

"THE MEANING OF JULY FOURTH FOR THE NEGRO"

SPEECH BY FREDERICK DOUGLASS

"[Frederick Douglass] could not help thinking about the irony of the promise of the Declaration of Independence, of equality, life, liberty made by slaveowners, and how slavery was made legitimate in the writing of the Constitution after a victory for 'freedom' over England." —Howard Zinn

Political Rhetoric in Theory and Practice Robert C. Bartlett, Nasser Behnegar, 2023-11-16 Combines classic statements of the theory of political rhetoric with a rich array of actual political speeches ancient and modern *From Rebellion to Revolution* Eugene D. Genovese, 1992-01-01 In perhaps his most provocative book Eugene Genovese examines the slave revolts of the New World and places them in the context of modern world history By studying the conditions that favored these revolts and the history of slave guerrilla warfare throughout the western hemisphere he connects the ideology of the revolts to that of the great revolutionary movements of the late eighteenth century Genovese argues compellingly that the slave revolts of the New World shaped the democratic character of contemporary European struggles just as forcefully as European struggles influenced New World rebellion The revolts however had a different purpose before as well as after the era of the French Revolution Before their goals were restoration of African type village communities and local autonomy after they merged with larger national and international revolutionary movements and had profound effect on the shaping of modern world politics Toussaint L Overture's brilliant

leadership of the successful slave revolt in Saint Dominique constitutes for Genovese a turning point in the history of slave revolts and indeed in the history of the human spirit By claiming for his enslaved brothers and sisters the same right to human dignity that the French bourgeoisie claimed for itself Toussiant began the process by which slave uprisings changed from secessionist rebellions to revolutionary demands for liberty equality and justice Those who have taken issue with Genovese before will find little in From Rebellion to Revolution to change their minds The book is sure to be widely read hotly debated and a major influence on the way future historians view slavery

A Democratic Theory of Judgment Linda M.G. Zerilli, 2016-12-12 In this sweeping look at political and philosophical history Linda M G Zerilli unpacks the tightly woven core of Hannah Arendt s unfinished work on a tenacious modern problem how to judge critically in the wake of the collapse of inherited criteria of judgment Engaging a remarkable breadth of thinkers including Ludwig Wittgenstein Leo Strauss Immanuel Kant Frederick Douglass John Rawls J rgen Habermas Martha Nussbaum and many others Zerilli clears a hopeful path between an untenable universalism and a cultural relativism that forever defers the possibility of judging at all Zerilli deftly outlines the limitations of existing debates both those that concern themselves with the impossibility of judging across cultures and those that try to find transcendental rational values to anchor judgment Looking at Kant through the lens of Arendt Zerilli develops the notion of a public conception of truth and from there she explores relativism historicism and universalism as they shape feminist approaches to judgment Following Arendt even further Zerilli arrives at a hopeful new pathway seeing the collapse of philosophical criteria for judgment not as a problem but a way to practice judgment anew as a world building activity of democratic citizens The result is an astonishing theoretical argument that travels through and goes beyond some of the most important political thought of the modern period

The Arc of Truth Lewis V. Baldwin, 2022 Martin Luther King Jr said and wrote as much or more about the meaning nature and power of truth as any other prominent figure in the 1950s and 60s King was not only vastly influential as an advocate for and defender of truth he also did more than anyone in his time to organize truth into a movement for the liberation uplift and empowerment of humanity efforts that ultimately resulted in the loss of his life Drawing on King s published and unpublished sermons speeches and writings The Arc of Truth explores King s lifelong pilgrimage in pursuit of truth Lewis Baldwin explores King s quest for truth from his inquisitive childhood to the influence of family and church to Morehouse College Crozer Theological Seminary Boston University and other academic institutions in the Northeast Continuing on the book follows King s sense that he was involved in experiments of truth within the context of

the struggle to liberate and empower humanity to his understanding of the civil rights movement as unfolding truth to his persistent challenge to America around its need to engage in a serious reckoning with truth regarding its history and heritage Baldwin investigates King's determination to speak truth to power and his untiring efforts to actualize what he envisioned as the truthful ends of the beloved community through the truthful means of nonviolent direct action King believed taught and demonstrated by example that truth derives from a revolution in the heart mind and soul before it can be translated into institutions and structures that guarantee freedom justice human dignity equality of opportunity and peace Ultimately King's significance for humanity cannot be considered only his contributions as a preacher pastor civil rights leader and world figure he was and remains equally impactful as a theologian philosopher and ethicist whose life and thought evince an enduring search for and commitment to truth

