Fredric Jameson Marxism Hermeneutics Postmodernism:

Fredric Jameson Sean Homer, 2013-04-23 This is the first comprehensive analysis of the work of Fredric Jameson one of the most important cultural critics writing today Homer provides a clear exposition and appraisal of Jameson's theories and an assessment of his contribution to contemporary cultural theory *The Marxian Hermeneutics of Fredric Jameson* Christopher Wise, 1995 The Marxian Hermeneutics of Fredric Jameson is the first comprehensive book length study of Jameson's writings from Marxism and Form 1971 through Postmodernism 1991 Wise begins his discussion by examining Jameson's tripartite hermeneutic as introduced in The Political Unconscious 1981 in relation to the interpretive systems of Northrop Frye and the Patristics From Hegelian Marxist discourse Jameson's critical methodology is discussed in relation to the writings of Georg Lukács Jean Paul Sartre and Theodor W Adorno A central contention of this study is that Jameson's writings are finally comprehensible only within the framework of both Hegelian Marxism and more traditional hermeneutic thought **The Success and Failure of Fredric Jameson** Steven Helmling, 2001-01-01 A critical overview of the work of Fredric Jameson with an emphasis on his notoriously difficult writing style

Marxism, Pragmatism, and Postmetaphysics Ulf Schulenberg, 2019-02-15 From Finding to Making offers the first detailed discussion of the relationship between Marxism and pragmatism These two philosophies of praxis are not incompatible and an analysis of their relation helps one to better understand both Establishing a transatlantic theoretical dialogue this book discusses similarities and differences between these philosophies It is an interdisciplinary study that brings together philosophy American and European intellectual history and literary studies Schulenberg's book shows that if we seek to continue the unfinished project of establishing a genuinely postmetaphysical culture the attempt to elucidate the dialectics of Marxism and pragmatism is a good starting point The book offers detailed discussions of Sidney Hook Georg Lukács Theodor W Adorno Fredric Jameson W E B Du Bois John Dewey Richard Rorty and Jacques Rancière **Fredric Jameson** Adam Roberts, 2000-09-07 This book has been designed as a bridge to Jameson's work for undergraduates This series is truly comprehensive covering key ideas intellectual social and historical contexts and the impact of the thinker's ideas These are usually the subjects of separate books Adam Roberts really knows how to write for a student audience Jameson is another very trendy postmodernist but his work grows out of marxism so he appeals to theory teachers of the old and new schools and appears on plenty of courses as a result The book has a large amount on The Political Unconscious Jameson's most widely taught text **John Barth and Postmodernism** Berndt Clavier, 2007 John Barth's eminence as a postmodernist is indisputable However much of the criticism dealing with his work is prompted by his own theories of exhaustion and subsequent replenishment leaving his writing relatively untouched by theories of postmodernism in general This book changes that by focusing on the relationship between Barth's aesthetic and the ideology critique of the historical avant gardes which were the first to mobilize art against itself and its institutional practices and demands Examining Barth's metafictional parodies in the light of theories of space

and subjectivity Clavier engages the question of ideology critique in postmodernism by offering the montage as a possible model for understanding Barth's fiction In such a light postmodernism may well be perceived as a mimesis of reality particularly a recognition of the collective nature of self and the world *Jameson and Literature* Jarrad Cogle,2020-09-01 This book demonstrates how Fredric Jameson's understanding of the novel form has heavily influenced his work as a critical theorist It contends that Jameson's idiosyncratic engagements with the literary canon have had a major impact on his theoretical frameworks particularly in his sense of historical change The book investigates Jameson's predominant literary interests in chapters focusing on realism modernism postmodernism and genre fiction These readings provide fresh perspectives on Jameson's career ones that look beyond his most famous contributions to cultural theory and interpretive practice Through this work the book also rethinks the criticism that has surrounded Jameson while suggesting ways in which his literary interpretation remains useful for contemporary reading practices *Postmodern Media Culture* Jonathan Bignell,2007-12-13 The book deals with film television information technology consumer products and popular literature and assesses challenges to conceptions of the postmodern based on gender race and religion **Modernity and Postmodern Culture** Jim McGuigan,2006-07-16 Modernity and Postmodern Culture critically assesses claims made about the postmodernization of culture and society and explores the complex interplay between the modern and the postmodern in an increasingly globalized world The author argues that although culture may be postmodern in terms of art entertainment and everyday life modernity still exists and is pervasive The second edition is revised throughout updating the literature and viewing international events through a modernist postmodernist gaze The theories of Baudrillard Beck Castells Giddens Jameson Lyotard and others are discussed and specific issues concerning architecture theme parks screen culture science technology and the environment are examined Topics include Postmodern architecture and the hyperreality of Disney How poststructuralist theory questions modern rationality and reason The relations between postmodern culture global capitalism and the technological changes brought about by electronics and computing The network society The book is key reading for students on courses in cultural politics cultural theory popular culture and sociology *Consciousness and the Neoliberal Subject* Jon Bailes,2020-04-08 Consciousness and the Neoliberal Subject outlines a theory of ideological function and a range of ideological positions according to which individuals rationalise and accept socio economic conditions in advanced consumer capitalist societies Through a critical examination of the social and psychoanalytic theories of Herbert Marcuse Fredric Jameson and Slavoj Žižek the author extends the understanding of ideology to consider not only the unconscious attachment to social relations but also the importance of conscious rationalisation in sustaining ideologies In this way the book defines different ideologies today in terms of the manner in which they conditionally internalise a dominant neoliberal rationality and considers the possibility that entrenched social norms may be challenged directly through conscious engagement It will appeal to scholars of social and political theory with interests in ideology neoliberalism psychoanalytic

