**Exploring the Cultural History of Continental European Freak Shows and 'Enfreakment'** Anna Kérchy, 2013-02-14 This collection offers cultural historical analyses of enfreakment and freak shows examining the social construction and spectacular display of wondrous monstrous or curious Otherness in the formerly relatively neglected region of Continental Europe Forgotten stories are uncovered about freak show celebrities medical specimen and philosophical fantasies presenting the anatomically unusual in a wide range of sites including curiosity cabinets anatomical museums and traveling circus acts The essays explore the locally specific dimensions of the exhibition of extraordinary bodies within their particular historical cultural and political context Thus the impact of the Nazi eugenics programs state Socialism or the Chernobyl catastrophe is observed closely and yet the transnational dimensions of enfreakment are made obvious through topics ranging from Jesuit missionaries diabolization of American Indians to translations of Continental European teratology in British medical journals and the Hollywood silver screen's colonization of European fantasies about deformity Although Continental European freaks are introduced as products of ideologically infiltrated representations they also emerge as embodied subjects endowed with their own voice view and subversive agency

Disability and Art History Ann Millett-Gallant, Elizabeth Howie, 2016-10-26 This is the first book of its kind to feature interdisciplinary art history and disability studies scholarship Art historians have traditionally written about images of figures with impairments and artworks by disabled artists without integrating disability studies scholarship while many disability studies scholars discuss works of art but do not necessarily incorporate art historical research and methodology The chapters in this volume emphasize a shift away from the medical model of disability that is often scrutinized in art history by considering the social model and representations of disabled figures from a range of styles and periods mostly from the twentieth century Topics addressed include visible versus invisible impairments scientific anthropological and vernacular images of disability and the theories and implications of looking staring versus gazing They also explore ways in which art responds to envisions and at times stereotypes and pathologizes disability The insights offered in this book contextualize understanding of disability historically as well as in terms of medicine literature and visual culture

politics and sexuality Transgressive Bodies engages with contemporary cultural debates always relating these to concrete studies of media and cultural representations This book will therefore appeal to scholars across a range of disciplines including media and film studies cultural studies gender studies sociology sports studies and cultural theory The Female Grotesque Mary Russo,2012-11-12 The grotesque the exaggerated the deformed the monstrous has been a well considered subject for students of comparative literature and art In a major addition to the literature of art cultural criticism and feminist studies Mary Russo re examines the grotesque in the light of gender exploring the works of Angela Carter David Cronenberg Bakhtin Kristeva Freud Zizek Mary Russo looks at the portrayal of the grotesque in Western culture and by combining the iconographic and the historical locates the role of the woman s body in the discourse of the grotesque

**Freak Show Legacies** Gary S. Cross,2021-05-06 Society has long been fascinated with the freakish shocking and strange In this book Gary Cross shows how freakish elements have been embedded in modern popular culture over the course of the 20th century despite the evident disenchantment with this once widespread cultural outlet Exploring how the spectacle of freakishness conflicted with genteel culture he shows how the condemnation of the freak show by middle class America led to a transformation and merging of genteel and freak culture through the cute the camp and the creepy Though the carnival and circus freak was marginalised by the 1960s and had largely disappeared by the 1980s forms of freakish culture survived and today appear in reality TV horror movies dark comedies and the popularity of tattoos **Freak Show Legacies** will focus less on the individual freak as the other in society and more on the audience for the freakish and the transformation of wonder sensibility and sensitivity that this phenomenon entailed It will use the phenomenon of the freak to understand the transformation of American popular culture across the 20th century identify elements of the freak in popular culture both past and present and ask how it has prevailed despite its apparent unpopularity *Pleasure of Fools* Jure Gantar,2005 Men cannot laugh heartily without showing their teeth quipped Samuel Butler From St Paul to Descartes to Adorno scholars and writers have questioned the ethics of laughter any laughter In *The Pleasure of Fools* Jure Gantar wrestles with our moral right to laugh and the limitations of contemporary critical approaches The crucial question is not whether or not there is offensive laughter but whether or not all laughter offends Almost everyone has felt the bitter stab of malicious laughter and knows that laughter can be cruel but it is more difficult to decide if there is also laughter that can never insult Through a reading of Aristophanes Rabelais Moli re Fielding and Rostand Victorian nonsense poetry and the philosophical texts of Plato Dante and More Gantar explores the reasons for critics prejudice against comedy the specific position of laughter in various utopian societies and self deprecating laughter and role of the comedian as its primary producer His conclusions contradict basic postmodern thought and contribute to current debates on the epistemological nature of criticism **Operation Freak** Christian Flaugh,2012 A groundbreaking analysis of the operations to bodies and narratives that inform and form Francophone literature **The Horror Reader** Ken Gelder,2000 This study brings together
