*Emile Durkheim* Émile Durkheim, 1966      **Émile Durkheim** Émile David Durkheim, 1963      Émile Durkheim Émile David Durkheim, 1963      Émile Durkheim ... With Selected Essays Robert A. Nisbet, Émile Durkheim, 1965      *Selected Writings* Émile Durkheim, 1972 This is the only collection of Durkheim's writings to draw upon the whole body of his work. Many of the texts in the book are here translated for the first time. Dr Giddens takes his selections from a wide variety of sources and includes a number of items from untranslated writings in the *Revue Philosophique*, *Année Sociologique* and from *L'évolution pédagogique en France*. Selections from previously translated writings have been checked against the originals and amended or re-translated where necessary. Dr Giddens arranges his selections thematically rather than chronologically. However, extracts from all phases of Durkheim's intellectual career are represented, giving the date of their first publication, which makes the evolution of his thought easily traceable. In his introduction, Dr Giddens discusses phases in the interpretation of Durkheim's thought as well as the main themes in his work with an analysis of the effects of his thinking on modern sociology. The book is for students at any level taking courses in sociology, social anthropology and social theory for whom Durkheim is one of the major writers studied.

**Emile Durkheim** Anthony Giddens, 1972      **Emile Durkheim** Steven Lukes, 1985 This study of Durkheim seeks to help the reader to achieve a historical understanding of his ideas and to form critical judgments about their value. To some extent, these two aims are contradictory. On the one hand, one seeks to understand what Durkheim really meant, how did he see the world, how did his ideas relate to one another and how did they develop, how did they relate to their biographical and historical context, how were they received, what influence did they have and to what criticism were they subjected, what was it like not to make certain distinctions, not to see certain errors of fact or of logic, not to know what has subsequently become known. On the other hand, one seeks to assess how valuable and how valid are the ideas, to what fruitful insights and explanations do they lead, how do they stand up to analysis and to the evidence, what is their present value. Yet it seems that it is only by inducing oneself not to see and only by seeing them that one can make a critical assessment. The only solution is to pursue both aims, seeing and not seeing simultaneously. More particularly, this book has the primary object of achieving that sympathetic understanding without which no adequate critical assessment is possible. It is a study in intellectual history which is also intended as a contribution to sociological theory.

**Epistemology and Practice** Anne Warfield Rawls,2005-05-12 In this original and controversial book Professor Rawls argues that Durkheim s *The Elementary Forms of Religious Life* is the crowning achievement of his sociological endeavour and that since its publication in English in 1915 it has been consistently misunderstood Rather than a work on primitive religion or the sociology of knowledge Rawls asserts that it is an attempt by Durkheim to establish a unique epistemological basis for the study of sociology and moral relations By privileging social practice over beliefs and ideas it avoids the dilemmas inherent in philosophical approaches to knowledge and morality that are based on individualism and the tendency to privilege beliefs and ideas over practices both tendencies that dominate western thought Based on detailed textual analysis of the primary text this book will be an important and original contribution to contemporary debates on social theory and philosophy

CHOICES: Never-Ending Dilemmas in Everyday Life Arthur Asa Berger,2024-01-23 This book is about the never ending need we have to make choices If you think about it we have to decide what time to wake up every morning what to wear unless we need to wear a uniform what to have for breakfast if we eat breakfast lunch and dinner and if we eat in restaurants what to order and our need to make all kinds of other choices all day long Some of our choices are mundane like what to have for breakfast if we eat breakfast to have coffee or tea and if so plain or with milk cereal toast or a bagel and if so what kind plain with poppy seeds with everything or a sweet roll eggs if so fried soft boiled scrambled and so on Most of the choices we make are not important and we often develop habits to relieve us of having to think about our choices For example I have the same thing for breakfast every day a bowl of oatmeal with chia seeds and flax seeds hot milk a cup of espresso coffee with hot milk and half a bagel with butter Occasionally I have a soft boiled egg as well But other choices we have to make are life changing such as how to live single living with a partner or getting married what kind of education to get what kind of job or profession to choose where to live and what kind of house to buy if you can afford a house whom to vote for and so on After reading this book you will better understand the role that the choices we make play in society and culture and in our everyday lives     Emile Durkheim W.S.F Pickering,2013-11-05 Emile Durkheim is widely lauded as one of the founding fathers of modern Sociology and for his substantial contribution to the sociology of education This set brings some of his most important writings on the subject together for the first time
