Emotions What They Are And How They Affect Us:

Self and Affect Stefan Lang, Maik Niemeck, 2025-01-11 The self self awareness and emotions are central subjects within contemporary philosophy of mind but comparatively little attention has been paid to the relationships between them This volume brings together philosophers from different specialisms to explore these relationships from three different angles First whether a theory of self awareness can contribute to a theory of emotion including how different aspects and kinds of self awareness are related to different emotions Second from the opposite direction whether research into emotions can help achieve a better understanding of self consciousness Finally the book considers how emotions are involved in the nature and development of selves Self and Affect is essential reading for all scholars and researchers of the philosophy of mind especially those focussing on emotions and self awareness

Lovemarks Kevin Roberts, 2005-12-01 Ideas move mountains especially in turbulent times Lovemarks is the product of the fertile iconoclast mind of Kevin Roberts CEO Worldwide of Saatchi Saatchi Roberts argues vociferously and with a ton of data to support him that traditional branding practices have become stultified What is needed are customer Love affairs Roberts lays out his grand scheme for mystery magic sensuality and the like in his gloriously designed book Lovemarks Tom Peters Tom Peters one of the most influential business thinkers of all time described the first edition of Lovemarks the future beyond brands as brilliant He also announced it as the Best Business Book published in the first five years of this century Now translated into fourteen languages with more than 150 000 copies in print Lovemarks is back in a revised edition featuring a new chapter on the peculiarly human experience of shopping The new chapter Diamonds in the Mine is an insightful collection of ideas for producers and consumers for owners of small stores and operators of superstores So forget making lists Shopping says Kevin Roberts is an emotional event With this as a starting point he looks at the history of shopping and how it has changed so dramatically over the last ten years Using the Lovemark elements of Mystery Sensuality and Intimacy Roberts delves into the secrets of success that can be used to create the ultimate shopping experience

The Ghost in the Gospels Leon Zitzer, 2006 Judas and Jewish leaders Continually tried and condemned for Jesus death This book exonerates them and ends the longest running witch trial in history The search for the true circumstances of Jesus death is an intellectual detective story The clues are all in words in the texts of the well known Gospels and they re in the prejudices that blinded us to the obvious answer This is not a tale about intrigue in the antiquities market Nor is it about looking for secret documents buried in a cave This is rather a tale about scholarly self deception in reading the Gospels Jewish history and themselves If the historical Jewish Jesus has been buried at all it is beneath our prejudices and fears Uncover these and he stands before you hidden in plain sight That may not be the usual sort of detective story but it is as genuine a mystery as ever there was It s worth solving If you re dying to know the complete solution it s all there in a nutshell in Chapter 5 If you feel a need to wade into this more slowly start with Chapter 1 I ll meet up with you again at the end of the book

Emotions and Personhood Giovanni Stanghellini, René

Rosfort,2013-02-07 How does a person experience emotions What is the relationship between the experiential and biological dimensions of emotions How do emotions figure in a person's relation to the world and to other people How do emotions feature in human vulnerability to mental illness Do they play a significant role in the fragile balance between mental health and illness If emotions are in fact significant how are they relevant for treatment Emotions and personhood are important notions within the field of mental health care What they are and how they are related though is less evident This book provides a framework for understanding this relationship The authors argue for an account of emotions and personhood that attempts to understand human emotions from the combined approach of philosophy and psychopathology taking its models particularly from hermeneutical phenomenology and from dialectical psychopathology Within the book the authors develop a basic set of concepts for understanding what emotional experience means for a human person with the assumption that human emotional experience is fragile a fact which entails vulnerability to mental disturbance Drawing on research from psychiatry psychopathology philosophy and neuroscience the book will be valuable for both students and researchers in these disciplines and more broadly within the field of mental health **Thinking Through Feeling** Anastasia Philippa

