Frederic Remington A Catalogue Raisonne

G Thomas

Frederic Remington A Catalogue Raisonne:

Frederic Remington Peter H. Hassrick, 2016-05-31 One of America's most popular and influential American artists Frederic Remington 1861-1909 is renowned for his depictions of the Old West Through paintings, drawings and sculptures he immortalized a dynamic world of cowboys and American Indians, hunters and horses, landscapes and wildlife Frederic Remington A Catalogue Raisonné II is a comprehensive presentation of the artist's body of flat work both in print and on this book's companion website Beautifully illustrated with more than 150 figures and 100 color plates, this book offers insightful essays by notable art historians who explore Remington's experiences in Taos, New Mexico and other parts of the West The chapters include analyses of Remington's artistic development from an illustrator to a fine art painter, his search for and understanding of men with the bark on his relationship with the famed illustrator Howard Pyle and the shared imagery of Remington and Buffalo Bill Cody A chapter considering Remington's enduring bond with the horse and its representation in his paintings follows an examination of Remington's ties to Theodore Roosevelt that reveals how the two men helped move the American conscience toward wildlife preservation An assessment of the authentication process for evaluating Remington's works opens the collection Remington is perhaps the most frequently faked American artist The book features a unique keycode granting access to a companion website that brings together more than 3,000 reproductions of the artist's flat works including the complete original 1996 edition of the Catalogue Raisonné and nearly 300 previously unknown or relocated pieces Each entry includes the title, date, medium, size, inscriptions, provenance and exhibition and publication history of the work as well as select commentary The online catalogue is fully searchable and will be continuously updated as new information becomes available Based on decades of scholarship and research, the revised Remington Catalogue Raisonné is an essential resource for scholars, collectors, museum curators, historians of the American West and anyone seeking definitive information on the art of Frederic Remington Frederic Remington A Catalogue Raisonné II is published in cooperation with the Buffalo Bill Center of the West, Cody, Wyoming *Frederic Remington* Peter H. Hassrick, Melissa J. Webster, 1996

Peter H. Hassrick, 1996 Frederic Remington Peter H. Hassrick, 1996 Indians Illustrated John M. Coward, 2016-06-30

After 1850 Americans swarmed to take in a raft of new illustrated journals and papers Engravings and drawings of buckskinned braves and Indian princesses proved an immensely popular attraction for consumers of publications like Frank Leslie's Illustrated Newspaper and Harper's Weekly In *Indians Illustrated* John M. Coward charts a social and cultural history of Native American illustrations romantic, violent, racist, peaceful and otherwise in the heyday of the American pictorial press These woodblock engravings and ink drawings placed Native Americans into categories that drew from venerable good

Indian and bad Indian stereotypes already threaded through the culture Coward's examples show how the genre cemented white ideas about how Indians should look and behave ideas that diminished Native Americans cultural values and political influence His powerful analysis of themes and visual tropes unlocks the racial codes and visual cues that whites used to represent and marginalize native cultures already engaged in a twilight struggle against inexorable westward expansion

The Grove Encyclopedia of American Art Joan M. Marter, 2011 Arranged in alphabetical order these 5 volumes encompass the history of the cultural development of America with over 2300 entries **Remington** Frederic Remington, 2012-05-08 It is impossible to reflect upon Frederic Remington's art without thinking of the merely human elements Remington became interested in the American Indian probably because he became interested in the active exciting life of the American Great Plains The Indian appealed to him not in any histrionic way not as a figure stepped out from the pages of Hiawatha but just as a human subject Remington hit upon this truth when he travelled west What he found there was majesty that he did not make solely an affair of Indians in war paint and feathers Remington knew how the light of the moon or of the stars is diffused how softly and magically it envelops the landscape There is a sort of artistic honesty in his nocturnal studies He never set out to be romantic or melodramatic just to develop his affinity and closeness to nature The beauty of the painter's motive too has communicated itself in his technique His grey green tones fading into velvety depths take on transparency and in his handling of form he uses a touch as firm as need be The determining influence in his career was that of the creative impulse urging him to deal in the translation of visible things into pictorial terms **Western Art, Western History** Ron Tyler, 2019-03-07 For nearly half a century celebrated historian Ron Tyler has researched interpreted and exhibited western American art This splendid volume gleaned from Tyler's extensive career of connoisseurship brings together eight of the author's most notable essays reworked especially for this volume Beautifully illustrated with more than 150 images Western Art Western History tells the stories of key artists both famous and obscure whose provocative pictures document the people and places of the nineteenth century American West The artists depicted in these pages represent a variety of personalities and artistic styles According to Tyler each of them responded in unique ways to the compelling and exotic drama that unfolded in the West during the nineteenth century an age of exploration surveying pleasure travel and scientific discovery In eloquent and engaging prose Tyler unveils a fascinating cast of characters including the little known German Russian artist Louis Choris who served as a draftsman on the second Russian circumnavigation of the globe the exacting and precise Swiss artist Karl Bodmer who accompanied Prince Maximilian of Wied on his sojourn up the Missouri River and the young American Alfred Jacob Miller whose seemingly frivolous and romantic depictions of western mountain men and American Indians remained largely unknown until the mid twentieth century Other artists showcased in this volume are John James Audubon George Caleb Bingham Alfred E Mathews and finally Frederic Remington who famously sought to capture the last glimmers of the old frontier A common thread throughout Western Art Western History is the important role