Martin Jr., 2000-11-09 Frederick Douglass was unquestionably the foremost black American of the nineteenth century The extraordinary life of this former slave turned abolitionist orator newspaper editor social reformer race leader and Republican party advocate has inspired many biographies over the years This however is the

first full scale study of the origins contours development and significance of Douglass s thought Brilliant and to a large degree self taught Douglass personified intellectual activism he possessed a sincere concern for the uses and consequences of ideas Both his people s struggle for liberation and his individual experiences which he envisioned as symbolizing that struggle provided the basis and structure for his intellectual maturation As a representative American he internalized and thus reflected major currents in the contemporary American mind As a representative Afro American he revealed in his thinking the deep seated influence of race on Euro American Afro American or broadly conceived American consciousness He sought to resolve in his thinking the dynamic tension between his identities as a black and as an American Martin assesses not only how Douglass dealt with this enduring conflict but also the extent of his success An inveterate belief in a universal and egalitarian humanism unified Douglass s thought This grand organizing principle reflected his intellectual roots in the three major traditions of mid nineteenth century American thought Protestant Christianity the Enlightenment and romanticism Together these influences buttressed his characteristic optimism Although nineteenth century Afro American intellectual history derived its central premises and outlook from concurrent American intellectual history it offered a searching critique of the latter and its ramifications How to square America s rhetoric of freedom equality and justice with the reality of slavery and racial prejudice was the difficulty that confronted such Afro American thinkers as Douglass

Our Fragile Freedoms Eric Foner,2025-09-02 From one of the most acclaimed and influential historians of the United States an insightful guide to our history and why it matters Eric Foner has done more to shape the public and professional understanding of American history than any other scholar The preeminent historian of the Civil War era Foner s keynote has been American freedom and the recurring battles over its meanings and boundaries His award winning works show that freedom has been a birthright for some and a struggle for others that rights gained can also be lost and that they must always be tended with knowledge and vigilance The present political moment makes the importance of these themes abundantly clear This collection of Foner s recent reviews and commentaries demonstrates the range of his interests and expertise running from slavery and antislavery through the disunion and remaking of the United States in the nineteenth century Jim Crow and the civil rights movement and into our current politics Each piece shows a master at work melding historical knowledge and balanced judgment with crystalline prose Foner takes up towering figures from Washington to Lincoln Douglass and Rosa Parks pivotal events such as the Fugitive Slave Act and the Tulsa Race Massacre and the fragility of constitutional guarantees to civil liberties due process and birthright citizenship whether in times of war or peace He also explores recent controversies over how to commemorate and how to teach our history

Fields Watered with Blood Margaret Walker,2014 Representing an international

gathering of scholars *Fields Watered with Blood* constitutes the first critical assessment of the full scope of Margaret Walker's literary career. As they discuss Walker's work including the landmark poetry collection *For My People* and the novel *Jubilee*, the contributors reveal the complex interplay of concerns and themes in Walker's writing: folklore and prophecy, place and space, history and politics, gender and race. In addition, the contributors remark on how Walker's emphases on spirituality and on dignity in her daily life make themselves felt in her writings and show how Walker's accomplishments as a scholar, teacher, activist, mother, and family elder influenced what and how she wrote. A brief biography, an interview with literary critic Claudia Tate, a chronology of major events in Walker's life, and a selected bibliography round out this collection, which will do much to further our understanding of the writer whom poet Nikki Giovanni once called the most famous person nobody knows.

