Philip Wogaman, 1993-01-01 Reviews the history of Christian thought about ethics and discusses its views concerning politics economics and culture Free and Faithful in Christ Bernard Haring (1912-1998 / Haring, Bernhard), 1978 Voices in Modern US Moral Theology Charles E. Curran, 2019-02-15 In Charles E Curran s latest book Diverse Voices in Modern US Moral Theology he presents the diverse voices of US Catholic moral theologians from the mid twentieth century to the present The book discusses eleven key individuals in the development and evolution of moral theology as well as the New Wine New Wineskins movement This diversity which differs from the monolithic understanding of moral theology that prevailed until recently comes from the diverse historical circumstances or Sitz im Leben of the authors Each of these theologians developed her or his approach in light of these circumstances and in response to shifts in the three audiences of moral theology the Church the academy and the broader society By exploring this diversity Curran recognizes the deep divisions that exist within Catholic moral theology between the so called liberal and conservative approaches and acknowledges the need for greater dialogue between them providing a deeper understanding of the methods and approaches of these significant figures. This new book from a major figure in the field will be an important resource for students and scholars of US Catholic moral theology and for anyone seeking to understand the current state of moral theology in America Free and faithful in Christ: moral theology for priests and laity volume 1: general moral theology Bernard today Journal of Moral Theology, Volume 8, Special Issue 2 William C. Smith, 1998 The understanding and use of conscience in Roman Häring, 1980 Catholicism has undergone evaluation within the broader efforts of the renewal of moral theology called for by Vatican II A review of the literature reveals that among contemporary Catholic moral theologians there are differences in the way conscience is understood and employed These differences are reflected in the distinct perspectives of D Free in Deed

Craig L. Nessan, 2022 Free in Deed provides an imaginative and succinct introduction to Lutheran ethics which the author contends is finally neighbor ethics. The gospel of Jesus Christ sets us free to serve neighbors including all creation and their well being. This Lutheran framework provides a distinctive approach for navigating social issues in tumultuous times

Aguinas's Eschatological Ethics and the Virtue of Temperance Matthew Levering, 2019-11-15 Matthew Levering offers a biblical and Thomistic portrait of the cardinal virtue of temperance and its allied virtues in dialogue with an ecumenical range of theologians and scholars In Aquinas s Eschatological Ethics and the Virtue of Temperance Levering argues that Catholic ethics make sense only in light of the biblical worldview that Jesus has inaugurated the kingdom of God by pouring out his spirit Jesus has made it possible for us to know and obey God's law for human flourishing as individuals and communities He has reoriented our lives toward the goal of beatific communion with him in charity which affects the exercise of the moral virtues that pertain to human flourishing Without the context of the inaugurated kingdom Catholic ethics as traditionally conceived will seem like an effort to find a middle ground between legalistic rigorism and relativistic laxism which is especially the case with the virtue of temperance the focus of Levering's book After an opening chapter on the eschatological biblical character of Catholic ethics the ensuing chapters engage Aguinas s theology of temperance in the Summa theologiae which identifies and examines a number of virtues associated with temperance Levering demonstrates that the theology of temperance is profoundly biblical and that Aguinas s theology of temperance relies for its intelligibility upon Christ's inauguration of the kingdom of God as the graced fulfillment of our created nature The book develops new vistas for scholars and students interested in moral theology **An Introduction to Christian Ethics** Alberto de Mingo Kaminouchi, 2020-10-20 2021 Catholic Media Association Award first place award in morality ethics christology mariology and redemption What does it mean to live and build up the Kingdom of God In this book professor and priest Alberto de Mingo Kaminouchi introduces the contemporary reader to Christian ethics by examining the New Testament through the three key concepts of Aristotle's ethics happiness virtue and love In turn the three affirmations orient this reflection through the Gospel First when the triune God appears on the horizon it becomes easier to understand that existence has a purpose namely participating with the entire human family in this project of happiness called the Kingdom of God Second happiness is not something outside of us it consists in the practice of the virtues that bring about a personal transformation Third the project of the Kingdom leads us to live in love with others De Mingo Kaminouchi shows the reader a real model of this in the community we call the church the field hospital for all those in need of hope This book is accessibly written for readers not Scripture and Ethics Jeffrey S. Siker, 1997 Siker brings together the history of already well versed in Christian ethics biblical interpretation and the study of uses of the Bible in Christian ethics to examine how the Bible has actually been used in Christian theological ethics and in the process profiling eight influential twentieth century theologians Free and <u>Faithful</u> Bernhard Häring, 1998 Considered by many to be the most significant figure in Catholic moral theology in the second

half of the 20th century Bernard Haring has had a pioneering role in the modern Church This is his long awaited autobiography the personal bittersweet memoir of a son brother soldier priest evangelist renowned writer While a young priest Haring was drafted as a German army medic in World War II A man of staunch will unshakable faith he defied orders forbidding him to say Mass risked his life to minister to refugees Jewish concentration camp inmates soldiers from the opposing side A prolific writer he is best known for Free Faithful in Christ a pioneering work of moral theology that proposed a life centered rather than a sin centered code of Catholic conduct Haring served as an expert peritus at the Second Vatican Council playing a seminal role in the drafting of the document Pastoral Constitution on the Church in the Modern World was a member of the papal birth control commission arguing strongly for a change in Catholic contraceptive teaching Later in life Haring lived under the shadow of an investigation trial by the Congregation for the Doctrine of the Faith yet never faltered in his efforts to speak out Free Faithful is both an insider s view of the major currents shaking the life of the Catholic Church as well as a deeply moving personal testament of faith **Reason Informed by Faith** Richard M. Gula, 1989 Excellent textbook introduction to the basic issues of fundamental moral theology that considers all of today s moral issues From Misery to Hope Joe Egan, 2010 How can one believe in a God of love amid all the evil and suffering found in the world How does one do theology after Auschwitz while vast numbers of people still have to endure violent oppression every day This book seeks to address such questions from a standpoint informed by life in Africa which in the face of extraordinary difficulties bears witness to Gospel hope by demonstrating forgiveness in action and promoting reconciliation The work unfolds in two parts In the first part a description of the misery that characterises much of life in Africa in the recent past opens up to a theological consideration of the underlying causes and of God's response to them In the second part the jov which is so characteristic of life in Africa even in places of immense suffering sets the scene for detailed reflections on liturgy memory forgiveness and hope What's with Free Will? Philip Clayton, James W. Walters, 2020-03-10 Are humans free or are we determined by our genes and the world around us The question of freedom is not only one of philosophy s greatest conundrums but also one of the most fundamental questions of human existence It s particularly pressing in societies like ours where our core institutions of law ethics and religion are built around the belief in individual freedom Can one still affirm human freedom in an age of science And if free will doesn t exist does it make sense to act as though it does These are the issues that are presented probed and debated in the following chapters A dozen experts specialists in medicine psychology ethics theology and philosophy grapple with the multiple and often profound challenges presented by today s brain science After examining the arguments against traditional notions of free will several of the authors champion the idea of a chastened but robust free will for today one that allows us still to affirm the value of first person experience

**Liberation Ethics** Thomas Louis Schubeck,1993-01-01 Thoroughly researched critically reasoned and well written Schubeck s book is a model of caring and careful discernment Arthur McGovernUniversity of Detroit **Butler's Lives of** 

**the Saints: August** Alban Butler, Paul Burns, 1998-01-01 For more than two centuries Butler's has been one of the best known most widely consulted hagiographies In its brief and authoritative entries readers can find a wealth of knowledge on the lives and deeds of the saints as well as their ecclesiastical and historical importance since canonization
