Help Them Succeed At Rehab & Prevent Relapse: A Guide For Parents And Partners Of People Leaving Addiction Behind , Emotion and Discourse in L2 Narrative Research Matthew T. Prior,2015-11-18 This book examines the interactional management of emotionality in second language autobiographical interview research

Advancing a discursive constructionist approach it offers a timely methodological and reflexive perspective that brings into focus the dynamic and dilemmatic aspects of interviewee and interviewer identities and experiences and it makes visible the often unexpected and unseen consequences for the research project and beyond The author weaves together critical discussion and empirical analysis based on longitudinal narrative based research with adult immigrants from Southeast Asia living in the US and Canada This interdisciplinary book will be compelling reading for students researchers and others interested in emotion narrative discourse identity interaction interviews and qualitative research *Well-Being* Daniel Kahneman,Edward Diener,Norbert Schwarz,1999-07-08 The nature of well being is one of the most enduring and elusive subjects of human inquiry Well Being draws upon the latest scientific research to transform our understanding of this ancient question With contributions from leading authorities in psychology social psychology and neuroscience this volume presents the definitive account of current scientific efforts to understand human pleasure and pain contentment and despair The distinguished contributors to this volume combine a rigorous analysis of human sensations emotions and moods with a broad assessment of the many factors from heredity to nationality that bear on our well being Using the tools of experimental science the contributors confront the puzzles of human likes and dislikes Why do we grow accustomed and desensitized to changes in our lives both good and bad Does our happiness reflect the circumstances of our lives or is it determined by our temperament and personality Why do humans acquire tastes for sensations that are initially painful or unpleasant By examining the roots of our everyday likes and dislikes the book also sheds light on some of the more extreme examples of attraction and aversion such as addiction and depression Among its wide ranging inquiries Well Being examines systematic differences in moods and behaviors between genders explaining why women suffer higher rates of depression and anxiety than men but are also more inclined to express positive emotions The book also makes international comparisons finding that some countries populations report higher levels of happiness than others The contributors deploy an array of methods from the surveys and questionnaires of social science to psychological and physiological experiments to develop a comprehensive new approach to the study of well being They show how the sensory pleasures of the body can tell us something about the higher pleasures of the mind and even how the effectiveness of our immune system can depend upon the health of our social relationships *Individual, Relational, and Contextual Dynamics of Emotions* Laura Petitta,Charmine E. J. Härtel,Neal M. Ashkanasy,Wilfred Zerbe,2018-09-24 This volume contributes to the ongoing study of the forces that shape the functioning of individual interpersonal workplace relationships and it demonstrates the complex interplay between emotion cognitive processes brain functioning and contextual factors at multiple levels of workplace life **Advances in Emotion Regulation: From Neuroscience to Psychotherapy** Alessandro Grecucci,Remo Job,Jon J. Frederickson,2017-08-24 Emotions are the gift nature gave us to help us connect with others Emotions do not come from out of nowhere Rather they are constantly generated usually by stimuli in our interpersonal world They bond us to others guide us in navigating our

social interactions and help us care for each other Paraphrasing Shakespeare Our relationships are such stuff as emotions are made of Emotions express our needs and desires When problems happen in our relationships emotions arise to help us fixing those problems However when emotions can become dysregulated pathology begins Almost all forms of psychopathology are associated with dysregulated emotions or dysregulatory mechanisms These dysregulated emotions can become regulated when the therapist helps clients express face and regulate their emotions and channel them into healthy actions This research topic gathers contributions from affective neuroscientists and psychotherapists to illustrate how our emotions become dysregulated in life and can become regulated through psychotherapy