that technology especially the development of lithography played in the dissemination of images As the author emphasizes many works by western artists are valuable not only as illustrations but as scientific documents imbued with cultural meaning By placing works of western art within these broader contexts Tyler enhances our understanding of their history and significance

A Companion to the Literature and Culture of the American West Nicolas S. Witschi, 2014-02-03 A Companion to the Literature and Culture of the American West presents a series of essays that explore the historic and contemporary cultural expressions rooted in America's western states Offers a comprehensive approach to the wide range of cultural expressions originating in the west Focuses on the intersections complexities and challenges found within and between the different historical and cultural groups that define the west's various distinctive regions Addresses traditionally familiar icons and ideas about the west such as cowboys wide open spaces and violence and their intersections with urbanization and other regional complexities Features essays written by many of the leading scholars in western American cultural studies

Scouting with the Buffalo Soldiers John P. Langellier, 2020-10-15 On a hot summer's day in Montana a daring frontier cavalry officer Powhatan Henry Clarke died at the height of his promising career A member of the U S Military Academy's Class of 1884 Clarke graduated dead last and while short on academic application he was long on charm and bravado Clarke obtained a commission with the black troops of the Tenth Cavalry earning his spurs with these Buffalo Soldiers He evolved into a fearless field commander at the troop level gaining glory and first hand knowledge of what it took to campaign in the West During his brief action packed career Clarke saved a black trooper's life while under Apache fire and was awarded the Medal of Honor A chance meeting brought Clarke together with artist Frederic Remington who brought national attention to Clarke when he illustrated the exploit for an 1886 Harper's Weekly The officer and artist became friends and Clarke served as a model and consultant for future artwork by Remington Remington's many depictions of Clarke added greatly to the cavalryman's luster In turn the artist gained fame and fortune in part from drawing on Clarke as his muse The story of these two unlikely comrades tells much about the final stages of the Wild West and the United States emergence on the international scene Along the way Geronimo The Apache Kid Texas John Slaughter and others played their roles in Clarke's brief but compelling drama

Branding the American West Marian Wardle, Sarah E. Boehme, 2016-02-17 Artists and filmmakers in the early twentieth century reshaped our vision of the American West In particular the Taos Society of Artists and the California based artist Maynard Dixon departed from the legendary depiction of the Wild West and fostered new images or brands for western art This volume illustrated with more than 150 images examines select paintings and films to demonstrate how these artists both enhanced and contradicted earlier representations of the West Prior to this period American art tended to portray the West as a wild frontier with untamed lands and peoples Renowned artists such as Henry Farny and Frederic Remington set their work in the past invoking an environment immersed in conflict and violence This trademark perspective began to change however when artists enamored with the Southwest stamped a new imprint on their

paintings The contributors to this volume illuminate the complex ways in which early twentieth century artists as well as filmmakers evoked a southwestern environment not just suspended in time but also permanent rather than transient Yet as the authors also reveal these artists were not entirely immune to the siren call of the vanishing West and their portrayal of peaceful yet exotic Native Americans was an expansion rather than a dismissal of earlier tropes Both brands cast a romantic spell on the West and both have been seared into public consciousness Branding the American West is published in association with the Brigham Young University Museum of Art Provo Utah and the Stark Museum of Art Orange Texas