Scrutton,2011-10-06 Contemporary debates on God's emotionality are divided between two extremes Impassibilists deny God's emotionality on the basis of God's omniscience omnipotence and incorporeality Passibilists seem to break with tradition by affirming divine emotionality often focusing on the idea that God suffers with us Contemporary philosophy of emotion reflects this divide Some philosophers argue that emotions are voluntary and intelligent mental events making them potentially compatible with omniscience and omnipotence Others claim that emotions are involuntary and basically physiological rendering them inconsistent with traditional divine attributes Thinking Through Feeling God Emotion and Passibility creates a three way conversation between the debate in theology contemporary philosophy of emotion and pre modern particularly Augustinian and Thomist conceptions of human affective experience It also provides an exploration of the intelligence and value of the emotions of compassion anger and jealousy **His image and likeness: human body** ,2025-01-07

IN HIS IMAGE AND LIKENESS is a fascinating and comprehensive analysis of the human body exploring its strengths limitations and complexities from physical mental emotional and social perspectives Through examples from everyday life scientific research and real testimonies the book analyzes the human body from its beginnings its state in the present and its destiny after death This book combines historical data recent research and real testimonies to address the deepest aspects of human nature With a multidisciplinary and accessible approach IN HIS IMAGE AND LIKENESS is ideal for readers interested in human health psychology sociology and human rights It is an essential tool to understand the challenges and potentials of the human body in the context of modern society A Break in Your Cycle Theresa Francis-Cheung,2008-04-21

The Emotions of Protest James M. Jasper, 2018-05-24 In Donald Trump s America protesting has roared back into fashion The Women s March held the day after Trump s inauguration may have been the largest in American history and resonated around the world Between Trump s tweets and the march s popularity it is clear that displays of anger dominate American politics once again There is an extensive body of research on protest but the focus has mostly been on the calculating brain a byproduct of structuralism and cognitive studies and less on the feeling brain James M Jasper s work changes that as he pushes the boundaries of our present understanding of the social world In *The Emotions of Protest* Jasper lays out his argument showing

that it is impossible to separate cognition and emotion At a minimum he says we cannot understand the Tea Party or Occupy Wall Street or pro and anti Trump rallies without first studying the fears and anger moral outrage and patterns of hate and love that their members feel This is a book centered on protest but Jasper also points toward broader paths of inquiry that have the power to transform the way social scientists picture social life and action Through emotions he says we are embedded in a variety of environmental bodily social moral and temporal contexts as we feel our way both consciously and unconsciously toward some things and away from others Politics and collective action have always been a kind of laboratory for working out models of human action more generally and emotions are no exception Both hearts and minds rely on the same feelings racing through our central nervous systems Protestors have emotions like everyone else but theirs are thinking hearts not bleeding hearts Brains can feel and hearts can think Affectivity and Learning Pablo Fossa,Cristian

Cortés-Rivera,2023-07-27 This book presents an interdisciplinary approach to the study of affectivity and human learning by bridging the gap between neuroscience cultural and cognitive psychology It brings together studies that go beyond the focus on cognitive intellectual variables involved in learning processes and incorporate the study of the role played by affectivity and emotions in learning not only at educational settings but in all processes of transformation and human development thus presenting affectivity as a catalyst and mediator of all daily learning processes Chapters brought together in this contributed volume present both theoretical contributions and results of empirical research from different disciplines such as neuroscience cognitive psychology cultural psychology educational psychology developmental psychology and philosophy and are grouped into five thematic sections The first part of the book brings together chapters discussing different aspects of the role played by affectivity in learning processes from the perspectives of cultural educational and developmental psychology The second part is dedicated to the role of affectivity for teachers during their training as educators and during their pedagogical practice in diverse contexts The third part focuses on the relationship between affectivity and learning from a neuroscientific point of view The fourth part discusses affectivity and learning in therapeutic and clinical contexts Finally the fifth part brings together chapters about affectivity and learning in everyday life By bringing together this rich interdisciplinary collection of studies Affectivity and Learning Bridging the Gap Between Neurosciences Cultural and Cognitive Psychology will be a valuable resource for researchers in the fields of psychology neuroscience and education as well as for educators and teachers interested in knowing more about the relationship between affectivity and human learning
