Freddrik In Norwegian:

Norwegian American Saga Lorraine J Robinson, 2012-04-03 Faith, Fatherland and the Norwegian Seaman Virginia Hoel, 2016 *The A to Z of Norway* Jan Sjøvik, 2010-05-11 One of the smallest countries in Europe Norway has created for itself a position in the world community which is completely out of proportion to the size of its population Originally the home of sub Arctic hunters and gatherers then of ferocious Vikings it lost perhaps half of its population to the Black Death in 1349 ended up in a union with Denmark that lasted until 1814 and then became united with Sweden gaining complete independence only as recently as 1905 Over the centuries the Norwegians eked out a meager living from stony fields and treacherous seas while suffering through hunger darkness and cold however its recent productive use of such natural resources as hydroelectric power natural gas and oil has made the Norwegians some of the richest people in the world The A to Z of Norway supplies a wealth of information that illuminates Norway's remarkable history society and culture This is done through a chronology a bibliography an introductory essay appendixes and over 250 cross referenced dictionary entries covering events and individuals of historical political social and cultural significance Both past and present political parties are discussed major economic sectors are described and basic economic facts are provided Several entries describe the history and attractions of major Norwegian cities and Norway's role in the international community is detailed as well providing a full portrait of this vibrant country Scandinavian Books, Danish--Norwegian--Swedish Chicago Public Library, 1929 **The Norwegian-American Lutheran Experience in 1950s Japan** Kate Allen, John E. Ingulsrud, 2015-12-15 Stepping Up to the Cold War Challenge The Norwegian American Lutheran Experience in 1950s Japan describes the events that led to the Evangelical Lutheran Church ELC an American Christian denomination to respond to General MacArthur's call for missionaries This Church did not initially respond but did so in 1949 only after their missionaries had been expelled from China due to the victory of communist forces on the mainland Because they feared Japan would also succumb to communism in less than ten years the missionaries evaded ecumenical cooperation and social welfare projects to focus on evangelism and establishing congregations Many of the ELC missionaries were children and grandchildren of Norwegian immigrants who had settled as farmers on the North American Great Plains Based on interview transcripts and other primary sources this book intimately describes the personal struggles of individuals responding to the call to be a missionary adjusting to life in Japan learning Japanese raising a family and engaging in mission work As the Cold War threat diminished and independence movements elsewhere were ending colonialism missionaries were compelled to change methods and attitudes The 1950s was a time when missionaries went out much in the same manner that they did in the nineteenth century Through the voices of the missionaries and their Japanese coworkers the book documents how many of the traditional missionary assumptions begin to be questioned **Bordering** Anders Linde-Laursen, 2016-04-15 What is a border This seemingly simple question is here answered via a multidisciplinary study of the cultural geographic and historic

existence of borders and the ways that they have shaped our world Using the Danish Swedish border to illustrate the actions of groups and individuals engaged in bordering since the 1600s this richly theoretical discussion highlights the complexities of political and cultural identity processes Comparative perspectives are brought together to produce a thoughtful analysis of how such processes function and of how borders work on both an imagined nationhood and experiential personal level The author also examines how throughout history people have lived with and influenced or been influenced by borders why some borders remain uncontested while others repeatedly provoke cross border conflicts and how today s bordering processes may be deliberately manipulated *IB World Schools Yearbook 2011* Wendy Bosberry-Scott,2011 This yearbook is the official

Lindgren,2015-12-08 The Scandinavian countries today form a security community for economic cooperation and the settlement of international controversy by peaceful methods rather than by war This status was achieved not while Norway and Sweden were amalgamated in a political union from 1814 to 1905 but only after separation In this book Dr Lindgren analyzes some of the forces underlying the failure and dissolution of the Norway Sweden union Originally published in 1959 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **The Baltic Story** Caroline Boggis-Rolfe,2019-04-15 The Baltic Story recounts the shared history of the countries around the Baltic from the events of a thousand years ago to the present day

Reconsidering Constitutional Formation I National Sovereignty Ulrike Müßig,2016-08-18 This open access book can be downloaded from link springer com Legal studies and consequently legal history focus on constitutional documents believing in a nominalist autonomy of constitutional semantics Reconsidering Constitutional Formation in the late 18th and 19th century kept historic constitutions from being simply log books for political experts through a functional approach to the interdependencies between constitution and public discourse Sovereignty had to be believed by the subjects and the political elites Such a communicative orientation of constitutional processes became palpable in the religious affinities of the constitutional preambles They were held as creeds of a new order not only due to their occasional recourse to divine authority but rather due to the claim for eternal validity contexts of constitutional guarantees The communication