Painters and the American West Joan Carpenter Troccoli, Marlene Chambers, Jane Comstock, Anschutz collection (Denver, Colo.), Sarah Anschutz Hunt, Denver Art Museum, Anschutz collection (Denver, Colo.), 2000-01-01 This book offers a tour of a collection of paintings of the American West still in private hands The Anschutz Collection covers all the ground expected in a wide ranging major survey yet still has plenty of room for surprises Every phase in the history of American art since the 1820s is included There are pictures of impressive quality by lesser known artists and examples from all the major painters who have depicted the West You ll discover works by artists such as Marsden Hartley Childe Hassam Jan Matulka and John Henry Twachtman who painted western subjects only rarely and pictures by those whose subjects were predominantly western The collection is particularly rich in paintings made in Taos and Santa Fe during the first half of the twentieth century when major American artists often found inspiration and stylistic renewal in the Southwest Among the American masters represented here are George Bellows Albert Bierstadt George Caleb Bingham Ernest Blumenschein George Catlin Stuart Davis Asher B Durand George Inness John Marin Alfred Jacob Miller Thomas Moran Georgia O Keeffe Frederic Remington Charles Marion Russell and Walter Ufer BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *Mapping Impressionist Painting in Transnational Contexts* Emily C. Burns, Alice M. Rudy Price, 2021-05-03 This book offers microhistories related to the transnational circulations of impressionism in the late nineteenth and early twentieth centuries The contributors rethink the role of French impressionism in shaping these iterations by placing France within its global and imperialist context and arguing that impressionisms might be framed through the mobility studies concept of constellations of mobility Artists engaging with impressionism in France as in other global contexts relied on responded to appropriated and resisted elements of form and content based on fluid and interconnected political realities and market structures Written by scholars and curators the chapters demand reconsideration of impressionism as a historical construct and the meanings assigned to that term This project frames future discussion in art history cultural studies and global studies on the politics of appropriating impressionism **Remington and Russell** Brian W. Dippie, 1994 From reviews of the first edition Richly illustrated this handsome volume presents the rugged beauty and rowdy spirit of life on the frontier as captured by two master painters Art Gallery International large color plates beautifully reproduce dashing romantic scenes of frontier life created by two of the West s foremost portrayers

American West The many devotees of Remington and Russell and of Western art in general will want to add this handsome volume to their collection Arizona Highways the University of Texas Press as one would expect has produced a beautiful book Montana Since its original publication in 1982 Remington and Russell has become an essential introduction to the work of these artists and this revision substantially enhances the book's strengths Every painting in the Sid Richardson Collection has been rephotographed for this edition including one Russell and five Remington paintings not included previously Numerous black and white illustrations have also been added to give insight into the evolution of the paintings Brian Dippie has considerably amplified his commentaries on each painting with new information His revised introduction places Remington and Russell in the historical and cultural contexts of their time and draws intriguing comparisons between the two artists

Remington Frederic Remington, Kellie Keto, 1998 Frederick Remington's early paintings of the West were more literal depictions than his romanticized later ones The boldness Remington had lost in his work by eliminating hard outlines began to reinstate itself in his later works with vigorous brushwork In his later years he preferred to paint nocturnes because it allowed him greater freedom and depth of perspective This commemorative catalogue focuses on Remington's nocturnes and bronzes a body of work that provides a clear view of the artist's mature vision In the years between 1905 and his death in 1909 the new direction of Remington's art finally earned him the critical recognition he had been seeking

William F. Cody's Wyoming Empire Robert E. Bonner, 2016-01-29 Celebrated showman of the Old West William F Buffalo Bill Cody took on another role unknown to most Americans that of the western land developer and town promoter In this captivating study Robert E Bonner demonstrates that the skills Cody acquired from decades in show business failed to prepare him for the demanding arena of business and finance Bonner examines Cody's efforts as president of the Shoshone Irrigation Company to develop the Big Horn Basin through large scale irrigation and town development This meticulously researched account shows us a Buffalo Bill preoccupied with making a buck and not at all shy about using his fame to do it Cody spent huge sums bullied partners patronized state officials and exercised his charm in pursuit of developing the high plains east of Yellowstone National Park His efforts helped shape the city of Cody and the Big Horn Basin With the famous Irma Hotel as a cornerstone he built the first infrastructure of the Cody Yellowstone tourist trade and connected his little Wyoming town with the wealth of the East through personal hospitality and travel Laced with engaging anecdotes and featuring more than twenty photographs William F Cody's Wyoming Empire is a much needed look at an overly mythologized character There was more to William F Cody than the Wild West show and we cannot construct a full picture of the man without understanding his entrepreneurial activities in Wyoming
