highest standards of ethical and professional behaviour This Research Handbook on Law and Ethics in Banking and Finance focuses on the role that law should play and the effectiveness of newly introduced regulations and supervisory actions as a driver for ethical conduct so as to reconnect the interests of bankers and financiers with the interests of society

Social Economics Edward O'Boyle,2005-06-23 Social Economics is a way of thinking about economic affairs that begins with the philosophical foundations It begins at this level frequently overlooked by mainstream economists to illustrate how critical premises are in the construction of an economy and the repair of a dysfunctional economy Social Economics uses these premises to undertake a rich range of empirical and policy related work Much of this work is represented in this volume which brings together leading practitioners from the field of social economics Subjects addressed include values and premises in social economics justice solidarity and community repairing the dysfunction of capitalist economies the transition from command economies

The Economic Person Peter L. Danner,2002 This book emphasizes that analysis of broad economic changes treats people abstractly while a personalist view sees them as human agents who while needing and generating economic goods must still be responsive to others and be aware of values and goals beyond temporal well being Visit our website for sample chapters

Business Education and Training Samuel M. Natale,1998 Co published with the Oxford Philosophy Trust this volume is part of an ongoing series representing the work of the International Conference on Social Values The concerns raised in these papers center around the underlying philosophy and the assumptions they make about human nature and the relation of the individual to others and to the state This collection reflects an ongoing dialogue with values education enterprise and the post modern mind

New Financial Ethics Aloy Soppe,2016-12-08 Following the internationalisation globalisation and deregulation of the financial market over the last few decades the financial sector has evolved from a servicing industry into an initiating and leading sector in the international industrialised economy The power of the financial sector including Credit Rating Agencies determines the creditworthiness of companies and countries Today's financial sector dominates instead of serving the real economy which puts substantial pressure on all the agencies involved not least the banks to make the profits that will drive economic growth As a result of this pressure moral conduct in the financial sector has been put under severe strain This book examines the experience of the recent financial crisis and argues that a firmer ethical grounding for the financial sector is required to prevent the crisis being repeated The book offers a model for making judgements on financial markets institutions and products The model is built on seven major criteria which are examined in depth Justice Nature Sustainability Legality Risk and Return the Stakeholder model and Monism This multidisciplinary approach integrates philosophy economics and law to arrive at a new normative approach to financial ethics This book is a must read for finance students at academic levels but also for professionals in the financial sector who can be helped by implementing the model of NFE in solving financial dilemmas