Theory's Empire Daphne Patai, Wilfrido Corral, 2005-04-20 Not too long ago literary theorists were writing about the death of the novel and the death of the author; today many are talking about the death of Theory. Theory, as the many theoreticalisms among them postcolonialism, postmodernism, and New Historicism are now known, once seemed so exciting but has become ossified and insular. This iconoclastic collection is an excellent companion to current anthologies of literary theory, which have embraced an uncritical stance toward Theory and its practitioners. Written by nearly fifty prominent scholars, the essays in *Theory's Empire* question the ideas, catchphrases, and excesses that have let Theory congeal into a predictable orthodoxy. More than just a critique, however, this collection provides readers with effective tools to redeem the study of literature, restore reason to our intellectual life, and redefine the role and place of Theory in the academy.

Blackness Visible Charles W. Mills, 2015-12-18 Charles Mills makes visible in the world of mainstream philosophy some of the crucial issues of the black experience. Ralph Ellison's metaphor of black invisibility has special relevance to philosophy, whose demographic and conceptual whiteness has long been a source of wonder and complaint to racial minorities. Mills points out the absence of any philosophical narrative theorizing and detailing race's centrality to the recent history of the West, such as feminists have articulated for gender domination, European expansionism, in its various forms. Mills contends that it generates a social ontology of race that warrants philosophical attention. Through expropriation, settlement, slavery, and colonialism, race comes into existence as simultaneously real and unreal, ontological without being biological, metaphysical without being physical, existential without being essential, shaping one's being without being in one's shape. His essays explore the contrasting sums of a white and black modernity, examine standpoint epistemology and the metaphysics of racial identity, look at black Jewish relations and racial conspiracy theories, map the workings of a white supremacist polity, and the contours of a racist moral consciousness, and analyze the presuppositions of Frederick Douglass's famous July 4 prognosis for black political inclusion. Collectively, they demonstrate what exciting new philosophical terrain can be opened up once the color line in western philosophy is made visible and addressed.

An Unbroken Educational Apartheid Legacy David E. Morgan Ph.D., 2015-03-17 This is a thought-provoking book on the black-white academic achievement gap in Chicago's

predominantly black communities of color and what highly effective school boards can do to change it In this book the reader will be powerfully enlightened by a civil and human rights debate that calls for effective leadership in our schools beginning with effective school boards The primary agenda of effective school boards is raising student achievement performance levels and engaging the school district community to attain that goal These instructive analyses of effective school board leadership builds on the research and wisdom of great leaders Simultaneously it develops a breath of fresh air for school reformers who seek to implement a new model and escape the insanity and pathology inherent in school board dysfunctions and violations of our civil and human rights which prevents progress in Chicago s south suburban communities of color In both highs and lows of awesome moments as educational reform leaders and school board members we are in a strategic leadership position to help school boards carry out their essential responsibilities for creating equity and excellence in public education In doing so highly effective school leaders can team with our school board leaders to lead our school district communities in preparing all students to succeed in a rapidly changing global society School board members doing the same things over and over again and then expecting different results in academic outcomes is the definition for insanity Education is freedom In an era of mass educational apartheid with its consequent mass incarceration of blacks that has surpassed the enforced chattel bondage of slavery s peak numbers in 1860 this book addresses a subject that is critically essential timely and in need of immediate attention for the security success and ultimate survival of black America As the problems of the academic under achievement gap is addressed in this book it is also essential that school boards educators and community and national leaders accept reality to view the problem in its true perspective to contemplate it as it is in providing essential solutions toward removing limiting and limited school boards dysfunctions obstructions and other barriers to academic achievement in effective school board leadership Supporting educational excellence will thereby produce more African American scholars in mathematics science and in many other disciplines This book will provide information and focus on some key action areas that successful school boards in America and around the world have focused their attention on Vision Standards Assessment Resource Alignment Climate Collaboration and Continuous Academic Improvement