dependency of constitutions was of less concern in terms of the preamble than the constituents big worries about government organisation Their indecisiveness between monarchical and popular sovereignty was established through the discrediting of the Republic in the Jacobean reign of terror and the renaissance of the monarchy in the military resistance against the French revolutionary and later Napoleonic campaigns The constitutional formation as a legal act of constituting could therefore defend the monarchy from the threat of the people Albertine Statute 1848 could be a legal decision of a national constituent assembly Belgian Constitution 1831 could borrow from the old liberties Polish May Constitution 1791 or try to remain in between by referring to the Nation as sovereign French September Constitution 1791 C diz Constitution 1812 Common to all contexts is the use of national sovereignty as a legal starting point The consequent differentiation between constituent and constituted power manages to justify the self commitment of political power in legal terms National sovereignty is the synonym for the juridification of sovereignty by means of the constitution The novelty of the constitutions of the late 18th and 19th century is the normativity the positivity of the constitutional law as one unified law to be the measure for the legality of all other law Therefore ReConFort will continue with the precedence of constitution [www reconfort eu](http://www.reconfort.eu) *The First Chapter of Norwegian Immigration (1821-1840)* Rasmus Bjørn Anderson, 1906 Estate Landscapes in Northern Europe Signe Boeskov, Jonathan Finch, Mikael Frausing, 2019-07-01 Estate Landscapes in Northern Europe is the first study of the role of the landed estate as an agent in the shaping of landscapes and societies across northern Europe over the past five centuries Leading us into the fascinating variations of manorial worlds the present volume seeks to open the field to include a broader perspective on estate landscapes Estate or manorial landscapes were distinctive elements within the historic landscape and created their own character Marked by larger scale fields associated with the home or demesne farm as well as a higher proportion of woodland and timber trees the landscapes reflected the scale of the resources available to the landowner and the control they exerted over the local communities But they also represented the performative aspects of life for the elite such as their engagement with hunting While existing works have tended to emphasize the economic and agricultural aspect of estate landscapes this volume draws out the social cultural and political impact of manors and estates on landscapes throughout northern Europe The chapters provide insights into a broad range of histories such as the social worlds of burghers and nobility in the Dutch Republic or the relationship between the distribution of land and the agitation for electoral reform in nineteenth century England Elsewhere in Scandinavia the impact of the reformation and conquest in Norway is balanced against the continuity of ownership in Sweden where developing the natural resources for industrial enterprise such as ironworks and sawmills brought in new owners Estate Landscapes in Northern Europe is the first product of the collaboration of researchers from Norway Germany Sweden the United Kingdom Denmark and the Netherlands joined together in the European Network for Country House and Estate Research ENCOUNTER

Historical Dictionary of Norway Terje Leiren, Jan Sjøvik, 2019-10-08 Norway has a thousand year history from the Vikings

750 1100 to modern times Historically a poor country on Europe's periphery its natural resources and hardy people have established a successful modern welfare state Norway has exploited its natural resources of fish water oil and gas to become one of Europe's most successful small states This second edition of I contains a chronology an introduction and an extensive bibliography The dictionary section has over 300 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Norway *Lloyd's Register of Shipping 1892 Sailing Vessels* Lloyd's Register Foundation, 1892-01-01 The Lloyd's Register of Shipping records the details of merchant vessels over 100 gross tonnes which are self propelled and sea going regardless of classification Before the time only those vessels classed by Lloyd's Register were listed Vessels are listed alphabetically by their current name **Lloyd's Register of British and Foreign Shipping**, 1894 **Denmark, 1513-1660** Paul Douglas Lockhart, 2007-08-23 One of the largest states in Europe and the greatest of the Protestant powers Denmark in the sixteenth and seventeenth centuries was at the height of its influence Embracing Norway Iceland portions of southern Sweden and northern Germany the Danish monarchy dominated the vital Baltic trade However its geopolitical importance far exceeded its modest resources Paul Douglas Lockhart examines the short and perhaps unlikely career of Denmark as the major power of northern Europe exploring its rise to the forefront of European affairs and its subsequent decline in fortunes following its disastrous involvement in the Thirty Years War Using the latest research from Danish and other Scandinavian scholars Lockhart focuses on key issues from the dynamic role of the Oldenburg monarchy in bringing about Denmark's European integration to the impact of the Protestant Reformation on Danish culture The multi national character of the Danish monarchy is explored in depth in particular how the Oldenburg kings of Denmark sought to establish their authority over their sizable and oftentimes contentious Norwegian Icelandic and German minorities Denmark's participation in international politics and commerce is also investigated along with the power struggle between Denmark and its rival Sweden over Baltic dominion and the Danes unique approach to internal governance
