Weisbrod, 2000-05 Nonprofit organizations are increasingly resembling private firms in a transformation bringing with it a shift in financial dependence from charitable donation to commercial sales activity This book first published in 1998 examines the reasons and consequences of the mimicry of private firms by fundraising nonprofits User fees and revenue from ancillary activities are mushrooming with each having important side effects pricing out of the market certain target groups or distracting the nonprofit from its central mission The authors focus first on issues that apply to nonprofits generally the role of competition analysis of nonprofit

organization behavior the effects of distribution goals and differential taxation of nonprofit and for profit activity revenue the effects of changes in donations on commercial activity and conversions of nonprofits to for profits They then turn to specific industries hospitals universities social service providers zoos museums and public broadcasting The book concludes with recommendations for research and for public policy toward nonprofits Human Beings--between the Individual and the Social Peter Herrmann,2006 Looking for an answer of social science being able to maintain political independence without losing genuine political orientation and responsibility and at the same time maintaining a sophisticated balance of holistic orientation on the one side and discrimination on the other side is of course on the one hand bound to the objective conditions of society on the other hand and even more so scientists have to accept their responsibility of re gaining independence in terms of looking for valid answers to assess development and to change them where necessary rather than fulfilling expectations of the development by simply maintaining the status quo In this regard the present contributions reach a high level of expertise in their independence of judgements This is of particular interest as they cover a huge variety of topics and areas not least coming from different disciplinary backgrounds and as well looking at different aggregate levels
