study with some degree of fullness the development of the economic institutions of their native land

At the Bridge Wendy Wickwire, 2019-06-10 At the Bridge chronicles the little known story of James Teit a prolific ethnographer who from 1884 to 1922 worked with and advocated for the Indigenous peoples of British Columbia and the northwestern United States From his base at Spences Bridge BC Teit forged a participant based anthropology that was far ahead of its time Whereas his contemporaries including famed anthropologist Franz Boas studied Indigenous peoples as members of dying cultures Teit worked with them as members of living cultures resisting colonial influence over their lives and lands Whether recording stories mapping place names or participating in the chiefs fight for fair treatment he made their objectives his own With his allies he produced copious meticulous records an army of anthropologists could not have achieved a fraction of what he achieved in his short life Wickwire s beautifully crafted narrative accords Teit the status he deserves consolidating his place as a leading and innovative anthropologist in his own right **From Denmark to the Cariboo** Linda Peterat, 2022-11-02 A captivating account of the lives of Laura Christine and Caroline Lindhard three sisters who left their home in Stege Denmark in 1870 due to war political turmoil and limited opportunities and sought out new lives in the Cariboo region of British Columbia There are few stories of entrepreneurial business class women in nineteenth century BC They didn t keep diaries or save letters like the ruling class women often did and they were usually overlooked in newspaper reports Yet many came into British Columbia in the early years of the gold rush and helped build and sustain the developing communities This book tells the stories of three sisters Laura Christine and Caroline Lindhard who arrived in BC from Denmark in the 1870s Coming of age in Europe the Lindhard sisters had aspirations that were restricted by societal

norms about what women could and should be and do This is a story of how each of the sisters made a life for themselves marrying and having children becoming single parents at an early age marrying again or not working together providing for their children and making choices that set them on different paths While their lives diverged at various points their commitments to each other and the next generation remained strong The sisters stories illustrate the importance of family and community relationships as support structures for women entrepreneurs who combine family responsibilities with earning a living While they were not heroic in the traditional patriarchal sense of the word the Lindhard sisters were powerful influential members of their families and their community and their lives reveal much about the complex social fabric of early British Columbia and the unsung contributions of women
