provincial authorities give quite a different image There were the highly conventional exhibitions of Brabantine tapestries to promote the craftsmanship of the province and there were the more innovative textile exhibitions Taken as a whole the commissions competitions and exhibitions give a good overview of what was happening in Belgium in the field of tapestry over the period 1945 1980 They also make it clear what image was being projected abroad that of a country with rich traditions master craftsmanship in weaving and in the 1970s some affiliation to the latest developments in European textile art
