Library of America presents the biggest most comprehensive trade edition of Frederick Douglass's writings ever published. Edited by Pulitzer Prize winning biographer David W. Blight, this Library of America edition is the largest single volume selection of Frederick Douglass's writings ever published, presenting the full texts of thirty-four speeches and sixty-seven pieces of journalism. A companion Library of America volume, Frederick Douglass Autobiographies, gathers his three memoirs. With startling immediacy, these writings chart the evolution of Douglass's thinking about slavery and the U.S. Constitution, his eventual break with William Lloyd Garrison and many other abolitionists on the crucial issue of disunion, the course of his complicated relationship with Abraham Lincoln, and his deep engagement with the cause of women's suffrage. Here are such powerful works as *What to the Slave Is the Fourth of July*, Douglass's incandescent jeremiad skewering the hypocrisy of the slaveholding republic; *The Claims of the Negro*, ethnologically considered, a full-throated refutation of nineteenth-century racial pseudoscience; *Is it Right and Wise to Kill a Kidnapper*, an urgent call for forceful opposition to the Fugitive Slave Act; *How to End the War*, in which Douglass advocates, just days after the fall of Fort Sumter, for the raising of Black troops and the military destruction of slavery; *There Was a Right Side in the Late War*, Douglass's no-holds-barred attack on the Lost Cause mythology of the Confederacy; and *Lessons of the Hour*, an impassioned denunciation of lynching and disenfranchisement in the emerging Jim Crow South. As a special feature, the volume also presents Douglass's only foray into fiction, the 1853 novella *The Heroic Slave*, about Madison Washington, leader of the real-life insurrection on board the domestic slave trading ship *Creole* in 1841 that resulted in the liberation of more than a hundred enslaved people. Editorial features include detailed notes identifying Douglass's many scriptural and cultural references, a newly revised chronology of his life and career, and an index.

Postracial America? Vincent L. Stephens, Anthony Stewart, 2016-11-17. The concept of a postracial America, the dream of a nation beyond race, has attracted much attention over the course of the presidency of Barack Obama, suggesting that this idea is peculiar to the contemporary moment alone. *Postracial America: An Interdisciplinary Study* attempts to broaden the application of this idea by situating it in contexts that demonstrate how the idea of the postracial has been with America since its founding and will continue to be long after the Obama administration's term ends. The chapters in this volume explore the idea of the postracial in the United States through a variety of critical lenses, including film studies, literature, aesthetics, and conceptual thinking, politics, media representations, race in relation to gender, identity, and sexuality, and personal experiences. Through this diverse interdisciplinary exploration, this collection skeptically weighs the implications of holding up a postracial culture as an admirable goal for the United States. Frederick Douglass Frederick Douglass, 1964.

Existentialist Thought in African American Literature before 1940 Melvin G. Hill, 2015-12-07 *Existentialist Thought in African American Literature Before 1940* is the first collection of its kind to break new ground in arguing that long before its classification by Jean Paul Sartre African American literature embodied existentialist thought To make its case this daring book dissects eight notable texts Frederick Douglass's *Narrative of the Life of Frederick Douglass* 1845 and *My Bondage and My Freedom* 1855 Sojourner Truth's *Ain't I A Woman* 1861 Harriet Jacobs's *Incidents in the Life of A Slave Girl* 1861 Sutton E Griggs's *Imperium in Imperio* 1899 James Weldon Johnson's *Autobiography of an Ex Colored Man* 1912 and Nella Larsen's *Quicksand* 1928 and *Passing* 1929 It explores and addresses a wide range of complex philosophical concepts such as authenticity potentiality for authentic living bad faith and existentialism from the Christian point of view The use of interdisciplinary studies such as gender studies queer studies Christian ethics mixed race studies and existentialism allows the authors within this book to lend unique perspectives in examining selected African American literary works **The**

Political Thought of the Civil War Alan Levine, Thomas W. Merrill, James R. Stoner, Jr., 2019-08-08 Why does the Civil War still speak to us so powerfully If we listen to the most thoughtful forceful and passionate voices of that day we find that many of the questions at the heart of that conflict are also central to the very idea of America and that many of them remain unresolved in our own time *The Political Thought of the Civil War* offers us the opportunity to pursue these questions from a new critical perspective as leading scholars of American political science history and literature engage in some of the crucial debates of the Civil War era and in the process illuminate more clearly the foundation and fault lines of the American regime The essays in this volume use practical dilemmas of the Civil War to reveal and probe fundamental questions about the status of slavery and race in the American founding the tension between moralism and constitutionalism and the problem of creating and sustaining a multiracial society on the basis of the original principles of the American regime Adopting a

deliberative approach the authors revisit the words and deeds of the most important political actors of era from William Lloyd Garrison John C Calhoun and Abraham Lincoln to Alexander Stephens and Frederick Douglass with reference to the American Founders and the architects of Reconstruction The essays in this volume consider the difficult choices each of these figures made the specific problems they were responding to and the consequences of those choices As this book exposes and explores the theoretical principles at play within their historical context it also offers vivid reminders of how the great controversies surrounding the Civil War continue to shape American political life to this day **Prophetic Wisdom**

Charles R. Strain, 2024-06-01 Classical Buddhism lacked an understanding of systemic injustice and its contribution to collective suffering Despite the teaching of impermanence classical Buddhist schools viewed social institutions as given and offered no path to social transformation Today Buddhists are shaped by multiple religious and secular traditions including those stemming from the Hebrew prophets The prophetic tradition offers a socially and religiously powerful concept the concept of justice that reconfigures the Buddhist dharma In a time of unparalleled peril Buddhists are challenged as never before to turn wisdom into strategic action to foster systemic social change Compassion is not enough Prophetic Wisdom shows how Engaged Buddhists can expand their understanding of the causes of collective suffering and develop nonviolent means for social transformation through a dialectic of love power and justice It concludes by confronting the poison of racism in the American body politic **The Living Lincoln**