Humanism, Anti-Authoritarianism, and Literary Aesthetics Ulf Schulenberg, 2023-08-10
Presenting pragmatist humanism as a form of anti-authoritarianism, this book sheds light on the contemporary significance of pragmatist aesthetics and the revival of humanism. This interdisciplinary study shows that a mediation between pragmatist aesthetics, which emphasizes the significance of creating, making, and inventing, and Marxist materialist aesthetics, which values form, promises interesting results, and that the former can learn from the latter. In doing so, Ulf Schulenberg discusses 3 layers of the multi-layered phenomenon that is the revival of humanism. He first explains the potential of a pragmatist humanism, clarifying the contemporary significance of humanism. He then argues that pragmatist humanism is a form of anti-authoritarianism. Finally, he shows the possibility of bringing together the resurgence of humanism and a renewed interest in the work of aesthetic form by arguing that pragmatist aesthetics needs a more complex conception of form. Establishing a transatlantic theoretical dialogue, *Humanism, Anti-Authoritarianism, and Literary Aesthetics* brings together literary and aesthetic theory, philosophy, and intellectual history. It discusses a broad range of authors from Emerson, Whitman, James, Nietzsche, Proust, and Dewey to Wittgenstein, Lukács, Adorno, Jameson, Latour, and Rorty to illuminate how humanism, pragmatism, and anti-authoritarianism are interlinked.

Fredric Jameson Robert T. Tally, 2014-06-20
Fredric Jameson is the most important Marxist critic in the world today. While consistently operating at the cutting edge of literary and cultural studies, Jameson has remained committed to seemingly old-fashioned philosophical discourses, most notably dialectical criticism and utopian thought. In *Fredric Jameson: The Project of Dialectical Criticism*, Robert Tally surveys Jameson's entire oeuvre from his early studies of Sartre and formal criticism through his engagements with postmodernism and globalisation to his recent readings of Hegel, Marx, and the valences of the dialectic. The book is both a comprehensive critical guide to Jameson's theoretical project and itself a convincing argument for the power of dialectical criticism to understand the world today.

Reification Timothy Bewes, 2020-05-05
Of all the concepts which have emerged to describe the effects of capitalism on the human world, none is more graphic or easily grasped than reification, the process by which men and women are turned into objects, things. Arising out of Marx's account of commodity fetishism, the concept of reification offers an unrivalled tool with which to explain the real consequences of the power of capital on consciousness itself. Symptoms of reification are proliferating around us, from the branding of goods and services to racial and sexual stereotypes, all forms of

