Empty Hours A Study Week End Life Of Handicapped Children In Institutions:

The Empty Hours Maureen Oswin,1971 **Family Secrets** Deborah Cohen,2017 What did families hide in the past and why By delving into the familial dynamics of shame and guilt Family Secrets investigates the part that families so often regarded as the agents of repression have played in the transformation of social mores from the Victorian era to the present day Parents and Young Mentally Handicapped Children Helen McConachie,2016-01-08 First published in 1986 this book reviews research on the role parents play in fostering the early development of children with mental handicaps Professionals and parents must work together to give such children the chance of living as ordinary lives as possible and here the author develops a broadly based conceptual framework for the involvement of parents as teachers of their young handicapped children McConachie identifies characteristics of parents which seem of particular relevance to the design and success of intervention programmes Although written in the 1980s this book discusses topics that are still important today Disability and Child Sexual Abuse Martina Higgins,John Swain,2010 Disability and Child Sexual Abuse examines the ways in which society marginalises institutionalises and places disabled children in situations of unacceptable risk and how as evidenced in the survivors narratives patterns of service delivery can contribute to the problem Based on the accounts of seven disabled individuals who were sexually abused in childhood the book highlights a wide range of pertinent issues Through case vignettes and empirical research the authors ask practitioners to scrutinise their current professional practice exploring participants experiences of hospitalisation education systems and local authorities They consider the issue of who abuses and why and highlight issues relating to the complexities involved in revisiting past experiences and confronting unwarranted and unwanted feelings of responsibility The difficulty of recounting the abuse narrative is also examined within the research context This book will be relevant for professionals and students in the social health and education services such as social workers teachers and counsellors It will also offer insights for those seeking a less disablist society including disabled people themselves **Disabled Children** Anne Borsay,2015-10-06 This volume of essays attempts to identify the shared experiences of disabled children and examine the key debates about their care and control The essays follow a chronological progression while focusing on the practices in a number of different countries Leaving Residential Care Jim Black,Paul Brearley,Penny Gutridge,Dr Gwyneth Roberts,Gwyneth Roberts,2013-07-04 Tavistock Press was established as a co operative venture between the Tavistock Institute and Routledge Kegan Paul RKP in the 1950s to produce a series of major contributions across the social sciences This volume is part of a 2001 reissue of a selection of those important works which have since gone out of print or are difficult to locate Published by Routledge 112 volumes in total are being brought together under the name The International Behavioural and Social Sciences Library Classics from the Tavistock Press Reproduced here in facsimile this volume was originally published in 1982 and is available individually The collection is also available in a number of themed mini sets of between 5 and 13 volumes or as a complete collection Researching Learning Difficulties

Jill Porter, Penny Lacey, 2005 The book will help readers to critically evaluate the implications of research reports for their own practice

The Politics of Childhoods Real and Imagined Priscilla Alderson, 2015-11-23 The second volume of Priscilla Alderson's popular and renowned book *Childhoods Real and Imagined* relates dialectical critical realism to childhood. By demonstrating their relevance and value to each other Alderson presents a practical introductory guide for applying critical realism to research about children and young people. Each chapter summarises key themes from several academic disciplines and policy areas ranging from climate change and social justice between generations to neoliberalism, social reform and imagining utopias. Children's and adults' views and experiences are reviewed and whereas the first volume deals with more personal and local aspects of childhood this volume widens the scope into debates about global politics which so seldom mention children. Each chapter demonstrates how children and young people are an integral part of the whole of society and are often especially affected by policies and events. This book is written for everyone who is researching, studying or teaching about childhood or who cares for and works with children and young people as well as those interested in critical realist approaches.

Disability and Social Policy in Britain since 1750 Anne Borsay, 2004-11-17 This approachable study explores experiences of physical and mental impairment in Britain since the Industrial Revolution. Using literary, visual and oral sources to complement documentary evidence Anne Borsay pays particular attention to the testimonies of disabled people. *Disability and Social Policy in Britain since 1750* Places disability policies within their historical context, examines citizenship and social exclusion from a historical perspective. Sketches the key characteristics of modern industrial societies. Focuses on the shifting mixed economy of welfare, the development of social rights and the construction of identity. Assesses institutional living in workhouses, hospitals, asylums and schools. Appraises community living with reference to employment, financial relief and community care. Reviews social policies post 1979. Borsay argues that disabled people were excluded from the full rights of citizenship because they were marginal to the labour market and suggests that history may play a role in raising personal and political consciousness. Containing illustrations and clearly structured this book is an ideal guide for all those with an interest in the history of disability and social policies.

The War on Disabled People Ellen Clifford, 2020-06-18 In 2016 a United Nations report found the UK government culpable for grave and systematic violations of disabled people's rights. Since then, driven by the Tory government's obsessive drive to slash public spending whilst scapegoating the most disadvantaged in society, the situation for disabled people in Britain has continued to deteriorate. Punitive welfare regimes, the removal of essential support and services and an ideological regime that seeks to deny disability has resulted in a situation described by the UN as a human catastrophe. In this searing account Ellen Clifford, an activist who has been at the heart of resistance against the war on disabled people, reveals precisely how and why this state of affairs has come about. From spineless political opposition to self-interested disability charities, rightwing ideological myopia to the media demonization of benefits claimants, a shocking picture emerges of how the government of the fifth richest country in

the world has been able to marginalize disabled people with near impunity Even so and despite austerity biting ever deeper the fightback has begun with a vibrant movement of disabled activists and their supporters determined to hold the government to account the slogan Nothing About Us Without Us has never been so apt As this book so powerfully demonstrates if Britain is to stand any chance of being a just and equitable society their battle is one we should all be fighting