Stillion Southard, 2019-06-27 Winner of the 2020 Marie Hochmuth Nichols Award from the Public Address Division of the National Communication Association The African colonization movement occupies a troubling rhetorical territory in the struggle for racial equality in the United States For white colonizationists the movement seemed positioned as a welcome compromise between slavery and abolition For free blacks colonization offered the hope of freedom but not within America's borders Bjorn F Stillion Southard indicates how politics and identity were negotiated amid the intense public debate on race slavery and freedom in America Operating from a position of power white advocates argued that colonization was worthy of massive support from the federal government Stillion Southard pores over the speeches of Henry Clay Elias B Caldwell and Abraham Lincoln which engaged with colonization during its active deliberation Between Clay's and Caldwell's speeches at the founding of the American Colonization Society ACS in 1816 and Lincoln's final public effort to encourage colonization in 1862 Stillion Southard analyzes the little known speeches and writings of free blacks who wrestled with colonization's conditional promises of freedom He examines an array of discourses to probe the complex issues of identity confronting free blacks who attempted to meaningfully engage in colonization efforts From a peculiarly voiced Counter Memorial against the ACS to the letters of wealthy black merchant Louis Sheridan negotiating for his passage to Liberia to the civically minded orations of Hilary Teage in Liberia Stillion Southard brings to light the intricate rhetoric of blacks who addressed colonization to Africa **A Great Disorder** Richard Slotkin, 2024-03-05 The culture wars are pitting us against each other with a vitriol that is fueling outright violence Slotkin looks to the foundational myths that have shaped American identity the Frontier the Founding the Civil War Emancipation and the Lost Cause and the Good War and reveals why they are bringing the US to the brink of an existential crisis **Racial Formation in the United States** Michael Omi, Howard Winant, 2014-06-20 Twenty years since the publication

of the Second Edition and more than thirty years since the publication of the original book *Racial Formation* in the United States now arrives with each chapter radically revised and rewritten by authors Michael Omi and Howard Winant but the overall purpose and vision of this classic remains the same Omi and Winant provide an account of how concepts of race are created and transformed how they become the focus of political conflict and how they come to shape and permeate both identities and institutions The steady journey of the U S toward a majority nonwhite population the ongoing evisceration of the political legacy of the early post World War II civil rights movement the initiation of the war on terror with its attendant Islamophobia the rise of a mass immigrants rights movement the formulation of race class gender intersectionality theories and the election and reelection of a black President of the United States are some of the many new racial conditions *Racial Formation* now covers

The Emancipation Proclamation Harold Holzer, Edna G. Medford, Frank J. Williams, 2006-05 The Emancipation Proclamation is the most important document of arguably the greatest president in U S history Now Edna Greene Medford Frank J Williams and Harold Holzer eminent experts in their fields remember analyze and interpret the Emancipation Proclamation in three distinct respects the influence of and impact upon African Americans the legal political and military exigencies and the role pictorial images played in establishing the document in public memory The result is a carefully balanced yet provocative study that views the proclamation and its author from the perspective of fellow Republicans antiwar Democrats the press the military the enslaved free blacks and the antislavery white establishment as well as the artists publishers sculptors and their patrons who sought to enshrine Abraham Lincoln and his decree of freedom in iconography Medford places African Americans the people most affected by Lincoln s edict at the center of the drama rather than at the periphery as previous studies have done She argues that blacks interpreted the proclamation much more

broadly than Lincoln intended it and during the postwar years and into the twentieth century they became disillusioned by the broken promise of equality and the realities of discrimination violence and economic dependence Williams points out the obstacles Lincoln overcame in finding a way to confiscate property enslaved humans without violating the Constitution He suggests that the president solidified his reputation as a legal and political genius by issuing the proclamation as Commander in Chief thus taking the property under the pretext of military necessity Holzer explores how it was only after Lincoln's assassination that the Emancipation Proclamation became an acceptable subject for pictorial celebration Even then it was the image of the martyr president as the great emancipator that resonated in public memory while any reference to those African Americans most affected by the proclamation was stripped away This multilayered treatment reveals that the proclamation remains a singularly brave and bold act brilliantly calculated to maintain the viability of the Union during wartime deeply dependent on the enlightened voices of Lincoln's contemporaries and owing a major debt in history to the image makers who quickly and indelibly preserved it

Disabilities of the Color Line Dennis Tyler, 2022-02-15 Rather than simply engaging in a triumphalist narrative of overcoming where both disability and disablement are shunned alike *Disabilities of the Color Line* argues that Black authors and activists have consistently avowed disability as a part of Black social life in varied and complex ways Sometimes their affirmation of disability serves to capture how their bodies minds and health have been and are made vulnerable to harm and impairment by the state and society Sometimes their assertion of disability symbolizes a sense of commonality and community that comes not only from a recognition of the shared subjection of Blackness and disability but also from a willingness to imagine and create a world distinct from the dominant social order Through the work of David Walker Henry Box Brown William and Ellen Craft Charles Chesnutt James Weldon Johnson and Mamie Till Mobley this book examines how Black writer activists have engaged in an aesthetics of redress modes of resistance that show how Black communities have rigorously acknowledged disability as a response to forms of racial injury and in the pursuit of racial and disability justice
