Muysken, 2025-10-01 What happens sociologically linguistically educationally politically when more than one language is in regular use in a community How do speakers handle these languages simultaneously and what influence does this language

contact have on the languages involved Although most people in the world use more than one language in everyday life the approach to the study of language has usually been that monolingualism is the norm The recent interest in bilingualism and language contact has led to a number of new approaches based on research in communities in many different parts of the world This book draws together this diverse research looking at examples from many different situations to present the topic in any easily accessible form Language contact is looked at from four distinct perspectives The authors consider bilingual societies bilingual speakers language use in the bilingual community finally language itself do languages change when in contact with each other Can they borrow rules of grammar or just words How can new languages emerge from language contact The result is a clear concise synthesis offering a much needed overview of this lively area of language study

Spanish and English in Small Town and Rural America Daniel James Smith, 2024-12-26 This book examines Spanish English bilingual patterns in a small town and rural Northeast Georgia community of Hispanics recently immigrated from Mexico and other areas of Latin America Speech data from naturally occurring conversations by 56 children and adults of both sexes are analyzed within Myers Scotton's Matrix Language Frame MLF model Eight language patterns are identified including monolingual Spanish and English turns codeswitched turns and turns showing convergence morphemes words from one language with grammatical structure from the other Tokens of each type per sentence or short conversational turn were counted per informant Analysis reveals that percentages of monolingual and codeswitched utterances pattern in relation to percentages of utterances showing convergence indicating that informants Spanish does not begin to converge toward English until fewer than 70% of their utterances are monolingual Spanish and that both codeswitching and convergence are mechanisms of language shift from dominance in one language to another Several associated social factors of the informants including age gender and country of origin expand understanding of the linguistic and shift patterns The percentages of the different language types also indicate abrupt shifts from predominance of one language type to another This snapshot of a language shift in process and the abruptness of the shifts in stages is the unique observation of this study that has not been reported by other language contact researchers The book also addresses the simultaneous acquisition of Spanish and English by young children and implications for education The book will be of interest to students teachers and researchers of linguistics sociolinguistics bilingual education and Spanish English contact specifically **AFIP Letter**
