the nature of average men and all great advances and degradations of society are the result of persistent causes but a few times since our records have been kept there has arisen a single genius who has done what no number of lesser men could accomplish who has upset theories as well as dominions preached a new faith discovered some new application of Force which has given a fresh start to the world in its weary and perplexed struggle for a higher life These few great men have so changed the current of affairs that we may safely say they have modified the future of the whole human race At any rate they have taught us what might and dignity is attainable by man and has so given us ideals by which the commonest of us can estimate his worth and exalt his aspirations So too there have been gigantic criminals and imperial fools who have wrecked the peace of the world and caused the ape and tiger elements which were repressed by long and anxious struggles to break out afresh in their savagery

Ghost on the Throne James S. Romm, 2011 Alexander the Great perhaps the most commanding leader in history united his empire and his army by the titanic force of his will His death at the age of 32 spelled the end of that unity The story of his conquests is known to many readers but the saga of the empire's collapse remains virtually untold Alexander bequeathed his power legend has it to the strongest leaving behind a mentally damaged half brother and a posthumously born son as his only heirs who quickly became pawns fought over by the Macedonian generals Meanwhile Alexander's former secretary Eumenes a man full of tricks and connivances became the determining factor in the precarious fortunes of the royal family Classicist James Romm tells the story of the men who followed Alexander and found themselves incapable of preserving his empire a world formerly united now ripped apart into a nightmare of warring nation states struggling for domination the template of our own times From publisher description
