Watson, 2015-04-24 Compelling By focusing on cannibalism sex and gender presents the relationship between discourse and power in the unfolding of empire Carole Blackburn The University of British Columbia Cannibalism for medieval and early modern Europeans was synonymous with savagery Humans who ate other humans they believed were little better than animals The European colonizers who encountered Native Americans described them as cannibals as a matter of course and they wrote extensively about the lurid cannibal rituals they claim to have witnessed In this definitive analysis Kelly L. Watson argues that the rumors of cannibalism surrounding Native Americans served a practical purpose European colonizers had to forge new identities in the Americas and find ways to not only subdue but also co exist with native peoples In her close read of letters travel accounts artistic renderings and other descriptions of cannibalism Watson focuses on how gender race and imperial power intersect within the figure of the cannibal Watson reads cannibalism as a part of a dominant European binary in which civilization is rendered as male and savagery is seen as female and she argues that as Europeans came to dominate the New World they continually rewrote the

cannibal narrative to allow for a story in which the savage effeminate cannibalistic natives were overwhelmed by the force of virile European masculinity Original and historically grounded *Insatiable Appetites* uncovers the ways in which difference is understood in the West An engaging comparative study of how a long standing trope became a mainstay of European imperial thought *Journal of Interdisciplinary History* This fine book follows untraveled paths combining fascinating discoveries in new primary sources with refreshing interpretations *Journal of American History* Insightful Choice *Catalog of Copyright Entries. Gender, Geography and Empire Cheryl McEwan,2019-06-03 This title was first published 2000 This text is intended to draw together two important developments in contemporary geography firstly the recognition of the need to write critical histories of geographical thought and particularly the relationship between modern geography and European imperialism and secondly the attempt by feminist geographers to countervail the absence of women in the histories The author focuses on the narratives of British women travellers in West Africa between 1840 and 1915 exploring their contributions to British imperial culture teh ways in which they wer empowered in the imperial context by virtue of both race and class and their various representations of West African landscapes and peoples The book argues for the inclusion of women and their experiences in histories of geographical thought and explores the possibilities and problems of combining feminist and post colonial approaches to these histories

Eating Beauty Ann W. Astell,2016-02-09 The enigmatic link between the natural and artistic beauty that is to be contemplated but not eaten on the one hand and the eucharistic beauty that is both seen with the eyes of faith and eaten on the other intrigues me and inspires this book One cannot ask theo aesthetic questions about the Eucharist without engaging

fundamental questions about the relationship between beauty art broadly defined and eating from Eating Beauty In a remarkable book that is at once learned startlingly original and highly personal Ann W Astell explores the ambiguity of the phrase eating beauty The phrase evokes the destruction of beauty the devouring mouth of the grave the mouth of hell To eat beauty is to destroy it Yet in the case of the Eucharist the person of faith who eats the Host is transformed into beauty itself literally incorporated into Christ In this sense Astell explains the Eucharist was productive of an entire way of life a virtuous life form an artwork with Christ himself as the principal artist The Eucharist established for the people of the Middle Ages distinctive schools of sanctity Cistercian Franciscan Dominican and Ignatian whose members were united by the eucharistic sacrament that they received Reading the lives of the saints not primarily as historical documents but as iconic expressions of original artworks fashioned by the eucharistic Christ Astell puts the faceless Host in a dynamic relationship with these icons With the advent of each new spirituality the Christian idea of beauty expanded to include first the marred beauty of the saint and finally that of the church torn by division an anti aesthetic beauty embracing process suffering deformity and disappearance as well as the radiant lightness of the resurrected body This astonishing work of intellectual and religious history is illustrated with telling artistic examples ranging from medieval manuscript illuminations to sculptures by Michelangelo and paintings by Salvador Dal Astell puts the lives of medieval saints in conversation with modern philosophers as disparate as Simone Weil and G W F Hegel
