Fray Bernardino De Sahagun:

Bernardino de Sahagun Miguel Leon-Portilla, 2012-09-13 He was sent from Spain on a religious crusade to Mexico to detect the sickness of idolatry but Bernardino de Sahagun c 1499-1590 instead became the first anthropologist of the New World The Franciscan monk developed a deep appreciation for Aztec culture and the Nahuatl language In this biography Miguel Leon Portilla presents the life story of a fascinating man who came to Mexico intent on changing the traditions and cultures he encountered but instead ended up working to preserve them even at the cost of persecution Sahagun was responsible for documenting numerous ancient texts and other native testimonies He persevered in his efforts to study the native Aztecs until he had developed his own research methodology becoming a pioneer of anthropology Sahagun formed a school of Nahuatl scribes and labored with them for more than sixty years to transcribe the pre-conquest language and culture of the Nahuas His rich legacy our most comprehensive account of the Aztecs is contained in his *Primeros Memoriales* 1561 and *Historia General de las Cosas de Nueva España* 1577 Near the end of his life at age 91 Sahagun became so protective of the Aztecs that when he died his former Indian students and many others felt deeply affected Translated into English by Mauricio J Mixco Leon Portilla's absorbing account presents Sahagun as a complex individual a man of his times yet a pioneer in many ways *Fray Bernardino de Sahagún, 1499-1590* Lluís Nicolau d'Olwer, 1952 **Fray Bernardino de Sahagún** William Donley Glasscock, 1949 **Fray Bernardino de Sahagun and the Great Florentine Codex** Edgar Lee Hewett, 1944 *Florentine Codex. Missionary Linguistics V / Lingüística Misionera V Otto Zwartjes, Klaus Zimmermann, Martina

Schrader-Kniffki, 2014-04-15 The object of this volume is the study of missionary translation practices which occur within a colonial context of political domination and spiritual conquest Missionary translation becomes especially manifest in bilingual ethnographic descriptions in bilingual catechisms and in the missionaries lexicographic condensation of bilingual dictionaries The study of these instances permits the analysis and interpretation of their guiding principles their translation practice and underlying reasoning It also permits the modern linguist to discern semantic changes that can be revealed in these missionary translations over certain periods Up to now there has hardly been any study available that focuses on translation in missionary sources of the different traditions in the Americas or Asia This book will fill this gap addressing the legacy of missionary translation practices and theories the role of translation in evangelization and its particular form in the context of colonialism the creation of loans from Spanish or Latin or equivalents or paraphrases in the indigenous languages in texts and dictionaries as translation strategies followed in bilingual editions The process of acculturation and transculturation imposed by European religious systems is noted This volume presents research on languages such as Nahuatl Tarascan Purpecha Zapotec Tamil Chinese Japanese Pangasinan and other Austronesian languages from the Philippines **The Alchemy**

of Conquest Ralph Bauer, 2019-10-08 The Age of the Discovery of the Americas was concurrent with the Age of Discovery in science In *The Alchemy of Conquest* Ralph Bauer explores the historical relationship between the two focusing on the connections between religion and science in the Spanish English and French literatures about the Americas during the early modern period As sailors conquerors travelers and missionaries were exploring new worlds and claiming ownership of them early modern men of science redefined what it means to discover something Bauer explores the role that the verbal conceptual and visual language of alchemy played in the literature of the discovery of the Americas and in the rise of an early

modern paradigm of discovery in both science and international law The book traces the intellectual and spiritual legacies of late medieval alchemists such as Roger Bacon Arnald of Villanova and Ramon Llull in the early modern literature of the conquest of America in texts written by authors such as Christopher Columbus Amerigo Vespucci Jos de Acosta Nicol s Monardes Walter Raleigh Thomas Harriot Francis Bacon and Alexander von Humboldt Multilingualism in the Middle Ages and Early Modern Age Albrecht Classen,2016-09-12 Bi and multilingualism are of great interest for contemporary linguists since this phenomenon deeply reflects on language acquisition language use and sociolinguistic conditions in many different circumstances all over the world Multilingualism was however certainly rather common already if not especially in the premodern world For some time now research has started to explore this issue through a number of specialized studies The present volume continues with the investigation of multilingualism through a collection of case studies focusing on important examples in medieval and early modern societies that is in linguistic and cultural contact zones such as England Spain the Holy Land but also the New World As all contributors confirm the numerous cases of multilingualism discussed here indicate strongly that the premodern period knew considerably less barriers between people of different social classes cultural background and religious orientation But we also have to acknowledge that already then human communication could fail because of linguistic hurdles which prevented mutual understanding in religious and cultural terms **The Tame and the Wild** Marcy Norton,2024-01-09 Marcy Norton tells a new history of the European colonization of the Americas one that places wildlife and livestock at the center of the story She reveals that it was above all the encounters between European and Native American beliefs about animal life that transformed societies on both sides of the Atlantic **Aztecs** Inga Clendinnen,2014-05-15 Recreates the culture of the city of Tenochtitlan in its last unthreatened years before it fell to the Spaniards
