Democratic Uprisings in the New Middle East Mahmood Monshipouri, 2016-01-08 As Egypt retreats from its newly elected government and Syria moves from one crisis to another this book s reflection on the Arab Spring could not be more timely Monshipouri s account of the role of emotion solidarity and online activism is informed by several trips to the region that continue to this day The uprisings were fueled by a demographic surge of young people unable to find employment and frustrated by the lack of freedom and now the elected regime has been ousted for failing to address these continuing circumstances While modern technologies and social media may have brought new politics to the streets organization on the ground trumps the enthusiasm of young protesters when it comes to shaping a country s political future How to turn elections into democracy in these post conflict societies continues to be a daunting task especially in countries with a longstanding history of military involvement in politics now experiencing a resurgence This book addresses all of these subjects in an engaging and accessible narrative Key features of the text

Identity in the Age of the New Economy Torben Elgaard Jensen, Ann Westenholz, 2004-01-01 Exploring the

nexus between identity and the organization of work life this wide ranging multi disciplinary book will be of great interest to both academics and practitioners in the fields of human resource management industrial relations and psychology It will also appeal to those with an interest in organization theory **BOOK JACKET** **Interculturality in Learning Mandarin Chinese in British Universities** Tinghe Jin,2020-11-29 As China and Chinese language learning moves centre stage economically and politically questions of interculturality assume even greater significance In this book interculturality draws attention to the processes involved in people engaging and exchanging with each other across languages nationalities and ethnicities The study which adopts an ecological perspective critically examines a range of issues and uses a variety of sources to conduct a multifaceted investigation Data gathered from interviews with students of Mandarin sit alongside a critical discussion of a wide range of sources *Interculturality in Learning Mandarin Chinese in British Universities* will be of interest to students and academics studying and researching Chinese language education and academics working in the fields of language and intercultural communication intercultural education and language education in general *India in the Persianate Age, 1000-1765* Richard Maxwell Eaton,2019 With relish and originality historian Eaton traces the rise of Persianate culture introduced to India in the 11th century by dynasties based in eastern Afghanistan **Fighting Identity** Michael Vlahos,2008-12-30 This work highlights a national ethos infused by a sacred narrative of divine mission This deep association leads to a narrow approach to conflict relationships built around an Us vs Them distance from the enemy in which their submission is achieved through kinetic effects and their subsequent redemption through our good works reconstruction Vlahos contends that America s difficult engagement in the Muslim world demonstrates urgently that different operational approaches and tactics like counterinsurgency are not enough Alternative paradigms of strategic engagement are needed but their very consideration requires deeper cultural rethinking about how we assess world change and other cultures and how our national ethos makes war Why are terrorists and insurgents we fight so formidable Their strength and our vulnerability is in identity Clausewitz knew that geist spirit was always stronger than the material identity is power in war But how can non state actors face up to nation states The answer is in globalization This is the West s 3rd globalization Two centuries of intense mixing has torn down old ways of life and created a growing demand for new belonging There is also a decline in US universalism America s vision as history s anointed prophet and manager is now competing head to head with renewed universal visions Like Late Antiquity and the High Middle Ages our globalization begins to subside We may be in the later days of American modernity We can see this worldwide as emerging local communities within states and meta movements find their voice through conflict and war Identities struggling for realization are always the most powerful Add the diffusion of new technology and new practice and even the poorest and seemingly most primitive group can now make war against those on high They are successful because of a symbiotic fit between old states and new identities Increasingly old societies no longer find identity celebration in war while non state identities embrace the struggle for realization Hence non state wars

with America become a mythic narrative for them Our engagement actually helps them realize identity and we become the midwife This book offers another path to deal with non state challenges one that does not further weaken us *Nursing Theories and Nursing Practice* Marlaine C.
