Natural Chelsea Mary Elise Johnson,2024-10-15 How Black women celebrate their natural hair and uproot racialized beauty standards Hair is not simply a biological feature it s a canvas for expression Hair can be cut colored dyed covered gelled waxed plucked lasered dreadlocked braided and relaxed Yet its significance extends beyond mere aesthetics Hair can carry profound moral spiritual and cultural connotations serving as a reflection of one s beliefs heritage and even political stance In Natural Chelsea Mary Elise Johnson delves into the complex world surrounding Black women s hair and offers a firsthand look into the kitchens beauty shops conventions and blogs that make up the twenty first century natural hair movement the latest evolution in Black beauty politics Johnson shares her own hair story and amplifies the voices of women across the globe who after years of chemically relaxing their hair return to a natural style Johnson describes how many women initially transition to natural hair out of curiosity or as a wellness practice but come to view their choice as political upon confronting personal insecurities and social stigma both within and outside of the Black community She also investigates natural hair entrepreneurs who use their knowledge to create lucrative and socially transformative haircare

ventures Distinct from a politics of respectability or Afrocentricity Johnson's argument is that today's natural hair movement advances a politics of authenticity. She offers going natural as a practice of self-love and acceptance a critique of exclusionary economic arrangements and an exploitative beauty industry and an act of anti-racist political resistance. Natural powerfully illustrates how the natural hair movement is part of a larger social change among Black women to assert their own purchasing power standards of beauty and bodily autonomy. **Billboard**, 1997-01-18 In its 114th year Billboard remains the world's premier weekly music publication and a diverse digital events brand content and data licensing platform.