National Library of Medicine Current Catalog National Library of Medicine (U.S.),1971 *Exploring Experiences of Advocacy by People with Learning Disabilities* Duncan Mitchell,2006 This book charts the course through which people with learning disabilities have become increasingly able to direct their own lives as fully active members of their communities Many of the personal accounts photographs and songs included in this book will be accessible and encouraging to people with learning disabilities

Intellectual Disability and Psychotherapy Alan Corbett,2018-09-21 *Intellectual Disability and Psychotherapy The Theories Practice and Influence of Valerie Sinason* charts the transformative impact of the noted psychotherapist s work with children and adults with intellectual disabilities upon both a generation of clinicians and the treatment and services delivered by them Examining how contemporary Disability Therapists have discovered used and adapted such pioneering concepts as the Handicapped Smile and Secondary Handicap as a Defence Against Trauma in their clinical work the book includes contributions from renowned practitioners and clinicians from around the world It shines a light on how Sinason s work opened doors for working with people who were previously thought of as unreachable *Intellectual Disability and Psychotherapy* will be an essential resource to anyone working with children or adults with disabilities as well as psychotherapists interested in exploring Valerie Sinason s work

Residential Child Care Andrew Kendrick,2008 Draws on recent research to address key issues in residential child care policy and practice in the UK offering guidance for developing best practice and improved outcomes for children and young people

Penicillin Robert Bud,2007 *Penicillin* is the drug of the twentieth century It was the first of the antibiotics that for decades after the Second World War underpinned a popular belief that infectious disease had at last met its match With the emergence of superbugs in recent decades these hopes have faded Across the world we are warned that widespread antibiotic abuse will inexorably erode the drugs efficacy and our own earlier confidence in them *Penicillin* pulls these different but conjoined stories into a compelling narrative spanning the second half of the twentieth century Using a wealth of new research Robert Bud sets the discovery and use of penicillin in the broader context of social and cultural change across the world He examines the drug s critical contributions to medicine and agriculture and he investigates the global spread of resistant bacteria as antibiotic use continues to rise Clearly written and highly topical his book will be of great interest to historians scientists and anyone wishing to understand penicillin s seismic impact on modern life *Penicillin Triumph and Tragedy* Curated by Robert Bud A new exhibition looking back over 50 years will explore changing attitudes to antibiotics and launch at the Science Museum on Thursday 10 May 2007 In the 1950s antibiotics were cast as wonder drugs but strains of bacteria resistant to penicillin

were already widespread They caused many deaths most dramatically infecting hospitalised victims of Asian flu in the autumn of 1957 Now we fear MRSA How have attitudes hopes and fears changed in half a century Press information from Stephen Bromberg Science Museum Press Office stephen.bromberg@sciencemuseum.org.uk 020 7942 4352 [Social Work with People with Learning Difficulties](#) Paul Williams,Michelle Evans,2013-04-15 Part of the Transforming Social Work Practice series this title intends to support students on the social work degree It seeks to confirm and strengthen social work values and principles so that the progress and successes achieved by Valuing People can continue *American Book Publishing Record Cumulative, 1950-1977* R.R. Bowker Company. Department of Bibliography,1978 **Mental health nursing** Anne Borsay,Pamela Dale,2015-07-01 This book seeks to integrate the history of mental health nursing with the wider history of institutional and community care It develops new research questions by drawing together a concern with exploring the class gender skills and working conditions of practitioners with an assessment of the care regimes staff helped create and patients experiences of them Contributors from a range of disciplines use a variety of source material to examine both continuity and change in the history of care over two centuries The book benefits from a foreword by Mick Carpenter and will appeal to researchers and students interested in all aspects of the history of nursing and the history of care The book is also designed to be accessible to practitioners and the general reader *Current Issues in Clinical Psychology* Eric Karas,2012-12-06 This book is the second volume in the series Current Issues in Clinical Psychology which is designed to build into a composite text of the field of clinical psychology The contents of the series are based on the post qualification training conferences held each autumn in Merseyside These events organised by a sub group of the training committee of the Mersey Regional Group of Clinical Psychologists are unique in that they are the only annual psychology conferences in Britain focussing exclusively on clinical areas The opening paper of Volume 1 of the series emphasised the importance of the present disposition towards sustained clinical training for practising psychologists The series Current Issues in Clinical Psychology represents a contribution to this trend by offering practitioners an opportunity to assimilate innovations in clinical theory and practice in the young but vigorously developing discipline of clinical psychology In order to provide a forum for contemporary issues and also to produce complementary texts of lasting value it has been necessary to carefully select both the theme of each symposium and contributors able to fulfill these aims **Transforming Children's Spaces** Alison Clark,2010-02-25 How can young children play an active role in developing the design of learning environments What methods can be used to bring together children s and practitioners views about their environment What insights can young children offer into good designs for these children s spaces With the expansion of early childhood education and the move to extended schools more young children will spend more time than ever before in institutions Based on two actual building projects this book is the first of its kind to demonstrate the possibilities of including young children s perspectives in the design and review of children s spaces Situated at the heart of the debate about the relationship between the built

environment and its impact on children's learning and wellbeing Transforming Children's Spaces provides insights into how young children see their environment discusses children's aspirations for future spaces develops the Mosaic approach pioneered by the author as a method for listening to young children and adults Emphasising the importance of visual and verbal methods of communication this fascinating book demonstrates how practitioners and young children can articulate their perspectives and shows how participatory methods can support new relationships between children practitioners and architects This book is essential reading for those who work in children's spaces and for those who design them as well as being of general interest to those studying education and childhood studies