religious faith the growth of nationalism and recent concepts like spin and globalization At such a time the term ought to enjoy greater critical currency than ever Recent thinkers however have expressed deep reservations about the concept and the term has become marginalized in the humanities and social societies Eschewing this trend Timothy Bewes opens up a new formulation of the concept claiming that in the highly reflective age of late capitalism reification is best understood as a form of social and cultural anxiety further that such an understanding returns the concept to its origins in the work of Georg Lukcs Drawing upon writers including Kierkegaard Herman Melville Proust and Flannery O Connor he outlines a theory of reification which promises to unite politics with truth art with experience and philosophy with real life *Jung and the Postmodern* Christopher Hauke, 2013-10-23 What has Jung to do with the Postmodern Chris Hauke s lively and provocative book puts the case that Jung s psychology constitutes a critique of modernity that brings it in line with many aspects of the postmodern critique of contemporary culture The metaphor he uses is one in which we are gazing through a Jungian transparency or filter being held up against the postmodern while from the other side we are also able to look through a transparency or filter of the postmodern to gaze at Jung From either direction there will be a new and surprising vision Setting Jung against a range of postmodern thinkers Hauke recontextualizes Jung s thought as a response to modernity placing it sometimes in parallel and sometimes in contrast to various postmodern discourses Including chapters on themes such as meaning knowledge and power the contribution of architectural criticism to the postmodern debate Nietzsche s perspective theory of affect and Jung s complex theory representation and symbolization constructivism and pluralism this is a book which will find a ready audience in academy and profession alike **Image, Text, Architecture** Robin Wilson, 2016-03-09 Image Text Architecture brings a radical and detailed analysis of the modern and contemporary architectural media addressing issues of architectural criticism architectural photography and the role of journal editors It covers examples as diverse as an article by British artist Paul Nash in The Architectural Review 1940 an early project by French architects Lacaton Vassal published in the journal 2G 2001 and recent photography by Hisao Suzuki for the Spanish journal El Croquis At the intersection of image and text the book also reveals the role of the utopian impulse within the architectural media drawing on theories of utopian discourse from the work of the French semiotician and art theorist Louis Marin and the American Marxist critic Fredric Jameson Through this it builds a fresh theoretical approach to journal studies revealing a hitherto unexplored dimension of latent or unconscious discourse within the media portrait of architecture The purpose of this enquiry is to highlight moments where a different type of critical voice emerges on the architectural journal page indicating the possibility of a more progressive engagement with the media as a platform for critical and speculative thinking about architecture and to rethink the journals role within architectural history Postmodernism and Politics Jonathan Arac, 1989 On literature and postmodernism Zygmunt Bauman Dennis Smith, 2013-05-06 In this major new assessment of Zygmunt Bauman s work Smith gives a clear introduction to this controversial and challenging sociologist

New Dimensions of Doctor Who David Mellor, Matt Hills, 2013-09-03 The Doctor may have regenerated on many occasions but so too has Doctor Who. Moving with the times the show has evolved across fifty years. *New Dimensions of Doctor Who* explores contemporary developments in Doctor Who's music design and representations of technology as well as issues of showrunner authority and star authorship. Putting these new dimensions in context means thinking about changes in the TV industry such as the rise of branding and transmedia storytelling. Along with its faster narrative pace and producer fan interaction via Twitter, new Who also has a new home at Roath Lock Studios, Cardiff Bay. Studying the Doctor Who Experience in its Cardiff setting and considering audience nostalgia alongside anniversary celebrations, this book explores how current Doctor Who relates to real world spaces and times. *New Directions of Doctor Who* is the scholarly equivalent of a multi-Doctor story bringing together the authors of *Triumph of a Time Lord* and *TARDISbound* as well as the editors of *Time and Relative*, *Dissertations in Space*, *Impossible Worlds*, *Impossible Things*, *Torchwood Declassified* and *Doctor Who: The Eleventh Hour*. It also features contributions from experts on TV brands, bioethics, transmedia and cultural icons. As new Who creates ongoing mysteries and poses exciting questions, this collection demonstrates the vitality of Doctor Who studies.

Edward Said Valerie Kennedy, 2013-04-24 Edward Said is one of the foremost thinkers writing today. His work as a literary and cultural critic, a political commentator and the champion of the cause of Palestinian rights has given him a unique position in western intellectual life. This new book is a major exploration and assessment of his writings in all these main areas. Focusing on Said's insistence on the connection between literature, politics and culture, Kennedy offers an overview and assessment of the main strands of Said's work, drawing out the links and contradictions between each area. The book begins with an examination of *Orientalism*, one of the founding texts of post-colonial studies. Kennedy looks at the book in detail, probing both its strengths and weaknesses and linking it to its sequel *Culture and Imperialism*. She then examines Said's work on the Palestinian people, with his emphasis on the need for a Palestinian narrative to counter pro-Israeli accounts of the Middle East and his searing criticisms of US, Israeli and even Arab governments. The book closes with an examination of Said's importance in the field of post-colonial studies, notably colonial discourse analysis and post-colonial theory, and his significance as a public intellectual. This book will be of great interest to anyone studying post-colonialism, literary theory, politics and the Middle East, as well as anyone interested in Said's writings.
