Free My Mind:

God Is My Light!!! David L. Cook,2012-02-15 There is no available information at this time **The Answer Is in the Problem** J Krishnamurti,2022-09-09 In these Talks given in Europe Ojai and India Krishnamurti addresses the need to approach our life problems in a manner does not perpetuate fragmentation Though we have many problems and each problem seems to produce so many other problems perhaps we can consider together whether the wisest thing to do is not to seek the solution of any problem at all It seems to me that our minds are incapable of dealing with life as a whole we deal apparently with all problems fragmentarily separately not with an integrated outlook Perhaps the first thing if we have problems is not to seek an immediate solution for them but to have the patience to inquire deeply into them and discover whether these problems can ever be solved by the exercise of will What is important I think is to find out not how to solve the problem but how to approach it An extensive compendium of Krishnamurti s talks and discussions in the USA Europe India New Zealand and South Africa from 1933 to 1967 the Collected Works have been carefully authenticated against existing transcripts and tapes Each volume includes a frontispiece photograph of Krishnamurti with question and subject indexes at the end The content of each volume is not limited to the subject of the title but rather offers a unique view of Krishnamurti s extraordinary teachings in selected years The Collected Works offers the reader the opportunity to explore the early writings and dialogues in their most complete and authentic form *The Awakening of Intelligence* J. A New Modern Philosophy Eugene Marshall,Susanne Sreedhar,2019-03-07 The seventeenth and eighteenth centuries are arguably the most important period in philosophy s history given that they set a new and broad foundation for subsequent philosophical thought Over the last decade however discontent among instructors has grown with coursebooks unwavering focus on the era s seven most well known philosophers all of them white and male and on their exclusively metaphysical and epistemological concerns While few dispute the centrality of these figures and the questions they raised the modern era also included essential contributions from women like Margaret Cavendish Elisabeth of Bohemia Mary Wollstonecraft and milie Du Ch telet as well as important non white thinkers such as Anton Wilhelm Amo Julien Raimond and Ottobah Cugoano At the same time there has been increasing recognition that moral and political philosophy philosophy of the natural world and philosophy of race also vibrant areas of the seventeenth and eighteenth centuries need to be better integrated with the standard coverage of metaphysics and epistemology *A New Modern Philosophy The Inclusive Anthology of Primary Sources* addresses in one volume these valid criticisms Weaving together multiple voices and all of the era s vibrant areas of debate this volume sets a new agenda for studying modern philosophy It includes a wide range of readings from 34 thinkers integrating essential works from all of the canonical writers along with the previously neglected philosophers Arranged chronologically editors Eugene Marshall and Susanne Sreedhar provide an introduction for each author that sets the thinker in his or her time period as well as in the longer debates to which the thinker contributed Study questions and suggestions for further reading conclude each chapter At the end of the volume in addition to a comprehensive subject index the book includes 13 Syllabus Modules which will help instructors use the book to easily set up different topically structured courses such as The Citizen and the State Mind and Matter Education Theories of Perception or Metaphysics of Causation And an eresource offers a wide range of supplemental online resources including essay assignments exams quizzes student handouts reading questions and scholarly articles on teaching the history of philosophy One for Me, Two for Me Brenda
